MISSION STATEMENT

Platt Hill Nursery is a complete retail garden center where meeting our customers' needs is our first priority.

Our mission is to:

- Consistently provide our customers with professional service combined with the best quality and widest selection of plants, garden and seasonal merchandise.
- Create and maintain a positive working environment for the welfare and growth of the employees and the company.
- Earn a fair profit as a return on investment.
- Strive for excellence in everything we do and be the best garden center of our time.

SEASONAL SPECIALTIES

VALENTINE'S DAY - Blooming Plants

SPRING - Bedding Plants, Vegetable Plants, Perennials, Roses, Trees, Shrubs, Seeds, Fertilizer, Tools, Trellises, Stone, Mulch, Tropical Blooming Plants

EASTER - Lilies, Potted Tulips, Hyacinth, Blooming Plants, Flowering Easter Baskets

MOTHER'S DAY - Blooming Plants, Flowering Garden Baskets, Annual Planters

FATHER'S DAY - Patio Planters, Gardening Supplies, Bird Feeders, Fountains, Trees

AUTUMN - Fall Mums, Pumpkins, Gourds, Indian Corn, Bulbs for Spring Color, Trees, Shrubs, Evergreens, Mulch

CHRISTMAS - Poinsettias, Fresh Cut Christmas Trees, Fresh Wreaths and Roping, Artificial Trees, Artificial Wreaths and Roping, Light Sets, Bows, Decorations and More!

WINTER - Birdseed, Firewood, Tropical Plants, Wicker Baskets, Decorative Pots, Spring Atmosphere

GUARANTEE

Platt Hill Nursery guarantees:

- Trees and shrubs for 50% of the purchase price for one year from the date of purchase.
- Roses and perennials for 50% of the purchase price until November 1st of the year of purchase.
- Annuals, aquatics, herbs, vegetables, houseplants and tropicals for 50% of the purchase price for 7 days from the date of purchase.
- Only plants that are planted in the ground are guaranteed. Plant and original sales receipt must be returned when requesting credit.

Plants, as every living thing, require proper care. This is the buyer's responsibility. Risks beyond our control include improper watering, fertilization, poor soil conditions, insects and diseases.

This guarantee is void if:

- Plants are not planted in the ground (i.e. planted in a container).
- Plants are damaged by humans, animals, herbicides or acts of nature.
- Customer does not provide reasonable care.

**Please No Cash Refunds,
STORE CREDIT ONLY**

SOIL AMENDMENT REQUIREMENTS

APPROXIMATE SOIL AMENDMENT REQUIREMENTS

The following is based on digging a hole twice as wide as the pot size and filling in with 20% blended compost or peat moss.

Pot Size	1 Cu. Ft. Bale Peat Moss Will Plant Approx.:	One 40-lb. Bag Michigan Peat Moss Will Plant:
#1 2.7 qt. (2.5 L)	10-12 plants	8 plants
#2 1.5 gal. (5.68 L)	8-12 plants	6 plants
#5 3.8 gal. (14.7 L)	6-8 plants	3 plants
#7 6.2 gal. (23 L)	4-5 plants	2 plants

Amount of Peat Moss Required to Plant a:	Sphagnum Peat	40-lb. Michigan Peat Moss
#10 9.0 gal. (34 L)	½ cu. ft.	1 40-lb. bag
#15 13.5 gal. (51 L)	¾ cu. ft.	1½ 40-lb. bags
#20 19.7 gal. (75 L)	1 cu. ft.	2 40-lb. bags
B & B plant	1 cu. ft.	2 40-lb. bags

Pot Size	Blended or Mushroom Compost Will Plant:
#2 1.5 gal. (5.68 L)	10-12 plants
#5 3.8 gal. (14.7 L)	6-8 plants
#7 6.2 gal. (23 L)	3-4 plants
#15 13.5 gal. (51 L)	2 plants
B & B 18"	3 plants
B & B 3'	1 plant

EVERGREENS

- (Abies koreana 'Siberlocke')

KOREAN SIBERLOCKE FIR

Slightly curled needles reveal a silvery white underside.
 Considered to be a more heat tolerant fir.
 Height: 15-20 ft. Spread: 6-10 ft.

#5	\$89.95
#7	\$99.95

- (Abies lasiocarpa 'Glauca Compacta')

CORKBARK COMPACT FIR

Wonderful dwarf pyramidal form of the Rocky Mountain Fir
 with silver blue compact foliage and off-white bark.
 Height: 6 ft. Spread: 3 ft.

#5	\$89.95
#10	\$169.95

(Juniperus)

TOPIARY JUNIPERS

We carry a broad selection of trained 'Topiary Evergreens'.
 They vary in size and shape from Pom Poms to Spirals.

Pricing for all Topiaries \$69.95 - \$299.95

- (Juniperus pfitziana 'Monsan')

SEA OF GOLD JUNIPER

Dramatic lacy yellow foliage that contrast with its green
 underside. Spreading form for all year color.
 Height: 3 ft. Spread: 4 ft.

#1	2.7 qt. (2.5 L)	\$11.95
#2	1.5 gal. (5.68 L)	\$34.95
#5	3.8 gal. (14.7 L)	\$39.95

- **BLUE ARROW JUNIPER**

An extremely narrow and upright evergreen, with showy
 powdery blue foliage and blue berries; adaptable to dry
 soils, but needs full sun; excellent for color accents or
 screening. Makes a unique, almost formal tall evergreen
 hedge. Height: 12-15 ft. Spread: 3-4 ft.

#5	\$69.95
#15	\$199.95

- **SKYROCKET JUNIPER**

This is perhaps the most popular upright landscape juniper,
 forming a narrow column of tight branches carrying silvery
 blue foliage. It grows rapidly and requires little maintenance.
 Height 12-15 ft. Spread 3-4'

#5	\$69.95	
4-5'	\$99.95	
#15	\$129.95	
	5-6' B&B	\$129.95

○ **JUNIPER (Spreading or Groundcover)**

Good for foundations and borders. Requires well drained soil and full sun.

#1	2.7 qt. (2.5 L)	\$11.95
#2	1.5 gal. (5.68 L)	\$29.95
#5	3.8 gal. (14.7 L)	\$39.95

(Juniperus horizontalis 'Icee Blue')

Icee Blue Juniper #1, #2

Silvery blue foliage and a very compact ground cover. Dense, tightly compressed foliage resembles a thick carpet. Adult growth has distinctive purple-tinged tips. Height: 4 in. Spread: 5-6 ft.

(Juniperus procumbens 'Nana')

Dwarf Japanese Garden Juniper #1, #2, #5

Compact creeping evergreen with needle-like green foliage; excellent along walks, terraces or rock gardens. Height: 6-12 in. Spread: 4-6 ft.

Daub's Frosted Juniper #1, #2, #5

Evergreen branch tips are frosted with gold on the upper surface and blue green foliage on the underside.

SPRUCE

○ (Picea abies)

NORWAY SPRUCE

Dark green needles on dense branches. Pendulous branchlets provide a graceful appearance to its pyramidal form. Use for tall screen or windbreak. Fast growing. Height: 40-60 ft. Spread: 25-30 ft.

#10		\$99.95
	4-5'	\$169.95

○ (Picea abies 'Cupressina')

COLUMNAR NORWAY SPRUCE

A rare find that is perfect for narrow areas. Can be maintained at 6-10 ft. Height: 25-30 ft. Spread: 5-7 ft.

	3-4'	\$89.95
	4-5'	\$149.95
	5-6'	\$169.95

○ **CLANBRASSILIANA (TOLLEYMORE) SPRUCE**

This very slow growing form of Norway Spruce develops into a conical shaped specimen which is unusual in dwarf conifers. Height 5-8 ft Spread 3-4 ft.

#7		\$89.95
----	--	---------

- (Picea abies 'Little Gem')

LITTLE GEM SPRUCE

A very dense, short green needled evergreen that is perfect for a rock garden.

Height: 1-2 ft. Spread: 1-2 ft.

#1	2.7 qt. (2.5 L)	\$16.95
#2	1.5 gal. (5.68 L)	\$34.95
#3	2.6 gal. (9.84 L)	\$39.95

- **DWARF NORWAY 'PUMILA'**

This very full and round evergreen shrub maintains its prim and proper form with the most minimal of occasional pruning.

Height 3-4 ft Spread 3-4 ft.

#1	2.7 qt. (2.5 L)	\$14.95
#2	1.5 gal. (5.68 L)	\$34.95
#3	2.6 gal. (9.84 L)	\$39.95
#5	3.8 gal. (14.7 L)	\$49.95
#7		\$69.95

- (Picea glauca 'Conica')

DWARF ALBERTA SPRUCE

Slow growing miniature spruce. Useful as a foundation plant for tight spots, and in small gardens as an accent plant.

Looks like a miniature Christmas tree.

Height: 5-7 ft. Spread: 3 ft.

#3		\$49.95
#5	3.8 gal. (14.7 L)	\$69.95
#7		\$89.95
#10		\$129.95

- (Picea pungens 'Fat Albert')

FAT ALBERT BLUE SPRUCE

Dense upright pyramidal habit with good blue needle color. Rigid, tiered branches are densely covered with stiff needles.

Height: 15-20 ft. Spread: 10-12 ft.

4-5' \$169.95

- (Picea pungens 'Glauca')

COLORADO BLUE SPRUCE 'Baby Blue Eyes'

Dwarf form of blue spruce. Intense blue needles and excellent compact habit. Great for small yards.

Height: 15-20 ft. Spread: 8-10 ft.

4-5' \$169.95

- (Picea pungens 'Globosa')

DWARF GLOBE BLUE SPRUCE

This dwarf spruce is flat-topped and densely branched. Bright blue needles hold their color all year but brighter in summer. Excellent specimen or accent plant. Slow grower. Height: 3 ft. Spread: 4 ft.

#2	1.5 gal. (5.68 L)	\$39.95
#5	3.8 gal. (14.7 L)	\$69.95
#7		\$99.95

- (Picea pungens 'Hoopsii')

HOOPSI COLORADO BLUE SPRUCE

The bluest and best of all blue spruces. Full sun. Prefers well drained soil. Height: 30-50 ft. Spread: 10-20 ft.

4-5' \$169.95

PINE

- (Pinus flexilis 'Vandewolf's Pyramid')

VANDEWOLF'S PYRAMID LIMBER PINE

A vigorous, upright selection of Limber Pine with especially soft blue-green foliage.

Height: 20-25 ft. Spread: 10-15 ft.

4-5' \$169.95

- (Pinus mugo pumilio)

DWARF MUGO PINE

Grows in a compact wide mound. Deep green color; good foundation and small garden plant.

Height: 2-8 ft. Spread: 3-10 ft.

#2		\$34.95
#3		\$39.95
#5	3.8 gal. (14.7 L)	\$49.95

- (Pinus mugo 'Slowmound')

SLOWMOUND MUGO PINE

A true dwarf Mugo Pine without pruning. A dark-green, dense mound that produces many showy buds. Will fit well into confined areas.

Height: 2-3 ft. Spread: 3 ft.

#3	2.6 gal. (9.84 L)	\$39.95
----	-------------------	---------

- (Pinus strobus)

EASTERN WHITE PINE

Soft, pale green needles. Pyramidal form. Prefers well drained soil. Plant in a protected location. Fast growing.

Height: 50-60 ft. Spread: 20-40 ft.

4-5' \$169.95

○ = Full Sun ● = Part-Shade ● = Shade

○● = Sun or Shade

YEW

○● (Taxus cuspidata 'Capitata')

PYRAMIDAL JAPANESE YEW

The only true tree form of the Japanese yews. Dark green, pyramidal form. Yews require well drained soil. Plant in sun or shade. Valued as an entrance and corner foundation plant.

Height: Can be maintained at 6-10 ft. Spread: 6-8 ft.

18"	\$49.95
3'	\$99.95
4'	\$149.95

○● (Taxus x media Cultivars)

SPREADING YEW (Taxus x media Cultivars)

Requires well drained soil. Ideal for foundation plantings or hedge.

15"	\$39.95
18"	\$49.95
24"	\$89.95

(Taxus x media 'Densiformis')

Dense Spreading Yew

15", 18", 24"

Dense, dark green, compact evergreen.

Height: 3-4 ft. Spread: 4-6 ft.

(Taxus x media 'Hicksii')

Hicks Upright Yew

15", 18", 24"

A dense, upright, columnar evergreen. Can have attractive red berries in fall.

Height: 8-10 ft. Spread: 3-5 ft.

(Taxus x media 'Tauntonii')

Taunton Spreading Yew

15", 18", 24"

A low growing, hardy yew; does not burn or discolor in winter. Performs well in heat.

Height: 3-4 ft. Spread: 4-8 ft.

ARBORVITAE

○● (Thuja occidentalis 'Hetz Midget')

HETZ MIDGET ARBORVITAE

Dwarf globe shape with dense flat layered needles. Grows in dry to moist conditions.

Height: 2-3 ft. Spread: 2-3 ft.

#1	2.7 qt. (2.5 L)	\$14.95
#2	1.5 gal. (5.68 L)	\$24.95
#3	2.6 gal. (9.84 L)	\$39.95
#5	3.8 gal. (14.7 L)	\$39.95

○● (Thuja occidentalis 'Holmstrup')

HOLMSTRUP ARBORVITAE

Compact, upright growth habit. Bright green foliage. Great for small gardens or rock gardens.

Height: 4-5 ft. Spread: 2-3 ft.

3-4'	\$69.95
4-5'	\$89.95

○● (Thuja occidentalis 'Linesville')

LINESVILLE ARBORVITAE

Dwarf form has a perfect round habit. Fine, lacy texture with soft silver green foliage, and bronze tips in winter. Height: 2-3 ft. Spread: 2-3 ft.

#1		\$14.95
#2		\$34.95
#3		\$39.95
#5	3.8 gal. (14.7 L)	\$39.95

○● (Thuja occidentalis 'Little Giant')

LITTLE GIANT ARBORVITAE

A naturally globe shaped evergreen that, once established, is very tolerant of many conditions. Height: 4 ft. Spread: 4 ft.

#1		\$14.95
#2		\$34.95
#3	2.6 gal. (9.84 L)	\$39.95
#5	3.8 gal. (14.7 L)	\$49.95

○● (Thuja occidentalis 'Smaragd')

EMERALD GREEN ARBORVITAE

Dense, narrow cone-shaped form, with bright green foliage all year. Excellent for screening. Keep moist until established. Height: 10-15 ft. Spread: 4 ft.

#1		\$11.95
#5	3.8 gal. (14.7 L)	\$39.95
	4-5'	\$59.95
	5-6'	\$69.95

○● (Thuja occidentalis 'Techny')

MISSION ARBORVITAE

Dark green, wide pyramidal evergreen. Excellent screen or hedge plant. Height: 10-15 ft. Spread: 6-8 ft.

	3-4'	\$69.95
	4-5'	\$89.95

●● (Tsuga canadensis)

CANADIAN HEMLOCK

A wide spreading, graceful, fern-like evergreen. Useful as a hedge or screen, needs some wind and sun protection. Height: 15-25 ft. Spread: 8-10 ft.

#5		\$49.95
	4-5'	\$129.95

BROADLEAF EVERGREENS

BOXWOOD (*Buxus* Cultivars) ●●

Makes a good foundation or small hedge. Formal in appearance. Protect from winter winds.

#1	2.7 qt. (2.5 L)		\$14.95
#2	1.5 gal. (5.68L)		\$34.95
		15-18"	\$39.95
		18-24"	\$49.95
		24-30"	\$69.95
		30-36"	\$89.95

(*Buxus* x 'Green Gem')

Green Gem Boxwood

A compact round shrub with deep green foliage throughout winter. Requires little pruning.

Height: 2 ft. Spread: 2 ft.

(*Buxus* x 'Green Mountain')

Green Mountain Boxwood

Small dark green leaves form a perfect pyramidal to oval shape. More upright than other boxwoods.

Height: 5 ft. Spread: 3 ft.

(*Buxus* x 'Green Velvet')

Green Velvet Boxwood

Globe shape with lush green foliage. One of Platt Hill's favorite shrubs.

Height: 3 ft. Spread: 3 ft.

(*Buxus microphylla japonica* 'Winter Gem')

Winter Gem Boxwood

Large glossy foliage distinguishes this hardy boxwood.

Height: 4 ft. Spread: 4 ft.

Northern Charm

Oval shaped and cold hardy..

Height: 3-4 ft. Spread: 3-4 ft.

EUONYMUS CULTIVARS

● (Euonymus fortunei 'Emerald Gaiety')

EMERALD GAIETY EUONYMUS

Deep green leaves edged with sparkling white margins.

In winter, margins can be tinged with pink.

Height: 3-4 ft. Spread: 3-4 ft.

#1	2.7 qt. (2.5 L)	\$11.95
#2	1.5 gal. (5.68 L)	\$27.95
#5	3.8 gal. (14.7 L)	\$34.95

● (Euonymus fortunei 'Emerald 'N Gold')

EMERALD 'N GOLD EUONYMUS

Bright green foliage with gold edges all year long.

In winter, edges can be tinged with pink.

Height: 3-4 ft. Spread: 3-4 ft.

#1	2.7 qt. (2.5 L)	\$11.95
#2	1.5 gal. (5.68 L)	\$27.95
#5	3.8 gal. (14.7 L)	\$34.95

○● (Euonymus fortunei 'Moonshadow')

MOONSHADOW EUONYMUS

Foliage has bright yellow centers surrounded by glossy, dark green margins.

Height: 2-3 ft. Spread: 3-4 ft.

#1	2.7 qt. (2.5 L)	\$11.95
#2	1.5 gal. (5.68 L)	\$27.95
#3	2.6 gal. (9.84 L)	\$34.95

○● (Euonymus fortunei 'Gold Splash')

GOLD SPLASH EUONYMUS

Gold Splash is not just another Euonymus! It has large round leaves displaying a thick deep golden-yellow edge. Very showy. Yellow fruit and orange seed are very showy and persistent. Excellent hardiness, too.

Height: 18-24 in. Spread: 18-24 in.

#2		\$29.95
#3		\$39.95

HOLLY

●● (Ilex x meserveae 'Blue Prince' and 'Blue Princess')

BERRI-MAGIC ROYALTY HOLLY

A profusion of bright red berries is assured each fall with a fruiting and pollinator planted in the same container. The hardiest of the hollies.

Height: 4-6 ft. Spread: 4-6 ft.

#2	1.5 gal. (5.68 L)	\$34.95
#5	3.8 gal. (14.7 L)	\$49.95

●● (Ilex x meserveae 'MonNieves')

SCALLYWAG HOLLY

Small rounded form of holly turns attractive burgundy tone in fall. Nice for small gardens.

Height: 3-4 ft. Spread: 3-4 ft.

#2	1.5 gal. (5.68 L)	\$34.95
#5	2.6 gal. (9.84 L)	\$49.95

○ = Full Sun ● = Part-Shade ● = Shade

○● = Sun or Shade

BROADLEAF EVERGREENS

RHODODENDRON ●●

(Rhododendron catawbiense 'Nova Zembla')

NOVA ZEMBLA RHODODENDRON

Showy deep red flowers in late May with dark green foliage.
Height: 5 ft. Spread: 5-6 ft.

#3 2.6 gal. (9.84 L) 15-18" \$39.95

(Rhododendron 'Karens')

KARENS AZALEA

Hardiest evergreen azalea for zone 5. Foliage is a shiny dark green with burgundy red fall color. Flowers are lavender blooming in late April to May.
Height: 4 ft. Spread: 4 ft.

#3 2.6 gal. (9.84 L) 15-18" \$39.95

STEWARTSONIAN AZALEA

Glossy dark green foliage and stunning red flowers in May.
Height: 4-5 ft. Spread: 4-5 ft.

#3 2.6 gal. (9.84 L) 15-18" \$39.95

(Rhododendron x 'Haaga')

HAAGA RHODODENDRON

Large showy pink flowers in early spring. Great accent plant for a shady place.

Height: 3 ft. Spread: 3 ft.

#2 1.5 gal. (5.68 L) \$34.95

#5 3.8 gal. (14.7 L) \$49.95

(Rhododendron x PJM 'Compacta')

P.J.M. COMPACT RHODODENDRON

Shrub with compact bushy form. Lavender flowers in mid April to early May. Glossy, dark green foliage turning plum color in fall. Prefers acidic, well drained soil.

Height: 4-5 ft. Spread: 3-5 ft.

#3 2.6 gal. (9.84 L) \$39.95

USES OF EVERGREENS AND BROADLEAF EVERGREENS

SPREADING EVERGREENS

Low Growing, Creeping:

Icee Blue Juniper, Daub's Frosted Juniper,
Dwarf Japanese Garden Juniper, Emerald 'n Gold
Euonymus, Moonshadow Euonymus

Medium Growing:

Dwarf Mugo Pine, Taunton Yew, Densiform Yew,
Linesville Arborvitae, Hetz Midget Arborvitae,
Sea of Gold Juniper, Emerald Gaiety Euonymus,
Sarcoxie Euonymus, Vegetus Euonymus

COLUMNAR

Hicks Yew, Skyrocket Juniper, Emerald Green Arborvitae,
Holmstrup Arborvitae, Topiaries

FULL SUN (*All day direct sunlight*)

Junipers, Pines, Firs, Spruces, Arborvitae, Yews

SHADE TO HEAVY SHADE (*No more than 3 hours direct sunlight; shadow or shade the rest of the day*)

Yews & All Broadleaf Evergreens, Hemlock

MOIST SOIL, (BUT NOT WET)

Arborvitae, Hemlock

DROUGHT TOLERANT

White Fir, Junipers, Colorado Spruce, White Pine

WIND BREAKS

Colorado Spruce, Norway Spruce, Juniper, Arborvitae

ATTRACT BIRDS

Colorado Spruce, White Pine, Arborvitae, Hemlock

SALT TOLERANT

Colorado Spruce, Mugo Pine, Arborvitae, Hetz Juniper

DEER RESISTANT

Firs, Boxwood, Juniper, Colorado Spruce, Mugo Pine

NOTE:

As a group the broadleaf evergreens do not like winter sun. For best results plant them on a north or east exposure or plan to protect them in the winter with cut evergreen boughs or burlap.

○ = Full Sun ● (half) = Part-Shade ● (solid) = Shade
○● = Sun or Shade

SHADE TREES

TREES

- (Acer platanoides 'Crimson King')

CRIMSON KING MAPLE

Rich maroon leaf color throughout the growing season. Moderate to slow grower. Does best in well drained soil. Height: 35-40 ft. Spread: 30 ft.

#15 13.5 gal. (51 L) 1-1.5" \$149.95

- (Acer rubrum 'Red Sunset')

RED SUNSET MAPLE

Bright green foliage in summer turning to a brilliant red fall color. Upright, dense growth habit. Rated as one of the best Red Maples. Will grow well in damp soil. Height: 40-50 ft. Spread: 35 ft.

#15 13.5 gal. (51 L) 1-1.5" \$149.95

- (Acer rubrum 'Redpointe')

REDPOINTE MAPLE

Redpointe Maple is a rising star on the shade tree horizon. It is pest and disease resistant tree that is easily maintained. A vigorous grower that is well-behaved and balanced. It doesn't need much pruning and shaping to develop a symmetrical canopy. Height: 45 ft. Spread: 30 ft.

#15 13.5 gal. (51 L) 1-1.5" \$149.95

- (Acer x freemanii 'Autumn Blaze')

AUTUMN BLAZE MAPLE

A hybrid between the Red and Silver Maples. Fall color is a vibrant red. This variety is seedless, prefers damp or very wet soils, but is tolerant of normal soils. Fast growing. Height: 50-60 ft. Spread: 40-50 ft.

#15 13.5 gal. (51 L) 1-1.5" \$149.95

- (Acer saccharum 'Bailsta')

FALL FIESTA MAPLE

A faster growing sugar maple. Foliage emerges with a hint of red on its deep glossy green foliage. Excellent orange-red fall color. Height: 50-70 ft. Spread: 40 ft.

#15 13.5 gal. (51 L) 1-1.5" \$149.95

- (Betula platyphylla 'Dakota Pinnacle')

DAKOTA PINNACLE BIRCH

Very columnar upright shape makes a good tree for tight, narrow spaces. Height: 35 ft. Spread: 10 ft.

#15 13.5 gal. (51 L) \$129.95

○● (Betula nigra 'Heritage')

HERITAGE RIVER BIRCH

Pyramidal-shape available in clump form. Exfoliating bark exposes to a tan color, which contrasts nicely with the other white varieties of birch. Resistant to bronze birch borer. Tolerates wet locations. Yellow fall color. Height: 35-40 ft. Spread: 30 ft.

#15 13.5 gal. (51 L) 6-8' Clump \$129.95

○● (Betula platyphylla japonica 'Whitespire')

WHITESPIRE BIRCH

Distinctive narrow, pyramidal form with interesting white bark. Great yellow fall foliage color. Shows resistance to the Bronze Birch Borer. Height: 30-40 ft. Spread: 15-25 ft.

#15 13.5 gal. (51 L) 6-8' Clump \$129.95

○● Catalpa speciosa)

NORTHERN CATALPA

Large white flowers open in June. A native tree that is very tolerant of seasonal flooding or drought. Fast growing. Height: 40-50 ft. Spread: 20-40 ft.

#15 13.5 gal. (51 L) \$129.95

● (Fagus sylvatica 'Tricolor')

TRICOLOR BEECH

A purple-leaf form with leaves that have an irregular cream and pink border surrounding the purple center. The smooth gray of the trunk is beautiful in winter. Some shade is best. Height: 50 ft. Spread: 25-30 ft.

B & B 5-6' \$169.95

○● (Ginkgo biloba 'Autumn Gold')

AUTUMN GOLD MAIDENHAIR TREE

Wide spreading, picturesque branches; bright green leaves turning yellow in fall. Slow grower, but virtually pest-free. This tree dates back to prehistoric times. One of Platt Hill's favorites. Male variety only, which bears no fruit. Height: 50-60 ft. Spread: 30-40 ft.

#15 \$199.95

○● (Gleditsia triacanthos 'Streetkeeper')

STREETKEEPER HONEYLOCUST

A seedless tree with a narrow habit. Dark green in summer and yellow fall color. Height: 35-40 ft. Spread: 15-20 ft.

#15 13.5 gal. (51 L) \$129.95

○● (Gleditsia triacanthos 'Sunburst')

SUNBURST HONEYLOCUST

The Sunburst Honeylocust is a deciduous tree prized for its lovely foliage. Leaves begin as yellow in the spring, transition to green and again turn yellow in the fall. Thornless Height: 35-40 ft. Spread: 35-40 ft.

#15 13.5 gal. (51 L) \$129.95

SHADE TREES

○● (Liriodendron tulipifera)

TULIP TREE

Medium green foliage turns bright, clear yellow in fall.

Tulip shaped flowers of yellow, orange and green,
2-3" high and wide in May and June

Height: 60-80 ft. Spread: 30-40 ft.

#15 13.5 gal. (51 L) 1-1.5" \$129.95

○ (Metasequoia glypto)

DAWN REDWOOD

Needle-like foliage which dark green summer and red-
orange in late fall.

Height: 70-80 ft. Spread: 25 ft.

#15 13.5 gal. (51 L) \$129.95

○● (Quercus bicolor)

SWAMP WHITE OAK

A beautiful native tree well adapted to wet and poorly
drained soils. Rounded open shape turning to burgundy
fall color.

Height: 50-60 ft. Spread: 50-60 ft.

#15 13.5 gal. (51 L) 1-1.5" \$169.95

○● (Quercus rubra)

RED OAK

Moderately fast grower with large, dark green foliage.

Turns a deep red in the fall. Broad, stately shape.

Height: 40 ft. Spread: 20-30 ft.

#15 13.5 gal. (51 L) 1-1.5" \$169.95

○● (Salix alba 'Niobe')

GOLDEN WEEPING WILLOW

Graceful weeping tree with pendulous branches and showy
yellow bark. Very fast grower. Tolerates wet locations.

Yellow fall color.

Height: 50-70 ft. Spread: 50 ft.

#15 13.5 gal. (51 L) 1-1.5" \$129.95

○ (Taxodium distichum)

COMMON BALD CYPRESS

Slender pyramidal habit and needle-like foliage. likes wet
locations.

Height: 50-60 ft. Spread: 20-30 ft.

#15 13.5 gal. (51 L) \$129.95

USES OF SHADE TREES

FAST GROWING SHADE

Red Sunset Maple, Autumn Blaze Maple, Heritage River Birch, Skyline Locust, Dawn Redwood

FALL COLOR

Maple, Red Oak, Dawn Redwood, Ginkgo, Swamp White Oak, Tulip Tree, Bald Cypress

WET SOIL

Red Sunset Maple, Autumn Blaze Maple, Heritage River Birch, Swamp White Oak, Willow, Tulip Tree, Bald Cypress

DROUGHT TOLERANT

Maidenhair, Maples, Honey Locust, Oak

ATTRACT BIRDS

PRAIRIFIRE

Variety	Color	Height
Prairifire	Reddish-Purple	20 ft.
Royal Raindrops	Pink	20 ft.
Adams	Deep Pink	15-20 ft.
Pink Princess	Light Pink	6-8 ft.
Tina	White	5 ft.

- (Morus alba 'Chaparral')

WEeping MULBERRY

A graceful weeping fruitless form covered with very attractive bright green, glossy foliage turning to a yellowish fall color.

Height: 12-15 ft. Spread: 15-20 ft.

#15	13.5 gal. (51 L)	\$129.95
-----	------------------	----------

- (Prunus x cistena 'Big Cis')

BIG CIS PLUM

Purple foliage all season with lovely pink blooms in spring make this a superb addition to any landscape. Its small size makes it very versatile.

Height: 14 ft. Spread: 12 ft.

#10	9.0 gal. (34 L)	\$99.95
-----	-----------------	---------

- (Prunus serrulata 'Kwanzan')

KWANZAN CHERRY

One of the most popular flowering Prunus cultivars. It blooms heavily every spring with double pink blooms that are often over 2" in diameter. Fast grower with orange fall color.

Height: 20 ft. Spread: 20 ft.

#15		\$129.95
-----	--	----------

- (Prunus serrulata 'Royal Burgundy')

ROYAL BURGUNDY CHERRY

In spring Prunus serrulata 'Royal Burgundy' has a myriad of lovely, deep pink flowers which contrast very well against the dark burgundy colored leaves!

Height: 20-25 ft. Spread: 12-15 ft.

#15		\$129.95
-----	--	----------

○ (Pyrus calleryana 'Autumn Blaze')

AUTUMN BLAZE PEAR

Rounded habit tree with three seasons of interest. White flowers in Spring.

Height: 30-35 ft. Spread: 20-25 ft.

#15 13.5 gal. (51 L)

\$129.95

○ (Pyrus calleryana 'Chanticleer')

CHANTICLEER PEAR

Upright, pyramidal shape with green, glossy foliage turning dark red in fall. Flowers white in spring.

Height: 30-35 ft. Spread: 15 ft.

#15 13.5 gal. (51 L)

1-1.5"

\$129.95

○ (Pyrus 'Jack')

JACK Pear

Dwarf pyramidal shape with glossy foliage and fall color. White flowers in spring.

Height: 12-15'ft. Spread: 12-15' ft.

#10 9.0 gal. (34 L)

\$129.95

○● (Salix caprea pendula)

WEeping PUSSY WILLOW

Smaller weeping tree that produces soft silvery catkins in early spring. A very easy to grow tree.

Height: 8-10 ft. Spread: 8-10 ft.

#7

\$89.95

○● (Syringa reticulata)

IVORY TREE LILAC

Multi stemmed tree with creamy white flowers in June.

Low maintenance.

Height: 20-25 ft. Spread: 15 ft.

#15 13.5 gal. (51 L)

\$129.95

○● (Syringa reticulata 'Ivory Silk')

IVORY SILK JAPANESE TREE LILAC

Showy tree with large white flowers in June. Attractive cherry like bark makes this an excellent specimen.

Plant in well drained soil.

Height: 20-25 ft. Spread: 15 ft.

\$ 39.95

●● (Hydrangea macrophylla 'Kompeito')

STARGAZER HYDRANGEA

A constellation of star shaped pink or blue, (pH dependent), double blooms blankets this shrub. Each floret is edged in crisp white. Blossoms appear on both old and new wood so flowers are assured even after a tough winter.

Height 3-4 ft. Spread 3-4 ft.

#3 2.6 gal. (9.84 L)

\$ 39.95

●● (Hydrangea paniculata 'DVPinky')

PINKY WINKY HYDRANGEA

Very large conicle shaped 14" blooms are white turning to pink throughout late summer. Branching features attractive red stems.

Height: 6 ft. Spread: 6 ft.

#5	3.8 gal. (14.7 L)		\$39.95
#7	6.2 gal. (23 L)	Tree Form	\$119.95

○○ (Hydrangea paniculata 'HYPMAD I')

WHITE DIAMONDS HYDRANGEA

Expect 8 weeks or more of dazzling summer bloom from pure white spires held upright on strong branches. This particular variety is valued for its spires of mixed sterile and fertile white flowers that bloom from mid to late summer and remain white longer than most selections. Blooms well in partial shade.

Height 3-4 ft. Spread 3-4 ft.

#5	3.8 gal. (14.7 L)		\$39.95
----	-------------------	--	---------

○○ (Hydrangea paniculata 'ILVOBO')

BOBO HYDRANGEA

This dwarf Hydrangea is an undeniable asset for any garden, especially those with limited space. Bobo covers itself with large white blooms in summer and are held upright on strong stems and take on a pinkish blush in fall. They appear so abundantly, you can barely see the leaves! Height: 2-3 ft. Spread: 2-3 ft.

#3	2.6 gal. (9.84 L)		\$39.95
----	-------------------	--	---------

○○ (Hydrangea paniculata 'Jane' P.P.A.F.)

LITTLE LIME™ HYDRANGEA

A dwarf of the popular 'Limelight' hydrangea. Same great coloration in a smaller package. Height: 3-4 ft. Spread: 3-4 ft.

#3	2.6 gal. (9.84 L)		\$39.95
----	-------------------	--	---------

○○ (Hydrangea paniculata 'Limelight')

LIMELIGHT HYDRANGEA

Bright lime-green flowers add brightness to the late summer landscape. In autumn the blooms display shades of pink, burgundy, and green. Flowers on new wood. Height: 6 ft. Spread: 6 ft.

#5	3.8 gal. (14.7 L)		\$39.95
#7	6.2 gal. (23 L)	Tree Form	\$119.95

○○ (Hydrangea paniculata 'Quick Fire')

QUICK FIRE® HYDRANGEA

Large blossoms that have open appearance and open white and turn pink as they age. Excellent blooms that last from late summer through autumn. Height: 6-8 ft. Spread: 6-8 ft.

#5	3.8 gal. (14.7 L)		\$39.95
#7	6.2 gal. (23 L)	Tree Form	\$119.95

SHRUBS

○● (Hydrangea paniculata 'Rensun')

STRAWBERRY SUNDAE HYDRANGEA

It's an irresistible combination: big blooms on a compact shrub. Add the fact that these particular flowers open white, then quickly turn soft pink, and finally dark red, and you have the makings of a show stopping garden display.

Height 3-4 ft. Spread 3-4 ft.

#3 2.6 gal. (9.84 L)

\$39.95

○● (Hydrangea paniculata 'SMHPLQF')

LITTLE QUICK FIRE HYDRANGEA

The name says it all -- this diminutive shrub throws fluffy, creamy spikes that turn to deep pink with red highlights on bold, red stems. You'll enjoy their color in your garden before other paniculata varieties have even begun to bloom. It's the perfect accent for smaller spaces.

Height 3-5 ft. Spread 3-5 ft.

#3 2.6 gal. (9.84 L)

\$39.95

○● (Hydrangea paniculata 'SMHPRZEP')

ZINFIN DOLL HYDRANGEA

A unique new hardy hydrangea with loads of beautiful, dense blooms that emerge pure white, and turn bright pink from the bottom up. The blooms then age to a dark raspberry-pink. Gardeners will appreciate this plant's strong stems.

Height 6-8 ft. Spread 6-8 ft.

#3 2.6 gal. (9.84 L)

\$39.95

○● (Hydrangea paniculata 'Vanilla Strawberry')

VANILLA STRAWBERRY™ HYDRANGEA

Large and full blossoms that display a 2 tone pink and white color that lasts from late summer through autumn.

Height: 6-8 ft. Spread: 6-8 ft.

#5 3.8 gal. (14.7 L)

\$39.95

#7 6.2 gal. (23 L)

Tree Form

\$119.95

○● (Hydrangea quercifolia)

OAKLEAF HYDRANGEA

Excellent foliage shaped like a Red Oak leaf. Purple-red fall color. White flower clusters form large erect panicles in July.

Height: 4-6 ft. Spread: 6 ft.

#5 3.8 gal. (14.7 L)

\$39.95

○● (Hydrangea quercifolia 'Ruby Slippers')

RUBY SLIPPERS OAKLEAF

Blossoms go from white to pink to red. Great fall color.

Height: 3-4 ft. Spread: 4-5 ft.

#3 2.6 gal. (9.84 L)

\$39.95

○● (Hydrangea quercifolia 'Snow Queen')

SNOW QUEEN OAKLEAF HYDRANGEA

An improved Oak leaf hydrangea. Sturdy upright habit, able to tolerate more sun than the species, flower heads hold steady even after a rain shower.

Height: 4-6 ft. Spread: 4-6 ft.

#3 2.6 gal. (9.84 L) \$39.95

●● (Hydrangea serrata 'MAKD20')

TINY TUFF STUFF HYDRANGEA

This little guy is as 'tuff' as its name. The lace cap flowers feature tiny double blooms that are thick in substance. The florets tend to lean towards a pale blue color but you may also see shades of pinks and white. Tuff Stuff also has outstanding fall foliage color.

Height 1.5-2 ft. Spread 1.5-2 ft.

#3 2.6 gal. (9.84 L) \$39.95

○● (Hypericum calycinum 'NCHC1')

GOLDEN RULE ST. JOHNSWORT

This is the solution to many landscape challenges. An excellent groundcovering subshrub for shade, Golden Rule has colorful orange new growth and attractive yellow foliage. Yellow summer flowers up to 2" across add to its appeal.

Height 1-2 ft. Spread 1-2 ft.

#3 2.6 gal. (9.84 L) \$39.95

○● (Hypericum frondosum 'Sunburst')

SUNBURST ST. JOHNSWORT

Bright golden yellow flowers in July. Blue green foliage on upright stout branches. Nice plant for summer color.

Height: 2-3 ft. Spread: 2-3 ft.

#2 1.5 gal. (5.68 L) \$27.95

#3 2.6 gal. (9.84 L) \$39.95

●● (Ilex verticillata)

WINTERBERRY

Compact globe shape with deep green leaves. Fall foliage yellow-green to purplish bronze. Requires male and female for female to produce 1/2" bright red fruit ripening in late August to September.

#2 1.5 gal. (5.68 L) \$24.95

#5 3.8 gal. (14.7 L) \$39.95

Jim Dandy (male cultivar):

Height: 4-5 ft. Spread: 4-5 ft.

Red Sprite (female cultivar):

Height: 2-3 ft. Spread: 3-4 ft.

○ = Full Sun ● = Part-Shade ● = Shade

○● = Sun or Shade

SHRUBS

○● (Itea virginica)

VIRGINIA SWEETSPIRE

Blooms in June and July with fragrant white flowers. Prefers moist, fertile soil. Great for beds, borders and mass plantings.

#2	1.5 gal. (5.68 L)	\$29.95
#5	3.8 gal. (14.7 L)	\$39.95

Henry's Garnet – A rounded arching shrub with bright green foliage turning scarlet and crimson in fall.

Height: 3-5 ft. Spread: 4-6 ft.

Little Henry™ Dwarf – Low mounded, compact shrub with bright green foliage turning brilliant red in the fall.

Height: 2-3 ft. Spread: 2-3 ft.

○● (Ligustrum vulgare 'Cheyenne')

CHEYENNE PRIVET

Upright shrub with glossy, dark green foliage.

Excellent hardy formal hedge. Fast growing.

Height: 8-10 ft. Spread: 4-6 ft.

#1	2.7 qt. (2.5 L)	\$9.95
#5	3.8 gal. (14.7 L)	\$29.95
#7	6.2 gal. (23 L)	\$49.95

○ (Ligustrum x vicaryi)

GOLDEN VICARY PRIVET

Compact shrub with a showy golden yellow leaves all summer. A good accent plant. Mixes well with evergreens.

Plant in full sun to maintain color.

Height: 4-6 ft. Spread: 3-4 ft.

#2	1.5 gal. (5.68 L)	\$29.95
#5	3.8 gal. (14.7 L)	\$39.95

○● (Ligustrum x vicaryi 'KCLX1')

GOLDEN TICKET PRIVET

Finally a non-invasive privet shrub. Golden Ticket takes a really popular shrub variety and makes it so much better.

The golden foliage adds a splash of color to your landscape.

Enjoy this deer resistant shrub as a specimen or hedge.

Height 4-6 ft. Spread 4-6 ft.

#3	2.6 gal.	\$39.95
----	----------	---------

○● (Philadelphus 'Miniature Snowflake')

MINIATURE SNOWFLAKE MOCKORANGE

Double white fragrant flowers in early summer. Useful in mass plantings, as a low hedge or foundation plant.

Paniculata	Fall flowering white	15-20'	Sept.-Oct.	#2
Sweet Summer Love	Reddish-purple flowers	20-25'	July-Oct	#2
The President	Rich purple	8-10'	May-June	#3

More Varieties Available Upon Request

Pruning Care by Group Number

Group 1: Produces flowers on stems produced the previous season. Only remove the dead or weak stems, after flowering.

Group 2: These plants produce 2 flushes of blooms. Prune back old flower shoots to encourage rebloom. No pruning required except to shape plant.

Group 3: This group bears their flowers on new growth each year, therefore all old growth must be removed completely in February-March before new growth begins. Hard prune.

VINES

(Hydrangea anomala subsp. Petiolaris)

CLIMBING HYDRANGEA

Large white fragrant flowers are produced during late June-July. Will cling to brick or wood with rootlike holdfasts. True clinging vine. Some additional support recommended. Sun to part shade.

Grows: 30-40 ft. Spread: 8-10 ft.

#1 2.3 qt. (2.2 L) \$17.95 and up

(Lonicera 'Dropmore Scarlet')

DROPMORE SCARLET HONEYSUCKLE VINE

Brilliant scarlet-orange flowers. Blooms June through October. Grows: 20 ft.

#1 2.3 qt. (2.2 L) \$17.95

(Lonicera sempervirens 'Major Wheeler')

MAJOR WHEELER HONEYSUCKLE VINE

Many clusters of red trumpet-like flowers. Blooms June to Sept. Perfect for smaller gardens. Attracts hummingbirds and butterflies.

Grows: 4-8 ft.

#1 2.3 qt. (2.2 L) \$17.95

(Parthenocissus tricuspidata)

BOSTON IVY

Popular clinging vine with purplish new growth maturing to green before turning a brilliant red in fall. Valued for quick cover of brick or stone walls and fences. Shade to partial shade, but will tolerate sun in moist soil.

Grows: 30-40 ft. Spread: 20 ft.

#1 2.3 qt. (2.2 L) \$16.95 and up

(Wisteria)

WISTERIA

Lavender-blue flowers bloom earlier than other varieties.

Excellent over arbors or trellises. Fast growth rate. Sun to part shade.

Grows: 15-25 ft. Spread: 10 ft.

#1 2.3 qt. (2.2 L) \$17.95

FRUIT TREES

APPLE

#7 6.2 gal. (23 L)

\$ 69.95

Golden Delicious

Uniform fruit with greenish-yellow skin. Excellent flavor makes this one of the best all-purpose apples. Ripens in October. Semi-dwarf.

Pollination: Late season bloom time. Requires cross pollination. Best with Red Delicious, Honey Crisp, Red Fuji, and Royal Gala.

Honey Crisp

A 3" fruit that is coarse grained, crisp, mildly sweet. Has an extended ripening period and can be stored in the refrigerator for up to seven months. Ripens early September.

Pollination: Late mid-season. Requires cross pollination. Best with Red or Golden Delicious, Red Fuji, Gala.

Red Delicious

Medium to large size fruit with solid red skin; flesh is moderately firm, sweet and juicy. Good eating and salad apple. Ripens in October. Semi-dwarf.

Pollination: Late season bloom time. Requires cross pollination. Best with Golden Delicious, Honeycrisp, Red Fuji, Royal Gala.

Red Fuji

Medium sized, oblong-to-round fruit that is extraordinarily crisp and juicy. Cream colored flesh produces a delightful aroma. Ripens late October. Semi-dwarf.

Pollination: Mid-season. Requires cross pollination. Best with Red or Golden Delicious, Gala, Honeycrisp.

Royal Gala

A "bi-color" apple with orange-over-cream skin. The flesh of this apple has a sweet crispness and superior quality. Ripens early September. Semi-dwarf.

Pollination: Mid-season. Requires cross pollination. Best with Red or Golden Delicious, Honeycrisp, Red Fuji.

POLLINATION OF APPLE TREES

At least two apple varieties should be used to insure pollination. Cross-pollination is possible only when varieties bloom at approximately the same time, i.e., late blooming varieties should be planted with mid-season or late bloomers. Wind does not carry pollen from one apple tree to another, therefore bees are essential for proper pollination. Spraying programs should be adjusted to avoid killing bee populations. Do not spray while trees are in bloom. Premature fruit drop may be caused by improper pollination. All trees should be planted within 100 feet of pollinator tree.

FRUIT TREES

APRICOT

#7 6.2 gal. (23 L)

\$ 69.95

Moorpark

Fruit is freestone medium to large with an orange to yellow skin. Flesh is juicy and sweet. Ripens late-July. Use for desserts, preserves, canning. Self fruitful.

CHERRY

#7 6.2 gal. (23 L)

\$ 69.95

Black Tartarian

Sweet cherry with excellent 1" firm, black/red fruit. Has a somewhat weeping habit as it matures. Dwarf variety. Pollination: late season. Ripens late June. Self-fruitful.

North Star

Tart cherry with red fruit and flesh. Resists cracking and brown rot. Ripens in June. Semi-dwarf. Self-pollinating.

Stella

A juicy, sweet cherry with black skins and moderately firm flesh. Resists cracking and brown rot. Ripens early July. Dwarf. Self-pollinating.

POLLINATION FOR CHERRIES

Tart cherries are self-fruitful and only one tree is needed to get fruit, provided sufficient bee populations are present. Sweet cherries require two different sweet cherries to pollinate. Sweet and tart cherries cannot be counted on to satisfactorily pollinate each other.

NECTARINES

#7 6.2 gal. (23 L)

\$ 69.95

Fantasia

Large fruit good for canning, desserts, and fresh eating. Self-pollinating.

Flavortop

Red shiny fruit in midsummer. Self-pollinating.

PEACH

#7 6.2 gal. (23 L)

\$ 69.95

Elberta

Large fruit, golden yellow blushed with red. Freestone. Self pollinating. May need staking to prevent leaning when loaded with fruit. Ripens in mid August. Dwarf.

Redhaven

Medium-sized, freestone fruit of red and golden yellow. Good for freezing, canning, and eating. Disease resistant tree and fruits heavily. Self pollinating. Ripens in mid July. Dwarf.

POLLINATION FOR PEACHES

While most peach trees are self pollinating, you can improve pollination by thinning practices, pruning, and keeping the tree in good health, free from insects and disease.

PEAR

#7 6.2 gal. (23 L)

\$ 69.95

Anjou

Firm, bright green fruit is subtly sweet. The skin on this medium to large fruit has a tinge of yellow as it ripens. Semi-dwarf.

Pollination: Early season. Ripens late September. Cross pollination is required. Best with Bartlett.

Bartlett

Large size, golden yellow fruit is juicy and highly flavored. Strong grower. Ripens in mid September. Semi-dwarf. Pollination: Requires cross pollination. Best with New Century, Anjou.

20th Century

Asian pear with firm yellow skin on white flesh. Has sweet but slightly tart flavor. Should be picked several times to ensure the best quality. Semi-dwarf.

Pollination: Early season. Ripens late August. Cross pollination is required. Best with Bartlett.

POLLINATION FOR PEARS

Pears require cross pollination from another pear variety. Pears require more pollinizers and bees than any other fruit due to early bloom time and low nectar/sugar content of the flowers, which makes them less attractive to bees.

FRUIT TREES

PLUM

#7 6.2 gal. (23 L)

\$ 69.95

Italian Prune

A European favorite. Oval shaped blue-purple fruit with sweet golden flesh. Self-pollinating.

Santa Rosa

Medium fruit is orange-red to burgundy over orange-yellow flesh. Ripens mid-July. Standard. Self-pollinating.

POLLINATION FOR PLUMS

Plums bloom very early in the spring when the weather may be cold and wet, and bee activity is at a minimum.

Therefore, pollination and subsequent fruit set may be reduced.

SPACING FOR FRUIT TREES

	Height		Space
Apple	9-12 ft.	Semi-Dwarf	10 ft.
Apricot	8-10 ft.	Dwarf	10 ft.
Cherry	10-15 ft.	Semi-dwarf	10 ft.
	8-10 ft.	Dwarf	8 ft.
Nectarine	8-10 ft.	Dwarf	8 ft.
Peach	8-10 ft.	Dwarf	10 ft.
Pear	15 ft.	Semi-Dwarf	12 ft.
	8-10 ft.	Dwarf	10 ft.
Plum	8-20 ft.	Standard	12-18 ft.

All fruit trees require full sun and annual fertilization.

Fruit trees can be susceptible to a variety of insects and diseases which will negatively impact both the quality and quantity of your harvest yield.

We recommend you begin a spraying regimen by using Bonide fruit tree spray which contains both insecticide and fungicides. An organic alternative would be the use of Garden Safe 3 in 1 spray which contains neem oil.

Spray your tree when new growth first appears, and again when flower buds are fully formed and about to open. Spray again after all flower petals have fallen. Spray one more time when fruit is just forming, and then any time if needed as long as it is at least three weeks before harvest date.

FRUITS & BERRIES

BLACKBERRY

'Black Satin' #1 2.3 qt. (2.2 L) \$14.95 and up
Large, firm black berries ripen July-August. Semi-erect thornless canes. Full sun. Good for fresh eating, canning or cooking. 4'.

BLUEBERRY

#1 2.3 qt. (2.2 L) \$17.95 and up
#2 1.5 gal. (5.68L) \$29.95 and up

Plants require addition of pelletized sulfur to lower acidity of the soil to 4.5-5.5 pH. Prepare planting bed by tilling in liberal amounts of Canadian Peat Moss. Two different varieties of blueberries should be planted for best yield. Full sun. Not all varieties available in both sizes.

Blueberries are listed in order of ripening:

Patriot — 4-6' High bush type - Quarter size sweet berries.

Jersey — 5-7' High bush type - Large, blue sweet berries ripen midseason.

Top Hat — 18-24" Low bush type. Dwarf shrub - Pea sized fruits. Can be grown in containers and overwintered in the garage or shed.

CURRANT #2 1.5 gal. (5.68 L) \$14.95

'Black Consort'

Round, juicy, sweet black fruit. Can be used to make jam, jelly or wine. Ripens in July. 6'.

'Cherry Red'

Vigorous grower produces clusters of large, bright deep red fruit on 2-3 year old wood. Pruning of older canes periodically is advised. Space 4-5' apart. 4-6'. Self fertile. Sun to part-shade.

GOOSEBERRY #2 1.5 gal. (5.68 L) \$14.95

'Captivator'

Large, sweet purple-red berries ripen in July. Semi-thornless plants. Space 3-4' apart. 4'. Sun to part-shade.

FRUITS & BERRIES

GRAPES

#1	2.3 qt. (2.2 L)	\$9.95 and up
#2	1.5 gal. (5.68 L)	\$12.95 and up

Thrive in a well drained soil rich in organic matter. Canes need support on a trellis or fence. Fruit is borne on new growth, so severe pruning each February is advised. For sweeter flavor, thin grape bunches to balance leaf area with berry load. Full sun.

Concord Seedless

Fruit resembles Concord in color and flavor but the clusters and berries are smaller.

Canadice (Red)

Seedless red grape. Early variety ripens 2 weeks before Concord.

Himrod (White)

Top white seedless grape. Clusters are large, but rather loose with medium size sweet, yellow berries.

RASPBERRY #1 2.3 qt. (2.2 L) \$14.95 and up

The hardiest of the cane berries. Fruit is borne on the previous year's growth. Canes die after fruiting and should be removed. Red varieties sucker from the roots to develop new plants.

Caroline (Everbearing)

One of the most productive red varieties for this area. Large, flavorful, self-fruiting. Vigorous. 4-5'.

Heritage (Everbearing)

Medium size, firm red fruit. First crop ripens early July; second crop in mid-September. Often bears first September following planting. Fruit is long lasting on the canes.

RHUBARB Check for variety availability.

Bright red stalks hold their color when cooked. Slender stalks are very tender and sweet. Heavy yielding for pies, desserts and sauces. When harvesting pull stalks from plants, do not cut them. Leaves are toxic so remove stalks from plants before eating. Removal of flower spikes will prolong harvest.

Full sun. Grows: 3. Space 3-4' apart.'

2.3 qt. (2.2 L)	\$11.95
-----------------	---------

STRAWBERRY	Pak	\$1.79 ea.
	12 per flat	\$18.95 ea.
	5 or more	\$17.95 ea.

Quinalt

Most popular variety of everbearing strawberry. Large, soft, deliciously sweet fruit ideal for preserves or fresh eating. Produces from late spring through fall.

ROSES

Patented roses are the recently hybridized and newly introduced varieties. They are not necessarily better than the “tried and true” non-patented varieties, which have stood the test of time.

(HT) Hybrid Tea

Large flowers borne singly on long stems, usually double and fragrant. Bloom early summer til frost.

(FL) Floribunda

Cross between hybrid tea and the hardy polyantha ‘hedge’ rose; medium size flower borne in clusters on stems of medium length. Bloom late spring through autumn.

(GR) Grandiflora

Cross between hybrid tea and floribunda rose; medium size double flowers borne either singly or in small clusters; ideal for background borders.

(MI) Miniature

Small roses on compact plants - growing only to about 18". Great for small spaces - very cold hardy.

Climbing Roses

Large flowers borne in clusters on rigid thick canes 10-15 feet tall. Most bloom twice, in early summer and again in autumn.

Easy Elegance® Roses

\$34.95 each

Flowers are available in many colors. They are hardy, own root roses ranging from 2 to 5' in height, depending on variety.

Shrub (Hedge) (Knockout) Roses

\$34.95 each

Flowers can be single or double, borne singly or in clusters depending on variety. Most are everblooming. They need little maintenance.

- † Denotes Wildflower
- ↔ Denotes Groundcover
- x Denotes Cut Flower
- # Denotes Rock Garden Plant

▮ **ACTAEA (Bugbane)**

Formerly Cimicifuga. White flower clusters on stalks above broad foliage. May need staking. 3'. Partial shade. Space 3' apart.

▮●↔ **AEGOPODIUM (Snow on the Mountain)**

Variegatum

Leaves are green with white margins. Flowers are insignificant. Versatile groundcover for most situations. 6-12". Sun or shade. Space 10-15" apart. Invasive.

▮●↔ **AJUGA (Bugleweed)**

Blue flowers. Glossy foliage. Compact groundcover. May-June. Shade to part-shade.

Variety	Color	Height
Black Scallop	Purple-black	3-6"
Burgundy Glow	Pink silver	4-8"
Chocolate Chip	Chocolate brown	4"

x **ALCEA (Hollyhock)**

Stately biennial or short-lived perennial has spikes of ball-shaped flowers. July-August. Sun. Space 3' apart. Can reseed.

Variety	Color	Height
Chater's Double	Mixture	5-6'
Nigra	Dark maroon	5-8'

▮ **ALLIUM (Ornamental Onion)**

Millenium

Large, rounded rosy-purple flower clusters. July-August. 15-20". Sun to part-shade. Space 24" apart.

Summer Beauty

Clusters of pale pink flowers. Fragrant foliage is attractive all season. July-August. 2'. Sun to part-shade. Space 12-15" apart.

PERENNIALS

AMSONIA (Blue Star)

Blue Ice

Dark, green foliage with dark lavender-blue flowers. May. 14". Sun to part shade. Bright yellow fall color. Space 12-18" apart.

hubrichtii (Narrow Leaf Blue Star)

2011 Perennial Plant of the Year. Light blue flowers over feathery foliage. Foliage turns yellow-orange in fall. April-May. 2-3'. Sun. Space 3' apart.

xD† ANEMONE

hybrida (Japanese Anemone)

Flowers are white or pink; single or double. Fall blooming. 2 1/2-3' tall. Best in moist, well-drained soil in part-shade. Late summer availability.

sylvestris (Snow Drops, Wind Flower)

White nodding flowers. Fragrant. May-June. 12-15". Light Shade. Space 12" apart. Early availability.

Dx AQUILEGIA (Columbine)

Bell-shaped flowers bloom May-June. Sun to part-shade. Space 18" apart. Reseeding. Early availability.

D↔ ARUNCUS (Goats Beard)

aethusifolius

Dwarf plant with cream white plumes. May-June. 8-12". Part-shade. Space 12-15" apart.

dioicus

Long creamy plumes. Fern-like foliage. June-July. 5'. Part-shade. Space 4' apart.

† ASCLEPIAS (Butterfly Weed)

incarnata (Swamp Milkweed)

Long blooming rose-pink or white flowers grow in clusters. Followed by seed pods. Clump forming. 3-5'. Sun. Space 3-4' apart.

tuberosa (Butterfly Weed)

Brilliant orange flowers. July-August. Excellent with grasses. Good dried flower. 18-24". Sun. Drought tolerant. Late availability. Late to emerge.

ASTER

Wood Series. Colorful daisy-like flowers. Later blooming. Great cut flowers. Blue, pink, or purple. 8-12". Sun. 12-15" apart.

Dx ASTILBE (False Spirea)

Spikes of graceful plumes over fine textured fern-like foliage. Prefers a rich, moist soil in shaded areas. Space 2' apart. Full sun or dry soil is detrimental to this plant.

Variety	Size	Color	Bloom Time
Delft Lace	24-36"	Apricot-pink	July
Maggie Daley	28"	Purple	July
Visions	15-18"	Rosy lilac	June-July
Visions in Red	15"	Pinkish-red	July
Visions in White	15-18"	Pure white	July

- DX BAPTISIA (False Indigo)**
2010 Perennial Plant of the Year
australis
 Pea-shaped indigo blue flowers. 3-4'.
 Sun or partial shade. Space 3-4' apart.
- ↔● BRUNNERA**
Jack Frost
 2012 Perennial Plant of the Year. Frosted silver foliage with dark green veins. Sky blue flowers. 12-15". May-June. Shade to part-shade. Space 12-15" apart.
- BUDDLEIA (Butterfly Bush)**
 Showy, summer blooming plants. Fragrant flower spikes. Narrow green foliage. 2-8'. Sun.
 Space 4-6' apart. Needs heavy winter protection.
- D#x CAMPANULA (Bellflower)**
Samantha
 Light blue flowers over a low mat of foliage. 6-8". May-August. Sun. 8-12" apart.
- Takion Blue**
 Large bright blue flowers and mounding plants. Flowers face upward. 18". June-July. Sun to part-shade. Space 15" part.
- x† CENTAUREA (Bachelor Button)**
montana
 Cornflower blue flowers. June-July. 2'. Good cut flower. Sun. Space 18-24" apart. Reseeds readily.
- ↔# CERASTIUM (Snow-in-Summer)**
 Low spreading, silver-grey foliage. White flowers May-June. 4-6". Sun. Overwatering will cause plants to rot. Space 12" apart. Limited availability.
- ↔ CERATOSTIGMA (Plumbago)**
 Groundcover blooms true blue flowers in late summer. Part shade. 10". Late availability.
- D CHELONE (Turtle Head)**
 Pink flowers over dark green foliage. Red stems most of the season. August-October. 2-3'. Sun to part-shade. Space 18-24" apart.
- D† CIMICIFUGA (Bugbane) – see Actaea**
- CLEMATIS – see vines**
- ↔●† CONVALLARIA (Lily of the Valley)**
 Fragrant white, bell-shaped flowers. Can be invasive. May-June. 6-8". Plant in shade. Space 12" apart. Goes dormant in late summer.

PERENNIALS

COREOPSIS (Tickseed)

Long blooming flowers for sunny areas in the garden. Space 18-24" apart. Deadhead for continued blooming.

Variety	Size	Color	Bloom Time
Cosmic Eye	10-12"	Bright yellow/ burgundy eye	June-Sept.
Moonbeam	18-24"	Pale yellow	July-Sept.
Presto	6-8"	Double gold	May-Aug.
Red Elf	12"	Red/yellow center	June-Aug.
Zagreb	15"	Clear yellow	June-Aug.

More varieties available.

CORYDALIS

Soft yellow flowers over blue-green fern-like foliage. Adapts to dry shade. 9-15". Part shade. Space 15" apart. Reseeds readily.

CROCOSMIA (Torch Lily) 'Lucifer'

Outstanding red flowers that attract hummingbirds. Swordlike foliage. Blooms mid summer. Needs excellent winter drainage.

↔ DELOSPERMA (Hardy Ice Plant)

Yellow, scarlet, pink or purple flowers on succulent needle-like foliage. Drought tolerant. June-August. 2-4". Sun. Space 6-12" apart. Needs excellent drainage especially in the winter.

DIANTHUS barbatus (Sweet William)

Indian Carpet

Biennial. Uniform compact mix of single flowers. May-June. 10". Sun to part sun. Space 10-12" apart.

DIANTHUS gratianopolitanus

Fire Witch

Blue-green foliage. Fragrant magenta. May-June. 4-8". Sun. 12-15" apart.

DIANTHUS hybrid

Neon Star

Large single hot pink flowers with fringed petals. Compact silvery foliage. May-June. 7". Sun. Space 12-15" apart.

Other varieties of blooming dianthus available in season.

● **DICENTRA (Bleeding Heart)**

spectabilis

Old fashioned bleeding heart. Pink flowers.
May-June. 30". Shade to part-shade. Space 3' apart.

sp. Alba

Similar to above with white flowers.

'Gold Heart'

Arching sprays of large pink and white heart-shaped blossoms. Golden yellow leaves. May-June. Shade to part-shade.. Space 3' apart. Keep moist or foliage will go dormant in summer.

▶ **DIGITALIS (Foxglove)**

Trumpet-shaped flowers. Biennial. Sun to part-shade. June-July. Plant parts are toxic. Space 18-30" apart.

Variety	Color	Height
grandiflora	Yellow	2-3'
purpurea 'Dalmation'	Peach, purple or white	2-3'

More varieties available. All plants poisonous.

x **ECHINACEA (Coneflower)**

Daisy-like flowers with raised centers. Attracts butterflies. Sun. Does not tolerate clay soils. July-Sept. Space 2-3' apart. Late availability on some varieties.

Variety	Color	Height
Cheyenne Spirit	Mixed colors	22-30"
Harvest Moon	Golden yellow	24-30"
Pow Wow White	White	18-24"
Pow Wow Wildberry	Purple pink	18-24"
Solar Flare	Scarlet-red	24-36"
Sombrero Series	Coral, red, yellow	24-26"

More varieties available upon request

† **EUPATORIUM**

dubium 'Baby Joe' (Joe-Pye weed)

Clusters of lavender-rose flowers. Shorter, sturdy stems. August-September. 24-30". Sun. Space 30-36" apart.

rugosum 'Chocolate' (White Snakeroot)

Dark maroon to bronze foliage. Creamy white flowers. August-September. 2-3'. Sun to part-shade. Space 2-3' apart. All plants are poisonous.

PERENNIALS

EUPHORBIA (Spurge)

'Bonfire'

Maroon-red foliage. Yellow flowers bracts. May-June. 12-18" Sun. Space 18-24" apart. Early availability.

Polychroma (Cushion Spurge)

Green flowers with yellow bracts. Mounding foliage turns red in fall when planted in full sun. 12". Full sun. 18" apart.

●† FERNS

Prefer moist, shady locations with peat moss added to soil at planting. Excellent massed or as single specimen plants.

Variety	Fronde Color	Height
Cinnamon	Pale green darkening to brown	3-5'
Japanese Painted 2004 Perennial Plant of the Year	Wine red/silvery sheen	18-24"
Lady	Pale green	24"
Ostrich	Green / vase shape	5-7'

x† GAILLARDIA (Blanketflower)

Long blooming daisy-like flowers. June to Sept. Sun. Must have well-drained soil or plants won't survive winter. Deadhead for prolonged bloom. Short lived.

Arizona Sun

Heavy blooming, large, red flowers tipped in yellow. June-Sept. 12-14" Sun. Space 12-15" apart. Needs sandy, gritty soil for best growing results.

●● GALIUM (Sweet Woodruff)

Excellent groundcover with tiny white flowers. May-June. 6". Part to full shade. Space 6-8" apart. Early availability.

GENTIANA (Bottle Gentian)

Large bell-shaped blue flowers over glossy leaves. July-Sept. 2-3'. Sun. 2' apart.

● GERANIUM (Cranesbill)

Ground cover or border plant for sun to part-shade. Space 18-24" apart. Prefers morning sun.

Variety	Height	Color	Bloom Time
Max Frei	8-10"	Magenta	May-June
Rozanne 2008 Perennial Plant of the Year	18-20"	Velvet blue/ white center	June-Frost (Deadhead for prolonged bloom)

GRASSES, ORNAMENTAL

#1	2.3 qt. (2.2 L)	\$ 14.95-up
#3	2.9 gal. (10.8 L)	\$ 24.95-up
#5	3.8 gal. (14.7 L)	\$ 41.95-up

These easy to grow plants provide long lasting winter effect with delicate flower heads and graceful forms. Use as a focal point or as a unique natural effect in the landscape. Pest resistant. Late availability on some varieties.

Variety	Summer Foliage Color	Plume Color	Height
Blue Fescue	Blue	Beige	10"
Blue Oat Grass	Shff	Blue-gray	2"
Feather Reed (Karl Foerster)	Green	Wheat/beige	4-5'
Fountain Grass (Hameln)	Green	Beige	2'
Korean Reed (Brachytricha)	Green	Rosy	2-3'
Hakone Grass	Gold/green stripes	Pinkish red	2'
Ice Dance Sedge	Green & White variegated	N/A	12"
Flame (Purpurescens)	Green/changing to orange	Grayish white	4-5'
Japanese Blood Grass	Bright green/red tips	N/A	12-18"
Maiden (Gracillimus)	Green	Creamy	5-6'
Maiden (Graziella)	Slender green	Silvery-white	5-6'
Porcupine (Strictus)	Green/yellow stripes	Red	6'
Variegated Silver	Green/white	Red	4-6'
Switch (Northwind)	Dark green	Golden yellow	4-5'
Prairie Dropseed	Bright green	Buff	2-4'

Heliopsis (False Sunflower)

Yellow-orange flowers create a lovely backdrop for other perennials. 4-5'. Sun. Deer resistant. July-Aug. Deadhead for prolonged bloom. Space 18-24" apart.

● HELLEBORUS (Lenten Rose)

2005 Perennial Plant of the Year

Purple-pink to cream flowers. Glossy foliage. 15-18". March-April. Shade. Space 15-18" apart. Many new varieties are available upon request.

PERENNIALS

HEMEROCALLIS

These cream of the crop daylilies will enhance every garden. Double fan plants will bear multiple blooms the first year. Long lived perennial. Low maintenance. Adaptable to many soil types. Bloom time: June, July or August. Sun to part-shade.

	Daylily	Color	Height
	Bela Lugosi	Purple/green throat	32"
	Cherry Cheeks	Rosy-red/gold throat	28"
	Chicago Apache	Red	27"
R	Happy Returns	Lemon-yellow	18"

Midnight Rose	Purple-black/pink flecks	Insignificant	10"	July
Obsidian	Purple-black	Cream	18-24"	May
Paris	Green	Rose	8-14"	May-July
Plum Pudding	Burgundy	White	18-24"	July

More varieties available

▶↔ **HEUCHERELLA (Foamy Bells)**

A cross between heuchera and tiarella, resulting in a heuchera that forms a compact mound. Grows best in morning sun.

Gold Zebra

Bright golden-yellow foliage coated with a smattering of red pigment. White flowers in spring. 10". Best in morning sun. Space 18" apart.

Sweet Tea

Coppery orange, russet and cinnamon toned foliage makes a statement in morning sun. White flowers.

† **HIBISCUS (Rose Mallow)** Late availability

Large flowers are available in white, pink, red or bicolor. Plants grow 2-4'. Bloom period is July-September. Best cut down to 12" above the ground after the first freeze. Sun. Space 3-5' apart.

Many varieties available late season.

●↔ **HOSTA (Plantain Lily)**

One of the best shade-loving perennials. Attractive foliage produces flower spikes July to August. Low maintenance plants. Excellent for massed plantings, collector plants or low borders. Miniature hostas also available based on availability.

Hosta	Mature Height	Foliage Color	Mature Spacing
August Moon	20"	Golden green	24-30"
Blue Angel	30"	Blue-green	75"
Blue Mouse Ears	6"	Blue-green	11"
Curly Fries 2016 Hosta of the Year	6"	Gold-green	16-18"
Fire 'n' Ice	8"	Pure white center/ dark green edge	12"
Francee	21"	Dark green/ white edge	40"
Patriot	20"	Dark green/ white margin	30"
Rainforest Sunrise	8"	Gold/dark green margin	18-24"
Sum & Substance 2015 Hosta of the Year	31"	Chartreuse-gold	72"

↔# **IBERIS (Candytuft)**
sempervirens

Flat clusters of white flowers on narrow evergreen

PERENNIALS

leaves. April-May. 12". Sun. Space 18" apart.
Limited availability.

IRIS

Bearded Iris

Large, bearded, orchid-like blooms on wide, fan-like foliage. June. Sun. Space 2-3' apart. Various colors and varieties available. Blooms in May.

Variety	Height	Flower Color
Beverly Sills	24-30"	Coral/pink
Feed Back	36"	Violet blue
Immortality	29"	Pure white
Jurassic Park	36"	Yellow and purple
Wine Festival	38"	White/rose violet

x **Siberian Iris**

Upright clumps of narrow, arching foliage. Blooms just after bearded iris. Thrives in moist soils. Space 2-3' apart.

Caesars Brother

Deep violet flowers. 30-36". May-June. Sun - part-shade. Space 24" apart.

KALIMERIS (Japanese Aster)

Blue Star

Pale blue flowers with a yellow center. Tolerant of heat, humidity and drought once established. 12-18". Sun to part-shade. June-Sept.

KNIPHOFIA (Red Hot Poker)

Multiple stems of coral-red and yellow blooms. Low, narrow arching blue-green foliage. 20" Sun. Space 24-30" apart.

↔●● **LAMIUM (Variegated Dead Nettle)**

Variety	Height	Flower Color	Foliage Color
Beacon Silver	8-12"	Pink	Silver dark green margin
Orchid Frost	6-8"	Orchid pink	Silver/dark green margin
Purple Dragon	6-8"	Purple	Silver/green margin
White Nancy	6-8"	White	Silver/green margin

x **LAVANDULA (English Lavender)**

Fragrant flowers and foliage. July to September blooming. Sun.

Variety	Flower Color	Height
Grosso	Lavender	24-30"
Hidcote	Violet-blue	12"
Munstead	Lavender blue	15-18"

LEONTOPODIUM (Edelweiss)

Old fashioned favorite. Silver, fuzzy foliage. Unusual white flowers. Spring bloom. Needs excellent drainage. Early availability.

▷x **LEUCANTHEMUM (Shasta Daisy)**

Long blooming, white flowered sun loving plants. Excellent cut flowers. June-August.

Variety	Height	Bloom Type	Spacing
Becky 2003 Perennial Plant of the Year	36-40"	Single	36"
Snowcap	12-15"	Single	12"

LEWISIA (Cliff Maids)

Pastel orange flowers open salmon-pink to rose purple. 4-6". Sun. Needs excellent drainage. April - June. Space 12" apart.

▷x **LIATRIS (Gayfeather)**

Floristan White

Creamy-white flowers open from top to bottom. Narrow leaves. 3-4'. July-Aug. Sun. 24" apart. Great vertical structure.

Kobold

Rose-lavender flower spikes on compact plants. July-August. 18-30". Sun. Good cut flower. Space 18-24" apart.

▷ **LIGULARIA**

dentata (Ragwort)

Green and purple foliage, orange daisy-like flowers. Moist soil. 35-40". Part-shade. Space 3' apart.

Britt-Marie Crawford

Dark chocolate colored foliage with purple undersides. Orange-yellow flowers. 36-40". Shade to part-shade. Space 30" apart.

x **stenocephala (The Rocket)**

Large, golden yellow flower spikes with imposing black stems. July-August. Part-shade. Space 24-30" apart. 5". Needs moist soil for best growth.

PERENNIALS

LILIUM (Asiatic Lily)

Trumpet-shaped blooms in many colors. Bulb plants. July-August. Sun. Height varies with each variety.

Variety	Height	Color
Crimson Pixie	15-18"	Red
Orange Pixie	15-18"	Orange
Lily Looks Tiny Series	10-18"	Mixed

LILIUM (Oriental Lily)

Variety	Height	Color
Casa Blanca	40"	Fragrant White
Stargazer	32"	Fragrant red/ white margin

▮ LOBELIA (Cardinal Flower)

Hummer magnet! Various varieties. Red or blue flowers. Prefer moisture. Best color is obtained in morning sun. 24"-40". Space 18-24" apart

●● LYSIMACHIA

↔# nummularia (Creeping Jenny)

Yellow tulip shaped flowers on 2" plants. June-August. Sun or shade. Wet or dry soil. Space 18-24" apart.

nummularia Aurea (Golden Creeping Jenny)

Same as above but with golden-yellow leaves.

●● MERTENSIA (Virginia Blue Bells)

Native plant blooms early, in a shaded site. Usually goes dormant in the heat. Early availability. 15"-18"

▮x MONARDA (Bee Balm)

Large tattered flowers bloom from June to August. Lemon scented foliage. 2-3'. Sun. Space 2-3' apart.

Variety	Height	Color
Gardenview Scarlet	36"	Rich red
Jacob Cline	48"	Red
Marshall's Delight	30-36"	Pink
Raspberry Wine	36-40"	Red-purple

NEPETA (Catmint)

Lavender to blue flowers. June-August. 15-18" depending on variety. Sun. Space 18-24" apart. Taller varieties available upon request.

OENOTHERA

macrocarpa (Evening Primrose)

Huge, bright yellow flowers followed by large winged seed pods. June-August. 9-12". Sun. Tolerates poor soil. Space 12" apart.

x **PAEONIA (Garden Peony)**

Peony #2 1.5 gal. (5.68 L) \$ 27.95 and up

These superb plants produce large abundant blooms late May to June. Good cut flower. Sun or part-shade. Space 3' apart. Long lived. Colors include red, white or pink.

x **PAEONIA (Tree Peony)**

\$ 34.95 and up

These plants become woody shrubs with branching stems. They do not die back to the ground as garden peonies do; so do not cut them back. Plants produce huge spectacular flowers. 4-5' tall. May-June. Full sun is best. Space 4-5' apart.

x **PAEONIA (Itoh Hybrid Peony or Intersectional Peony)**

A hybrid between garden and tree peonies. Flowers on mature plants grow very large on sturdy stems that require no staking. Early May through late June blooming. 3-4'. Full sun. Space 3-4' apart.

x **PAPAVER (Oriental Poppy)**

Low hairy leaves. Flowers May-June. Goes dormant after blooming. Sun.

Variety	Size	Color
Allegro	16"	Red/Black Center
Prince of Orange	24-36"	Orange/Scarlet
Princess Victoria Louise	36"	Salmon-pink

Early Availability Only.

PENSTEMON (Beardtongue)

Large and showy tubular flowers are a hummingbird magnet. Available in red or white blooms. 12" to 24" depending on variety. Plants prefer well-drained soils and are drought tolerant once established. Sun to part-shade.

PEROVSKIA (Russian Sage)

Gray-green leaves are pungent when crushed. Semi-woody stems. Lavender blue flowers. August-September. 3'. Sun. Space 3-4' apart.

▷x **PHLOX (Smooth Phlox)**

Forever Pink

Purple-pink flowers appear in June and will repeat blooming throughout the rest of the season. 16". sun. Excellent mildew resistance. Space 15-18" apart.

PERENNIALS

▷x PHLOX (Tall Garden Phlox)

paniculata

Fragrant bloom July-August. Space 2' apart to avoid mildew problems.

Variety	Color	Height	Mildew Resistant
David	Pure white	30"	Yes
Volcano Series	Mixture of colors	24"	Yes
Laura	Deep purple/ white center	24"	Yes

↔ PHLOX (Creeping Phlox)

subulata

Perfect groundcover for rock gardens, borders or slopes. April-May. 4-6". Blooms best in sun. Space 8-12" apart.

Blue Emerald Light blue flowers, compact.

Emerald Pink Rich, pink flowers, compact.

Snowflake Pure white flowers.

▷#x PLATYCODON (Balloon Flower)

Sentimental Blue

Outstanding dwarf selection. Intense blue flowers. 6-10". Sun. Space 12" apart.

▷● POLEMONIUM (Varigated Jacob's Ladder)

Stairway to Heaven

Pale lavender to blue flowers in May-June. Showy pink, white and green foliage. 12-15". Shade to part-shade. Space 18" apart.

▷ PRUNELLA (Self-heal)

Spikes of hooded flowers whorl around the stem in violet blue. Low growing and spreading foliage. June-July. Can repeat until October. 6-12". Sun to part-shade. Space 15-18" apart. Invasive.

▷●#† PULMONARIA (Lungwort)

Raspberry Splash

Dark green leaves splashed with silver. Rich raspberry flowers. April-May. 12". Shade to part-shade. Space 18-24" apart.

x† **RUDBECKIA (Black Eyed Susan)**

Goldsturm (1999 Perennial Plant of the Year)

Deep yellow, daisy-like flowers with black cones. July-September. 24". Sun to part-shade. Good cut. Space 2' apart.

Little Goldstar

Star-shaped golden yellow flowers on well branched stems help above short bushy foliage. July-Sept. 14-16". Sun to part shade. Good cut. Space 18-24" apart.

Viettes Little Suzy

Deep yellow flowers July-September. Narrow foliage. 18-24". Sun to part-shade. 15-18" apart.

Other varieties available.

▶ **SALVIA (Meadow Sage)**

Bushy plants with spiked flowers. June-July. Cut back for some rebloom. Sun. Space 18-24" apart.

Variety	Flower Color	Height
Blue Hill	Violet-blue	8-12"
Caradonna	Violet-blue/ Purple stems	24-30"
May Night	Deep Violet	18"

↔# **SEDUM (Stonecrop)**

Autumn Joy

Dark pink flowers on thick stems. Holds together during peak bloom. 18-24". Sun. Space 2' apart. Divide every 3 years.

Dazzleberry

Smoky-blue groundcover sedum with raspberry-red flowers. 8". Sun. Space 18" apart.

Neon

Intense purple-pink flowers blooms Sept-Oct. Succulent foliage. 15". Full sun. Space 18-24" apart.

Sieboldii

Thick blue leaves, arching stems. Bright pink flowers. August. 9". Space 12" apart. Sun.

Many more varieties available upon request due to the plants ability to endure droughts.

↔# **SEMPERVIVUM (Hen and Chicks)**

Thick fleshy leaves form rosettes available in green, purple or red. 4-6". July. Sun. Space 8-10" apart.

↔# **SISYRINCHIUM (Blue-eyed Grass)**

Lucerne

Loads of 1" deep-blue flowers. Grassy green foliage. Low maintenance. 10-12". June-July. Sun to part-shade. Space 12-15" apart.

PERENNIALS

↔# STACHYS (Lamb's Ears)

Densiflorus (Wood Betony)

Lavender pink flower spikes. Attractive foliage. 8-10". Sun. Attracts butterflies. Space 12-15" apart.

Helene von Stein (Big Ears)

Very large, fuzzy green-silver leaves. 6-12". Sun. Drought tolerant. Tolerates heat and humidity better than older varieties. Space 12-18" apart.

TRADESCANTIA (Spiderwort)

Long blooming perennial available in several colors. Easy to grow. Part sun. 18". Needs plenty of room to spread out.

●● TRICYRTIS (Japanese Toad Lily)

White lily-like flowers spotted with purple. 3'. September-October. Shade to part shade. Space 2' apart. Late availability.

TROLLIUS (Global Flower)

Golden Queen

Large golden-yellow buttercup flowers June-Aug. Sun to part-shade. 30". Prefers moist soils. 18" apart.

▶● VERONICA (Speedwell)

Long blooming spiked flowers on erect stems. Sun to part-shade.

Variety	Flower Color	Height
Purpleicious	Purple	16"
Waterperry Blue	Sky blue	4"

●↔#† VIOLA (Violet)

Heart-shaped leaves. April-May. 5". part-shade. Prefers moist locations. Space 12" apart. Early availability.

Variety	Flower Color	Height
Etain	Lemon yellow/ lavender markings	8-10"
Rebecca	White/deep violet flecks	8-10"

This list of perennials is a guide to varieties generally available at Platt Hill Nursery. However, some varieties may not be available at all times. Please notify us if there is a variety you do not see, and we will try our best to locate it for you.

ROCK GARDEN PLANTS

Low growing plants for sunny locations include the following varieties:

Bellflower	Evening Primrose
Border Pink	Hens and Chicks
Candytuft	Ice Plant
Creeping Jenny	Sea Thrift
Creeping Phlox	Snow-in-Summer

4" Square Pot	\$ 2.99 ea.
1 Gallon Pot	\$ 8.95+ ea.

TYPE	VARIETY	CHARACTERISTICS
Beans	Bush Blue Lake	53 days. 6 in. pods, tender with rich flavor; bush type
Beets	Detroit Dark Red	63 days. Best strain available; rich and flavorful
Broccoli	Destiny	48 days. Med-small green heads
Brussels Sprouts	Jade Cross "E"	85 days. Uniform 1½" sprouts; delicate flavor
Cabbage	Golden Acre	65 days. Round solid heads
	Golden Cross	45 days. Softball size, round head
	Late Flat Dutch	80 days. Great for storage
	Ruby Perfection	85 days. Solid, globe-shaped red 4 lb. head
Cauliflower	Snow Crown	60 days. Large, snowy white heads
Celery	Giant Pascal	105 days. Very productive
Celery Root (German Celery, Celeriac)		100 days. Use in soup, salad, dressings
Collards	Georgia	70 days. Light frost improves cabbage flavor
Corn	Honey 'n Pearl	71 days. Super sweet, bi-color; 9" ears
Cucumber	Salad Bush	57 days. 6-7" fruit on compact plants; good for small gardens or containers. Disease resistant.
	Hybrid	56 days. Bitterfree; 8" long
	Burpless	55 days. 8" long, dark green slicing variety
	Pickles – Peppi II	48 days. Developed for home pickling; harvest when 2" or 5"; disease resistant
Eggplant	Little Fingers	65 days. Harvest when fruit is 4-6". Asian variety with superior tenderness and flavor.
	Black Beauty	80 days. Oval shape, deep color, medium-sized fruit, rich in flavor
Kale	Starter	55 days. This variety can be harvested with one cut instead of stripping leaves.
Kohlrabi	Winner	55 days. Early variety, stays tender
Leek	King Richard	75 days. Thick straight necks
Lettuce	Buttercrunch (Bibb)	All American Winner. 64 days. Compact rosettes of tender leaves
	Great Lakes (Head)	75 days. Large crisp heads; start early to avoid bolting
	Gourmet Blend (Loose Leaf)	50 days. Tasty, colorful mix of colors and textured loose leaf
	Romaine	65 days. Gourmet lettuce; easily grown
Melon	Hales Best Jumbo (Cantaloupe)	78 days. Extra early; 4 lb. fruit
	Earli-Dew (Honeydew)	80 days. 2½-3 lb. round fruit
Okra	Cajun Delight	49 days. All-American Winner

TYPE	VARIETY	CHARACTERISTICS
Onions	Sweet Spanish	110 days. Large, white globe-shape; good flavor
	Red Defender	125 days. Red and white flesh when ripe
Peas	Caseload	56 days. 2' vines with 3½-4" pods.
Peppers (Sweet)	Better Belle	65 days. Earlier, more vigorous; meatier than California Wonder
	California Wonder	75 days. Blocky, sweet bell pepper, good for stuffing; green turns red when ripened
	Melrose	60 days. Sweet tapered 3" by 1" fruit; thin flesh good for salads or frying, very heavy yields
	Gypsy	65 days. Elongated fruit larger than banana types; light green color
	Red Beauty (Red Bell)	68 days. Fruits are extra-thick walled, 4 lobed; flesh is sweet and juicy
	Sweet Banana	65 days. 8" long fruit are yellow ripening to orange
	Golden Super (Yellow Bell)	62 days. Blocky sweet Bell pepper, good for cooking and adds color to salads
Peppers (Hot)	Super Cayenne	70 days. Highly productive, very hot, 3-4" long tapered fruit; harvest green or when ripens to red
	Habañero	95 days. HOTTEST OF HOT! 1" x 1½" fruits with thin, wrinkled skin; light green ripens to golden orange
	Jalapeño	72 days. Tapered fruit 3" by 1"; dark green turns red when ripe, hot flavor
	Hungarian Wax	68 days. Same as Hungarian Sweet, but hot
	Poblano	65 days. Called Ancho when dried, poblano when fresh; 4" fruit that ripens from dark green to deep red
	Super Chili	82 days. Very hot 2½" tapered fruit; very productive, green turns red when ripe
	Serrano	75 days. Vigorous 30" plants with 2" thin-walled fruits; hot whether green or red
	Thai Hot	70 days. 2" long, thin skinned fruits
Pumpkin	Racer	85 days. Semi-vine with 12-18 lb. fruit
Radichio	Red Preco	60 days. Red-purple heads; early
Winter Squash	Acorn (Table Ace)	70 days. Good winter keeper, semi-bush variety
	Butternut (Waltham)	85 days. Improved fruit uniformity and increased yields
	Spaghetti (Tivoli)	100 days. All American Winner; 3-4 lbs.; oblong fruit; bush type
Summer Squash	Yellow Summer Crookneck	53 days. Bright yellow fruit with delicious flavor and fine texture
	Sunburst (Scallop)	50 days. All American Winner; yellow, scalloped shaped fruit; bush type
	Zucchini (Aristocrat)	50 days. yields great all summer long; 6-7" medium green fruit
	Zucchini (8 Ball)	42 days. First round zucchini; All American Selection Winner
Swiss Chard	Fordhook	50 days. Good raw or cooked
Tomato	Beefmaster	80 days. King size 2 lb. fruit; greater disease resistance than Beefsteak

VEGETABLES

TYPE	VARIETY	CHARACTERISTICS
Tomato cont	Beefsteak	80 days. King size 2 lb. fruit; delicious and meaty
	Better Boy	70 days. Large 1 lb. firm fruit; outstanding flavor; good producer
	Big Boy	78 days. Vigorous producer of 1 lb. fruit; most popular variety
	Brandywine	85 days. Fruits up to 1.5 lbs.; superb flavor. Heirloom
	Celebrity	All American Winner. 72 days. Bush-type plant produces glossy red, 7 oz. fruit with light green shoulders. Determinate.
	Cherokee Purple	85 days. Large dark purple fruit that can be 5" across and 3½" deep. Heirloom
	Early Girl	52 days. Earliest yields of 4-6 oz. fruit
	Fantastic	72 days. High yields of globe-shaped, 9-12 oz. fruit; good flavor
	Fourth of July	49 days. 4 oz. fruit that should ripen by July 4th
	German Johnson	80 days. 16 oz. pinkish red fruit, excellent flavor. Heirloom
	Golden Jubilee	80 days. 8 oz., round yellow fruit; low acid
	Gold Nugget (Yellow Cherry)	60 days. 1-1¼" diameter, round to slightly oval fruit with a deep yellow color. Determinate
	Juliet (Grape)	60 days. Grape cluster of 1 oz. fruit; high yields
	Jetstar	72 days. 6-8 oz. fruit with mild flavor; high yield. Great slicing variety.
	Marglobe	75 days. Improved, disease resistant variety; smooth, solid, 6 oz. crack-free fruit
	Mortgage Lifter	80 days. This beefsteak type can produce fruit up to 4 lbs., but the average is 2½ lbs. Heirloom
	Mr. Stripey	85 days. 9 oz. to 2 lb. fruits that have a mild, low-acid flavor and meaty flesh. Heirloom
	Patio	70 days. Produces firm medium-size, oblate-shaped fruit on dwarf plants. Ideal for containers; needs staking. Determinate.
	Red Cherry	75 days. Produces huge quantities of juicy, 1 oz. or less red fruit; salad tomato
	Roma (Italian Plum)	70 days. Grows bright red, 2 oz. meaty, plum-shaped fruit; good for canning. Determinate.
Rutgers	82 days. Improved disease resistant variety; 6 oz. fruit is smooth, thick-walled and crack-free. Determinate.	
Sweet 100	70 days. Long clusters of up to 100 fruits; 1" across; needs staking	
Watermelon	Crimson Sweet	84 days. Sweet, red flesh; up to 20 lb. fruit

Also available: Garlic, Cloves, Shallots, Onion Sets, Seed Potatoes

This list is only a guide to vegetable plants generally available at Platt Hill Nursery. We try our best to supply you with the widest selection and best varieties available. Due to unforeseen circumstances, we may not have every variety available at all times.

AQUATICS

HARDY WATER LILY	\$ 34.95 ea.
MARGINALS Hardy and Tropical	\$ 7.95-up
FLOATING PLANTS Water lettuce and water hyacinth	\$ 4.29-up
OXYGENATORS	\$ 3.99-up

**Aquatic plants are great for rain gardens.
Some choices for this are:**

Arrowhead
Lizard's Tail
Marsh Marigold
Pickerelweed
Rush

TROPICAL BLOOMERS

Platt Hill Nursery offers a large selection of blooming and non-blooming plants for your patio and garden. Hibiscus, mandevilla, bananas, palms and gardenias are just a few.

GRASS SEED / SOD

GRASS SEED

We carry several “blends” of seed to adapt to the various sunlight conditions or traffic patterns of your yard. Our experienced staff will supply you with the approximate coverage rates (for either new lawns or for overseeding) and recommend the proper fertilizers to use. Please ask for more information.

SOD

\$ 3.99 per roll

Platt Hill Nursery has freshly cut sod during the growing season. However, availability is very much dependent on weather conditions (i.e., too much rain prevents the cutting of the sod). Please call ahead if in doubt.

PREPARATION AND INSTALLATION OF SOD:

1. All areas to be sodded should be finish graded. Grade should be 1” below walks and drives, so sod will be even when installed.
2. Do not install sod on a hard surface. Use mushroom compost or peat moss to create a soft layer for the sod to settle into.
3. Start laying sod along a straight edge, such as a drive or walk. Lay sod tight against each other. **DO NOT OVERLAP.** Trim off excess with a sharp knife. Sod should be laid with joints staggered.
4. As soon as an area large enough to sprinkle is laid, start watering and completely saturate. Water sod thoroughly with a penetration of about 6 inches.
5. Water daily for the first three days. Water every other day for the first week, then as needed.

Water 2-4 hours per sprinkler setting.

Mow when leaf growth reaches 3-4 inches.

Lawn fertilizer available at Platt Hill Nursery can be applied 30 days after installation.

APPROXIMATE SOIL AMENDMENT REQUIREMENTS

The following is based on digging a hole twice as wide as the pot size and filling in with 20% compost or soil conditioner.

Pot Size	1.5 Cu. Ft. of Blended Compost Will Plant Approx:	One 40-lb. Bag Peat Humus Will Plant:
#1 2.7 qt. (2.5 L)	10-12 plants	8 plants
#2 1.5 gal. (5.68 L)	8-10 plants	6 plants
#5 3.8 gal. (14.7 L)	6-8 plants	3 plants
#7 6.2 gal. (23 L)	4-5 plants	2 plants

Amount of Peat Moss Required to Plant a:	Blended Compost	40-lb. Peat Humus
#10 9.0 gal. (34 L) plant	½ cu. ft.	1 40-lb. bag
#15 13.5 gal. (51 L) plant	¾ cu. ft.	1½ 40-lb. bags
#20 19.7 gal. (75 L) plant	1 cu. ft.	2 40-lb. bags
B & B plant	1 cu. ft.	2 40-lb. bags

SOIL AND SOIL AMENDMENTS

TOP SOIL

One 40 lb. bag covers approximately 5 square feet at a depth of 2 inches.

.75 cu. ft. \$1.18 each

1 cubic yard of topsoil covers approximately:

1" deep - 320 square feet

2" deep - 160 square feet

4" deep - 80 square feet

Formula for determining square foot areas:

Circles: Area = $3.1416 \times \text{Radius squared}$

Triangles: Area = $1/2 \text{ Base} \times \text{Height}$

Rectangles : Area = $\text{Base} \times \text{Height}$

COMPOST MANURE

.75 cu. ft. \$2.99 each

PEAT HUMUS

.75 cu. ft. \$1.99 each

SPHAGNUM (CANADIAN) PEAT MOSS

1 cu. ft. bale \$8.95 each

2.2 cu. ft. bale \$11.95 each

3.8 cu. ft. bale \$17.95 each

New Lawns:

Before seeding, dig up 4 to 6 inches of topsoil and mix thoroughly with 1 inch layer of peat moss.

Established Lawns:

4 cubic feet of peat moss covers 300 square feet as a light top dressing.

Garden Use:

4 cubic feet of peat moss covers 50 square feet at 2 inches deep. Rototill in 4 to 6 inches with your garden fertilizer.

SAND – PAVER BASE

One 1/2 cu. ft. bag of sand will cover approximately 3 square feet at a depth of 1 inch.

PLAY SAND

Used for sandboxes, patio stone or swimming pool bases. This is the finest washed sand available. Use no other in your sandboxes.

1/2 cu. ft. bag/50lb. \$2.99 each

TORPEDO SAND

Grainy sand used for patios, construction, and to improve soil aeration and drainage. Not for use in sandboxes.

1/2 cu. ft. bag/50lb. \$2.99 each

GRADE 8 ROAD MIX (Paver Base)

Use for patio stone or paver stone base. Apply 3-4" deep and compact thoroughly. Top dress with limestone screening.

50lb. \$2.99 each

SOIL AND SOIL AMENDMENTS

LIMESTONE SCREENING

Use as a granular base for laying of patio stone, retaining wall or paving block.

50lb. bag \$2.49 each

MUSHROOM COMPOST

Used as an organic amendment or mulch for the improvement of low fertile soil. Its magic qualities accelerate new and existing plant growth. It is the favorite of Platt Hill Nursery's grower.

1.5 cu. ft. bag \$4.99 each

BLENDED COMPOST

Mushroom compost blended with organic compost. Provides a nutritional boost to existing soil conditions. Improves soil structure when preparing beds.

1.5 cu. ft. bag \$4.99 each

ENRICH SOIL CONDITIONER

Organic soil amendment that is great for evergreens. Breaks up clay soils.

2 cu. ft. bag \$6.95 each

POTTING SOIL

20 lb. bag \$1.99 each

.75 cu. ft. \$2.99 each

PROFESSIONAL POTTING MIX (METRO MIX)

All purpose potting soil used exclusively in our greenhouse production.

360 – Great for seed starting.

902 – Great for container gardens.

2.8 cu. ft. bag \$24.95 each

MILORGANITE

This is a professional quality organic fertilizer for turf. It gives better results than any other fertilizer. Platt Hill will use no other on his lawn. Not for vegetable gardens.

36 lb. bag \$9.95 each

GYP SUM

All natural soil conditioner for lawns, gardens, trees and shrubs. Loosens hard packed soils, breaks up clay and increases water penetration.

40 lb. bag \$11.95 each

LIME-Pelletized Limestone

Acid neutralizing soil conditioner. Supplies magnesium and calcium to soil. Covers 4,000 sq.ft.

40 lb. \$8.49 each

STRAW

New Lawns:

One bale of straw covers approximately 50 square feet when used as a light mulch after seeding.

Bale \$7.95 each

Half Bale \$4.99 each

Bag \$1.99 each

ORGANIC MULCHES

CEDAR BARK MULCH

2 cu. ft. bag \$ 6.95 each

COCOA MULCH

Very fragrant when freshly applied. Smells of cocoa.

2 cu. ft. bag \$ 6.95 each

CYPRESS MULCH

2 cu. ft. bag \$ 3.99 each

DECORATIVE MULCH (Red, Brown, Gold or Black)

Fade resistant dyed mulch.

2 cu. ft. bag \$ 3.99 each

PINE BARK

Available in two forms: **mulch** and **nuggets**.

2 cu. ft. bag \$ 4.99 each

SHREDDED HARDWOOD

Platt Hill's choice in mulches. This premium hardwood mulch is 100% organic and weed free. The best of the organic mulches.

2 cu. ft. bag \$ 5.95 each

WESTERN BARK MULCH

Available in three sizes: **small**, **medium** and **large**.

2 cu. ft. bag \$ 7.95 each

Note:

2 cu. ft. bag will cover approximately:

24 sq. ft. at a depth of 1 inches

12 sq. ft. at a depth of 2 inches

8 sq. ft. at a depth of 3 inches

27 cu. ft. equals 1 cubic yard

For additional weed control, use Landscape Fabric as underlayment for mulches used around plant material. Its woven construction allows air and water to pass through, but prevents weeds from growing. Available in 25, 50 and 100 ft. rolls, 3 ft. wide.

DECORATIVE STONE

ALABAMA SUNSET

1/2 cu. ft. bag

\$7.95 each

AMERICAN HERITAGE

1/2 cu. ft. bag

\$4.99 each

BLACK OBSIDIAN

1/2 cu. ft. bag

\$5.95 each

BRICK CHIPS (Red)

1/2 cu. ft. bag

\$5.95 each

CORAL TIFF

1/2 cu. ft. bag

\$4.99 each

DESERT SUNSET

1/2 cu. ft. bag

\$5.95 each

GRAY SLATE CHIPS

1/2 cu. ft. bag

\$6.95 each

MERAMEC PEBBLES & NUGGETS

1/2 cu. ft. bag

\$4.99 each

MEXICAN PEBBLES

37 lb. bag

\$26.95 each

NEW YORK BLUESTONE CHIPS

1/2 cu. ft. bag

\$6.95 each

NORTHERN LIGHTS MARBLE

1/2 cu. ft. bag

\$6.95 each

PEA GRAVEL

One cubic yard of Pea Gravel will cover approximately 125 square feet at a depth of 2 inches.

Fifty-four 1/2 cu. ft. bags equal 1 cubic yard.

1/2 cu. ft. bag

\$2.99 each

PINK BLUSH Small 3/4"-1"

1/2 cu. ft. bag

\$4.99 each

Note:

1/2 cu. ft. bag will cover approximately

6 sq. ft. at a depth of 1 inch.

54 1/2 cu. ft. bags equal 1 cubic yard.

When using crushed stone around plant material, we recommend using Landscape Fabric instead of plastic. Its construction enables air and water to reach the root zones, but weeds cannot penetrate through.

POND PEBBLES 3/4" & POND ROCK 1 1/2-2"

1/2 cu. ft. bag \$3.99 each

RED GRANITE

1/2 cu. ft. bag \$4.99 each

VOLCANIC ROCK

Black 1 cu. ft. bag \$8.95 each

Red 1 cu. ft. bag \$7.95 each

PLANTING TIPS

- Dig the planting hole up to twice as wide as the diameter of the root ball of the plant.
- The depth of the hole should be the same as the depth of the root ball. All woody plants should be planted so that they are the same level in the soil as they were originally growing in the container.
- Remove the plant from the plastic container and carefully place the root ball into the hole. With balled and burlapped stock, cut all the string at the base of the plant. Leave the burlap on the ball.
- Backfill with a mixture of one part blended compost and three parts soil.
- When watering the plant, form a basin around its base so the water will soak in rather than run off. Water slowly and thoroughly until all the soil has settled and the ball is saturated. It may be necessary to straighten the plant and backfill firmly with more soil.
- In times of wet, cool weather (spring & fall) water thoroughly every two weeks. It is critically important that the soil dry out between waterings. In times of dry weather, a thorough watering once a week should be sufficient. For larger plants, a root feeder is ideal for watering deep down.
- Give special attention to plants set so close to a wall that an overhanging roof blocks rainfall. They will require regular watering from April thru November.
- Spreading a two inch layer of shredded hardwood mulch over the root zone will aid in keeping the soil evenly moist.

GIFT CERTIFICATES

Gift Certificates are available in any amount and are redeemable for plants or merchandise when presented at our garden center.

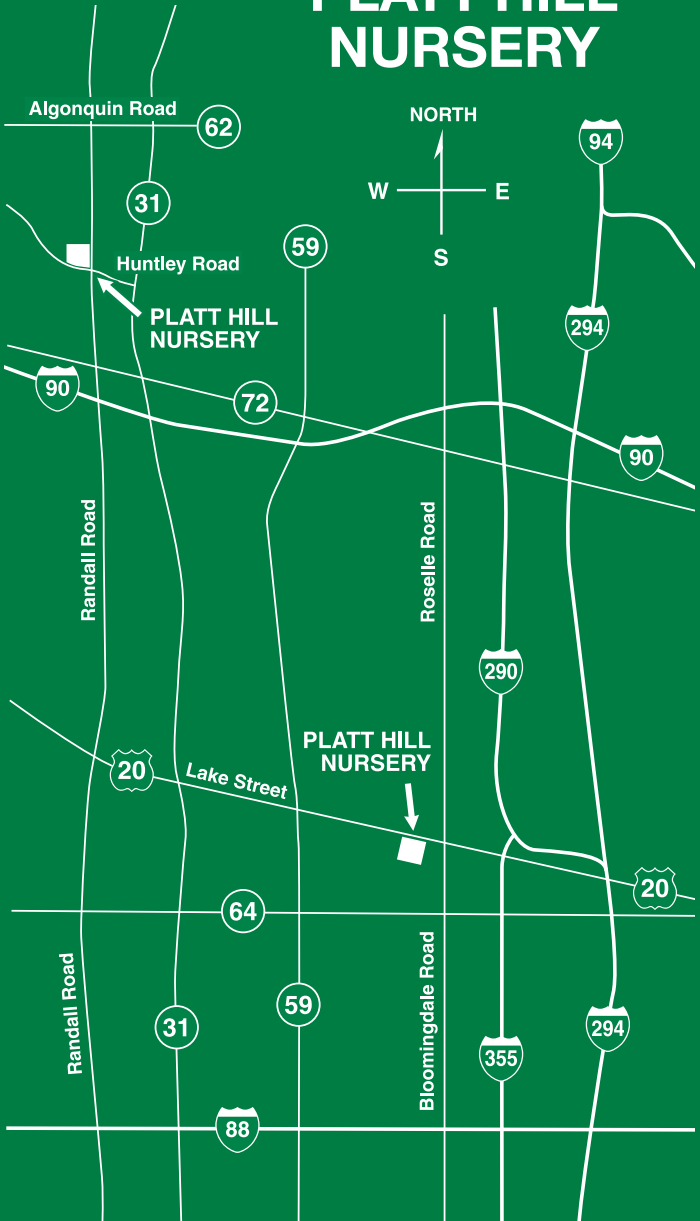

To provide you with the professional service you expect, we belong to the following organizations which provide us with the latest developments on landscape design, plant diseases and the most current selection of plant material in the industry.

- American Nursery and Landscape Association
- Illinois Green Industry Association
- Garden Centers of America
- Bedding Plants International
- Horticultural Research Institute
- Illinois Landscape Contractors Association
- Ohio Florists Association
