MOTHER'S DAY - Blooming Plants, Flowering Garden Baskets, Annual Planters

FATHER'S DAY - Patio Planters, Gardening Supplies, Bird Feeders, Fountains, Trees

AUTUMN - Fall Mums, Pumpkins, Gourds, Indian Corn, Bulbs for Spring Color, Trees, Shrubs, Evergreens, Mulch

CHRISTMAS - Poinsettias, Fresh Cut Christmas Trees, Fresh Wreaths and Roping, Artificial Trees, Artificial Wreaths and Roping, Light Sets, Bows, Decorations and More!

WINTER - Birdseed, Firewood, Tropical Plants, Wicker Baskets, Decorative Pots, Spring Atmosphere

GUARANTEE

Platt Hill Nursery guarantees:

- Trees and shrubs for 50% of the purchase price for one year from the date of purchase.
- Roses and perennials for 50% of the purchase price until November 1st of the year of purchase.
- Annuals, aquatics, herbs, vegetables, houseplants and tropicals for 50% of the purchase price for 7 days from the date of purchase.
- Only plants that are planted in the ground are guaranteed. Plant and original sales receipt must be returned when requesting credit.

Plants, as every living thing, require proper care. This is the buyer's responsibility. Risks beyond our control include improper watering, fertilization, poor soil conditions, insects and diseases.

This guarantee is void if:

- Plants are not planted in the ground (i.e. planted in a container).
- Plants are damaged by humans, animals, herbicides or acts of nature.
- Customer does not provide reasonable care.

EVERGREENS

EVERGREENS

(Juniperus)

TOPIARY JUNIPERS

We carry a broad selection of trained 'Topiary Evergreens'. They vary in size and shape from Pom Poms to Spirals.

Pricing for all Topiaries \$99.99 - \$399.99

○ (Juniperus x pfitzeriana 'Monsan')

SEA OF GOLD JUNIPER

Dramatic lacy yellow foliage that contrast with its green underside. Spreading form for all year color.
Height: 2-3 ft. Spread: 3-4 ft.

#1	\$19.99
#2	\$39.99
#5	\$59.99

○ (Juniperus scopulorum 'Blue Arrow')

BLUE ARROW JUNIPER

An extremely narrow and upright evergreen, with showy powdery blue foliage and blue berries; adaptable to dry soils, but needs full sun; excellent for color accents or screening. Makes a unique, almost formal tall evergreen hedge. Height: 10-15 ft. Spread: 2-3 ft.

#5	\$79.99
#10	\$169.99
#15	\$199.99

○ (Juniperus scopulorum 'Skyrocket')

SKYROCKET JUNIPER

This is perhaps the most popular upright landscape juniper, forming a narrow column of tight branches carrying silvery blue foliage. It grows rapidly and requires little maintenance.
Height: 10-15 ft. Spread: 2-3 ft.

#5	\$79.99
4-5'	\$149.99
#15	\$199.99
5-6' B&B	\$169.99

○ **JUNIPER (Spreading or Groundcover)**

Good for foundations and borders. Requires well drained soil and full sun.

#1	\$16.99 - \$19.99
#2	\$34.99 - \$39.99
#5	\$49.99 - \$59.99

(Juniperus horizontalis 'Monber')

Icee Blue Juniper

Silvery blue foliage and a very compact ground cover. Dense, tightly compressed foliage resembles a thick carpet. Adult growth has distinctive purple-tinged tips. Height: 4-6 in. Spread: 4-6 ft.

(Juniperus procumbens 'Nana')

Dwarf Japanese Garden Juniper Compact creeping evergreen with needle-like green foliage; excellent along walks, terraces or rock gardens. Height: 6-12 in. Spread: 4-6 ft.

(Juniperus x pfitzeriana 'Daub's Frosted')

Daub's Frosted Juniper

Evergreen branch tips are frosted with gold on the upper surface and blue green foliage on the underside. Spread: 1-2 ft. by 48 ft.

(Juniperus x pfitzeriana 'Sea Green')

Sea Green Juniper

Mint green foliage. Nice arching form. Height: 4-6 ft. Spread: 6-8 ft.

SPRUCE

○ (Picea abies)

NORWAY SPRUCE

Dark green needles on dense branches. Pendulous branchlets provide a graceful appearance to its pyramidal form. Use for tall screen or windbreak. Fast growing. Height: 40-60 ft. Spread: 20-30 ft.

#10	\$199.99
4-5'	\$249.99
5'	\$299.99
6'	\$399.99

○ (Picea abies 'Cupressina')

COLUMNAR NORWAY SPRUCE

A rare find that is perfect for narrow areas. Height: 20-30 ft. Spread: 5-7 ft.

3-4'	\$149.99
4-5'	\$199.99
5'	\$299.99
6'	\$399.99

○ (Picea abies 'Clanbrassiliana Stricta')

TOLLEMORE SPRUCE

This very slow growing form of Norway Spruce develops into a conical shaped specimen which is unusual in dwarf conifers. A great little Christmas tree. Height 8-12 ft. Spread 4-8 ft.

#6	\$129.99
#10	\$299.99

EVERGREENS

- (Picea abies 'Pumila')

DWARF NORWAY 'PUMILA'

This very full and round evergreen shrub maintains its prim and proper form with the most minimal of occasional pruning.

Height: 3-4 ft Spread: 3-4 ft.

#2	\$44.99
#3	\$59.99
#5	\$69.99
#6	\$99.99

- (Picea glauca 'Conica')

DWARF ALBERTA SPRUCE

Slow growing miniature spruce. Useful as a foundation plant for tight spots, and in small gardens as an accent plant.

Looks like a miniature Christmas tree.

Height: 4-7 ft. Spread: 3-4 ft.

#3	\$59.99
#5	\$99.99
#7	\$129.99
#10	\$149.99

- (Picea pungens 'Fat Albert')

FAT ALBERT BLUE SPRUCE

Dense upright pyramidal habit with good blue needle color. Rigid, tiered branches are densely covered with stiff needles.

Height: 15-20 ft. Spread: 10-15 ft.

4'	'	\$299.99
5'		\$349.99

- (Picea pungens 'Baby Blue Eyes')

'BABY BLUE EYES' BLUE SPRUCE

Dwarf form of blue spruce. Intense blue needles and excellent compact habit. Great for small yards.

Height: 15-20 ft. Spread: 8-10 ft.

3-4'	\$199.99
4-5'	\$269.99
5'	\$299.99

- (Picea pungens 'Glauc Globosa')

DWARF GLOBE BLUE SPRUCE

This dwarf spruce is flat-topped and densely branched. Bright blue needles hold their color all year but brighter in summer. Excellent specimen or accent plant. Slow grower.

Height: 3-4 ft. Spread: 3-4 ft.

#2	\$79.99
#3	\$119.99
#5	\$129.99
#6	\$199.99

- (Picea pungens 'Hoopsii')

HOOPSI COLORADO BLUE SPRUCE

The bluest and best of all blue spruces. Full sun. Prefers well drained soil.

Height: 30-50 ft. Spread: 10-20 ft.

4-5'	\$299.99
6-7'	\$399.99

PINE

- (Pinus flexilis 'Vandewolf's Pyramid')

VANDEWOLF'S PYRAMID LIMBER PINE

A vigorous, upright selection of Limber Pine with especially soft blue-green foliage.

Height: 20-30 ft. Spread: 10-15 ft.

4-5'	\$299.99
5-6'	\$329.99

- (Pinus mugo 'Slowmound')

SLOWMOUND MUGO PINE

A true dwarf Mugo Pine without pruning. A dark-green, dense mound that produces many showy buds. Will fit well into confined areas.

Height: 2-3 ft. Spread: 2-3 ft.

#3	\$59.99
----	---------

- (Pinus strobus)

EASTERN WHITE PINE

Soft, pale green needles. Pyramidal form. Prefers well drained soil. Plant in a protected location. Fast growing.

Height: 40-60 ft. Spread: 20-40 ft.

4-5'	\$219.99
5'	\$269.99

YEW

- (Taxus cuspidata 'Capitata')

PYRAMIDAL JAPANESE YEW

The only true tree form of the Japanese yews. Dark green, pyramidal form. Yews require well drained soil. Plant in sun or shade. Valued as an entrance and corner foundation plant.

Height: 6-10 ft. Spread: 4-8 ft.

3'	\$199.99
4'	\$249.99

EVERGREENS

○● (Taxus x media Cultivars)

SPREADING YEW (Taxus x media Cultivars)

Requires well drained soil. Ideal for foundation plantings or hedge.

(Taxus x media 'Densiformis')

Dense Spreading Yew

Dense, dark green, compact evergreen.

Height: 3-4 ft. Spread: 4-6 ft.

#3	\$49.99
#5	\$69.99
#7	\$99.99

(Taxus x media 'Hicksii')

Hicks Upright Yew

A dense, upright, columnar evergreen. Can have attractive red berries in fall.

Height: 6-10 ft. Spread: 3-4 ft.

#3	\$49.99
#5	\$69.99
#7	\$99.99

(Taxus x media 'Tauntonii')

Taunton's Yew

A low growing, hardy yew; does not burn or discolor in winter. Performs well in heat.

Height: 3-4 ft. Spread: 4-6 ft.

#2	\$39.99
#5	\$69.99
#7	\$99.99

ARBORVITAE

○ (Thuja occidentalis 'Hetz Midget')

HETZ MIDGET ARBORVITAE

Dwarf globe shape with dense flat layered needles.

Height: 3-4 ft. Spread: 3-4 ft.

#1	\$19.99
#2	\$39.99
#3	\$49.99
#5	\$59.99

○ (Thuja occidentalis 'Holmstrup')

HOLMSTRUP ARBORVITAE

Compact, upright growth habit. Bright green foliage. Great for small gardens or rock gardens. Small 'Emerald Green'.

Height: 6-8 ft. Spread: 2-3 ft. -

3'	\$99.99
4-5'	\$149.99

○ (Thuja occidentalis 'Bobozam')

MR. BOWLING BALL ARBORVITAE

Dwarf form has a perfect round habit. Fine, lacy texture with soft silver green foliage, and bronze tips in winter.

Height: 2-3 ft. Spread: 2-3 ft.

#1	\$16.99
#2	\$39.99
#3	\$44.99
#5	\$49.99

○ (Thuja occidentalis 'Smaragd')

EMERALD GREEN ARBORVITAE

Dense, narrow cone-shaped form, with bright green foliage all year. Excellent for screening. Keep moist until established.

Height: 10-15 ft. Spread: 3-4 ft.

#1	\$19.99
#5	\$54.99
4-5'	\$79.99
5-6'	\$109.99
6-7'	\$149.99

○● (Thuja occidentalis 'Techny')

MISSION ARBORVITAE

Dark green, wide pyramidal evergreen. Excellent screen or hedge plant.

Height: 10-15 ft. Spread: 6-8 ft.

3-4'	\$69.99
4-5'	\$149.99

○● (Thuja occidentalis 'Woodward')

WOODWARD GLOBE ARBORVITAE

A hardy and vigorous evergreen with a rounded shape.

Height: 4-6 ft. Spread: 4-6 ft.

#5	\$49.99
----	---------

○● (Thuja standishii x plicata 'Green Giant')

GREEN GIANT ARBORVITAE

Fast growing evergreen perfect for use as a screen, hedge or wind break..

Height: 15-30 ft. Spread: 6-10 ft.

4-5'	\$119.99
5-6'	\$199.99
6-7'	\$269.99

●● (Tsuga canadensis)

CANADIAN HEMLOCK

A wide spreading, graceful, fern-like evergreen. Useful as a hedge or screen, needs some wind and sun protection.

Height: 20-40 ft. Spread: 10-20 ft.

#7	\$119.99
4-5'	\$199.99
6'	\$399.99

BROADLEAF EVERGREENS

●● BOXWOOD (*Buxus* Cultivars)

Makes a good foundation or small hedge. Formal in appearance. Protect from winter winds.

#1	\$16.99 - \$19.99
#2	\$39.99
#5	\$69.99 - \$79.99

(*Buxus* x 'Green Gem')

Green Gem Boxwood

A compact round shrub with deep green foliage throughout winter. Requires little pruning.
Height: 2-3 ft. Spread: 2-3 ft.

(*Buxus* x 'Green Mountain')

Green Mountain Boxwood

Small dark green leaves form a perfect pyramidal to oval shape. More upright than other boxwoods.
Height: 3-5 ft. Spread: 2-3 ft.

(*Buxus* x 'Green Velvet')

Green Velvet Boxwood

Globe shape with lush green foliage. One of Platt Hill's favorite shrubs.
Height: 3-4 ft. Spread: 3-4 ft.

(*Buxus microphylla* var. *koreana* 'Winter Gem')

Winter Gem Boxwood

Large glossy foliage distinguishes this hardy boxwood.
Height: 3-4 ft. Spread: 3-4 ft.

EUONYMUS CULTIVARS

●● (Euonymus fortunei 'Emerald Gaiety')

EMERALD GAIETY EUONYMUS

Deep green leaves edged with sparkling white margins. In winter, margins can be tinged with pink.
Height: 3-4 ft. Spread: 3-4 ft.

#1	\$18.99
#2	\$34.99
#3	\$39.99

●● (Euonymus fortunei 'Emerald 'N Gold')

EMERALD 'N GOLD EUONYMUS

Bright green foliage with gold edges all year long. In winter, edges can be tinged with pink.
Height: 2-3 ft. Spread: 3-4 ft.

#1	\$18.99
#2	\$34.99
#3	\$39.99

○● (Euonymus fortunei 'Moonshadow')

MOONSHADOW EUONYMUS

Foliage has bright yellow centers surrounded by glossy, dark green margins.
Height: 2-3 ft. Spread: 3-4 ft.

#1	\$18.99
#2	\$34.99
#3	\$39.99

○● (Euonymus fortunei 'Roemertwo')

GOLD SPLASH EUONYMUS

Gold Splash is not just another Euonymus! It has large round leaves displaying a thick deep golden-yellow edge. Very showy. Yellow fruit and orange seed are very showy and persistent. Excellent hardiness, too.
Height: 2-3 ft. Spread: 3-4 ft.

#2	\$39.99
#3	\$39.99

HOLLY

● (Ilex x meserveae 'Royal Family')

ROYAL FAMILY HOLLY

A profusion of bright red berries is assured each fall with a fruiting and pollinator planted in the same container. The hardiest of the hollies.
Height: 4-6 ft. Spread: 4-6 ft.

#2	\$44.99
#3	\$49.99
#5	\$69.99

BROADLEAF EVERGREENS

●● RHODODENDRON

(Rhododendron catawbiense 'Nova Zembla')

NOVA ZEMBLA RHODODENDRON

Showy deep red flowers in late May with dark green foliage.
Height: 3-5 ft. Spread: 3-5 ft.

#3 \$49.99

(Rhododendron 'Karens')

KARENS AZALEA

Hardiest evergreen azalea for Zone 5. Foliage is a shiny dark green with burgundy red fall color. Flowers are lavender-pink in late April to May.
Height: 3-4 ft. Spread: 3-4 ft.

#3 18-21" \$44.99

(Rhododendron 'Stewartsonian')

STEWARTSONIAN AZALEA

Glossy dark green foliage and stunning red flowers in May.
Height: 3-4 ft. Spread: 3-4 ft.

#3 18-21" \$44.99

(Rhododendron 'PJM Compacta')

P.J.M. COMPACT RHODODENDRON

Shrub with compact bushy form. Lavender flowers in mid April to early May. Glossy, dark green foliage turning plum color in fall. Prefers acidic, well drained soil.
Height: 3-4 ft. Spread: 3-4 ft.

#3 \$49.99

(Rhododendron 'Rosebud')

ROSEBUD AZALEA

Evergreen azalea with double pink rose bud-like flowers in late spring. Low spreading habit. Grows in full shade but flowers best in dappled sunlight.
Height: 2-3 ft. Spread: 3-4 ft.

#3 18-21" \$44.99

USES OF EVERGREENS AND BROADLEAF EVERGREENS

ATTRACT BIRDS

Arborvitae, Hemlock, Spruce, White Pine

COLUMNAR

Emerald Green Arborvitae, Hicks Yew, Holmstrup Arborvitae, Skyrocket Juniper, Topiaries

DEER RESISTANT

Boxwood, Juniper, Mugo Pine, Spruce

DROUGHT TOLERANT

Junipers, Spruce, White Pine

FULL SUN (*All day direct sunlight*)

Arborvitae, Junipers, Pines, Spruces, Yews

MOIST SOIL, (BUT NOT WET)

Arborvitae, Hemlock

SALT TOLERANT

Arborvitae, Hetz Juniper, Mugo Pine, Spruce

SHADE TO HEAVY SHADE

(No more than 3 hours direct sunlight; shadow or shade the rest of the day)

All Broadleaf Evergreens, Hemlock, Yews

SPREADING EVERGREENS

Low Growing, Creeping:

Daub's Frosted Juniper, Dwarf Japanese Garden Juniper, Emerald 'n Gold Euonymus, Icee Blue Juniper, Moonshadow Euonymus

Medium Growing:

'Dense' Yew, Dwarf Mugo Pine, Emerald Gaiety Euonymus, Hetz Midget Arborvitae, Mr. Bowling Ball Arborvitae, Sea of Gold Juniper, Taunton Yew, Vegetus Euonymus

WIND BREAKS

Arborvitae, Juniper, Norway Spruce, Spruce

NOTE:

As a group the broadleaf evergreens do not like winter sun. For best results plant them on a north or east exposure or plan to protect them in the winter with cut evergreen boughs or burlap.

SHADE TREE

TREES

○● (Acer rubrum 'Frank Jr.')

REDPOINTE MAPLE

Redpointe Maple is a rising star on the shade tree horizon. It is a pest and disease resistant tree that is easily maintained. A vigorous grower that is well-behaved and balanced. It doesn't need much pruning and shaping to develop a symmetrical canopy.
Height: 30-40 ft. Spread: 20-30 ft.

#15 1-1.5"

\$199.99

○● (Acer x freemanii 'Jeffersred')

AUTUMN BLAZE MAPLE

A hybrid between the Red and Silver Maples. Fall color is a vibrant red. This variety is seedless, prefers damp or very wet soils, but is tolerant of normal soils. Fast growing.
Height: 40-50 ft. Spread: 30-40 ft.

#15 1-1.5"

\$199.99

○● (Acer saccharum 'Bailsta')

FALL FIESTA MAPLE

A faster growing sugar maple. Foliage emerges with a hint of red on its deep glossy green foliage. Excellent orange-red fall color.

Height: 50-70 ft. Spread: 30-40 ft.

#15 1-1.5"

\$199.99

○ (Acer truncatum x platanoides 'JFS-KW202')

CRIMSON SUNSET MAPLE

The dark purple foliage won't scorch in the summer heat. A dominant central leader gives "Crimson Sunset" a very compact, uniform shape.

Height: 25-35 ft. Spread: 15-25 ft.

#15 1-1.5"

\$199.99

○● (Betula nigra 'Cully')

HERITAGE RIVER BIRCH

Exfoliating bark exposes to a tan color, which contrasts nicely with the other white varieties of birch. Resistant to bronze birch borer. Tolerates wet locations. Yellow fall color.
Height: 30-40 ft. Spread: 20-30 ft.

#15 Clump 6-8'

\$199.99

○● (Betula populifolia 'Whitespire')

WHITESPIRE BIRCH

Distinctive narrow, pyramidal form with interesting white bark. Great yellow fall foliage color. Shows resistance to the bronze birch borer.

Height: 30-40 ft. Spread: 15-25 ft.

#15 Clump 6-8'

\$199.99

○● (Catalpa speciosa)

NORTHERN CATALPA

Large white flowers open in June. A native tree that is very tolerant of seasonal flooding or drought. Fast growing.
Height: 40-50 ft. Spread: 20-40 ft.

#15 1-1.5"

\$199.99

○● (Ginkgo biloba 'Autumn Gold')

AUTUMN GOLD GINKGO

Wide spreading, picturesque branches; bright green leaves turning yellow in fall. Slow grower, but virtually pest-free. This tree dates back to prehistoric times. One of Platt Hill's favorites. Male variety which bears no fruit.
Height: 30-40 ft. Spread: 20-30 ft.

#15 1-1.5"

\$269.99

○● (Gleditsia triacanthos f. inermis 'Skycole')

SKYLINE HONEYLOCUST

A seedless tree provides filtered shade. Dark green in summer and yellow fall color.
Height: 35-45 ft. Spread: 25-35 ft.

#15 1-1.5"

\$199.99

○● (Gleditsia triacanthos f. inermis 'Suncole')

SUNBURST HONEYLOCUST

The Sunburst Honeylocust is a deciduous tree prized for its lovely foliage. Leaves begin as yellow in the spring, transition to green and again turn yellow in the fall. Thornless.
Height: 25-35 ft. Spread: 25-35 ft.

#15 1-1.5"

\$199.99

○● (Liriodendron tulipifera 'JFS-OZ')

EMERALD CITY TULIP TREE

Improved cultivar of our native tulip tree. Prized for deeper green, glossy foliage and more narrow, uniform growth habit.
Height: 40-50 ft. Spread: 15-25 ft.

#15 1-1.5"

\$199.99

SHADE TREE

○● (Metasequoia glyptostroboides)

DAWN REDWOOD

Needle-like foliage which dark green summer and red-orange in late fall.

Height: 60-80 ft. Spread: 15-25 ft.

#15 1-1.5"

\$169.99

○● (Quercus bicolor)

SWAMP WHITE OAK

A beautiful native tree well adapted to wet and poorly drained soils. Rounded open shape turning to burgundy fall color.

Height: 40-60 ft. Spread: 40-60 ft.

#15 1-1.5"

\$219.99

○● (Quercus rubrum)

RED OAK

Moderately fast grower with large, dark green foliage.

Turns a deep red in the fall. Broad, stately shape.

Height: 30-40 ft. Spread: 30-40 ft.

#15 1-1.5"

\$219.99

○● (Salix alba 'Niobe')

GOLDEN WEeping WILLOW

Graceful weeping tree with pendulous branches and showy yellow bark. Very fast grower. Tolerates wet locations.

Yellow fall color.

Height: 50-70 ft. Spread: 70 ft.

#15 1-1.5"

\$169.99

○ (Taxodium distichum)

BALD CYPRESS

Slender pyramidal habit and needle-like foliage. Likes wet locations.

Height: 30-50 ft. Spread: 20-30 ft.

#15 1-1.5"

\$169.99

BAILEY'S REDTWIG DOGWOOD

Loose broad spreading shrub with red branches. White flowers in May followed by white fruit in July. Tolerates wet soil and shade. Green foliage.
Height: 8-10 ft. Spread: 8-10 ft.

#2	\$29.99
#5	\$39.99

○● (Cornus sericea 'Bergeson Compact')

BERGESON'S COMPACT DOGWOOD

This easy to grow shrub has superior burgundy fall color that is followed by striking red twigs that add to the winter landscape.
Height: 4-6 ft. Spread: 4-6 ft.

#5SQ	\$49.99
------	---------

○ (Corylus avellana 'Contorta')

HARRY LAUDER'S WALKING STICK

Excellent specimen with low spreading contorted branches. Valued for its winter interest.
Height: 8-10 ft. Spread: 6-8 ft.

#6	\$99.99
----	---------

○● (Cotinus coggygia 'Ancot')

GOLDEN SPIRIT SMOKEBUSH

This yellow leaf plant's new foliage emerges with just a touch of red. Smoky yellow flowers appear in June and July, followed by a fiery orangish-red fall color, changing from the bottom up.

Height: 6-10 ft. Spread: 6-8 ft.

#3 \$44.99

○ (Cotinus coggygia 'Royal Purple')

ROYAL PURPLE SMOKEBUSH

Misty, smoke colored flowers all summer. Deep maroon foliage. Plant in a protected area and full sun for best color.

Height: 6-10 ft. Spread: 6-10 ft.

#5 \$69.99

#7 \$89.99

○● (Cotoneaster apiculatus 'Tom Thumb')

TOM THUMB COTONEASTER

Mounded, tightly compact shrub with insignificant flowers in spring and red fall foliage. Petite foliage has great ornamental value

Height: 1-2 ft. Spread: 3-5 ft.

#1 \$19.99

#2 \$39.99

○● (Deutzia gracilis 'Duncan')

CHARDONNAY PEARLS DEUTZIA

Spring flower buds look like pearls before opening to white trumpet-shaped flowers.

Height: 2-3 ft. Spread: 2-3 ft.

#2 \$34.99

#3 \$39.99

○● (Deutzia x 'NCDX2')

DEUTZIA YUKI CHERRY BLOSSOM

A glorious cascade of magenta blooms reminiscent of a mature Cherry tree display. Now you can recreate that glorious mass bloom with a much smaller and easier plant.

Height: 1-2 ft. Spread: 2-3 ft.

#3 \$39.99

○● (Deutzia x 'NCDX1')

DEUTZIA YUKI SNOWFLAKE

The bright white blooms create a carpet of snowy blossoms over a low, spreading bush. 'Yuki Snowflake' was named a "Must Grow New Shrub for 2014" by Better Homes and Gardens.

Height: 1-2 ft. Spread: 2-3 ft.

#3 \$39.99

○● (Diervila sessilifolia 'LPDCPodaras')

COOL SPLASH BUSH HONEYSUCKLE

A nice small variegated leafed shrub. Looks great with plants with contrasting dark foliage.

Height: 3-4 ft. Spread: 3-4 ft.

#3 \$34.99

SHRUBS

○●● (Diervila rivularis 'SMDNDRSF')

Purple Pillar	Purple-red	8-12 ft.
White Pillar	White	8-12 ft.
White Chiffon	White	6-10 ft.

○● (Hydrangea arborescens ‘Annabelle’)

ANNABELLE HYDRANGEA

Large, pure white flowers bloom from June to September.

Flowers dry and turn green later in season.

Height: 4-6 ft. Spread: 4-6 ft.

#2 \$29.99

#5 \$39.99

● (Hydrangea macrophylla ‘Bailmer’)

ENDLESS SUMMER HYDRANGEA

Blooms consistently on both old and new wood.

Removal of spent flowers will encourage reblooming. Pink flowers in alkaline soil, blue in acidic soils. Best in partial sun exposure.

Height: 3-4 ft. Spread: 3-4 ft.

#1 \$24.99

#2 \$34.99 - \$44.99

#3 \$44.99

#5 \$59.99

● (Hydrangea macrophylla ‘Bailday’)

LIGHT-O-DAY HYDRANGEA

An elegant lace-cap style hydrangea, the real excitement comes from its bold, white-edged leaves that will light up a shady area all season long.

Height: 3-5 ft. Spread: 3-5 ft.

#3 \$44.99

SHRUBS

●● (Hydrangea macrophylla 'Dancing Snow')

WEDDING GOWN HYDRANGEA

Each double white flower of this lace-cap Hydrangea is like a mini bridal bouquet. An outer ring of large, double flowers surround a center packed with smaller, double white florets. Flowering begins earlier than most varieties of *Hydrangea macrophylla* and continues on new growth into fall if spent blooms are removed regularly.

Height: 3-4 ft Spread: 3-4 ft.

#3

\$44.99

●● (Hydrangea macrophylla 'PIIHM-II')

BLOOMSTRUCK HYDRANGEA

Bloomstruck is the newest addition to the Endless Summer Collection. It is a rebloomer, has extremely strong stems, above average heat tolerance and great disease resistance.

Height: 3-4 ft. Spread: 3-4 ft.

#3

\$44.99

#5

\$59.99

○● (Hydrangea paniculata 'DVPPinky')

PINKY WINKY HYDRANGEA

Very large conicle shaped 14" blooms are white turning to pink throughout late summer. Branching features attractive red stems.

Height: 6-8 ft. Spread: 6-8 ft.

#5

\$49.99

#7 Tree

\$149.99

○● (Hydrangea paniculata 'SMHPFL')

FIRE LIGHT HYDRANGEA

New panicle hydrangea that changes color reliability, regardless of summer temperatures.

Height: 6-8 ft. Spread: 6-8 ft.

#5

\$49.99

○● (Hydrangea paniculata 'HYPMAD I')

WHITE DIAMONDS HYDRANGEA

Expect 8 weeks or more of dazzling summer bloom from pure white spires held upright on strong branches. This particular variety is valued for its spires of mixed sterile and fertile white flowers that bloom from mid to late summer and remain white longer than most selections.

Height: 3-4 ft. Spread: 3-4 ft.

#5

\$49.99

○● (Hydrangea paniculata 'ILVOBO')

BOBO HYDRANGEA

This dwarf Hydrangea is an undeniable asset for any garden, especially those with limited space. Bobo covers itself with large white blooms in summer and are held upright on strong stems and take on a pinkish blush in fall. They appear so abundantly, you can barely see the leaves!

Height: 2-3 ft. Spread: 2-3 ft.

#3

\$44.99

○● (Hydrangea paniculata 'Jane')

LITTLE LIME HYDRANGEA

A dwarf of the popular 'Limelight' hydrangea. Same great coloration in a smaller package.

Height: 3-4 ft. Spread: 3-4 ft.

#3

\$44.99

○● (Hydrangea paniculata 'Limelight')

LIMELIGHT HYDRANGEA

Bright lime-green flowers add brightness to the late summer landscape. In autumn the blooms display shades of pink, burgundy, and green. Flowers on new wood.

Height: 6-8 ft. Spread: 6-8 ft.

#5

\$49.99

#7 Tree

\$149.99

○● (Hydrangea paniculata 'Bulk')

QUICK FIRE HYDRANGEA

Large blossoms that have open appearance and open white and turn pink as they age. Excellent blooms that last from late summer through autumn. Earliest to bloom.

Height: 6-8 ft. Spread: 6-8 ft.

#5

\$49.99

#7 Tree

\$149.99

○● (Hydrangea paniculata 'Rensun')

STRAWBERRY SUNDAE HYDRANGEA

It's an irresistible combination: big blooms on a compact shrub. Add the fact that these particular flowers open white, then quickly turn soft pink, and finally dark red, and you have the makings of a show stopping garden display.

Height: 4-5 ft. Spread: 4-5 ft.

#3

\$49.99

SHRUBS

○○ (Hydrangea paniculata 'SMHPLQF')

LITTLE QUICK FIRE HYDRANGEA

The name says it all -- this diminutive shrub throws fluffy, creamy spikes that turn to deep pink with red highlights on bold, red stems. You'll enjoy their color in your garden before other paniculata varieties have even begun to bloom. It's the perfect accent for smaller spaces.
Height: 3-5 ft. Spread: 3-5 ft.

#3

\$44.99

○○ (Hydrangea paniculata 'Renhy')

VANILLA STRAWBERRY HYDRANGEA

Large and full blossoms that display a 2 tone pink and white color that lasts from late summer through autumn.
Height: 6-8 ft. Spread: 6-8 ft.

#5

\$49.99

#7 Tree

\$149.99

● (Hydrangea quercifolia 'Pee Wee')

PEE WEE OAKLEAF HYDRANGEA

Abundant white blooms appear early to mid-summer followed by excellent wine-red fall color. Compact plant.
Height: 3-4 ft. Spread: 3-4 ft.

#3

\$44.99

● (Hydrangea quercifolia 'Ruby Slippers')

RUBY SLIPPERS OAKLEAF HYDRANGEA

Blossoms go from white to pink to red. Great fall color.
Height: 3-4 ft. Spread: 4-5 ft.

#3

\$44.99

● (Hydrangea serrata 'MAKD')

TINY TUFF STUFF HYDRANGEA

This little guy is as 'tuff' as its name. Pink lace-cap flowers on a compact plant. Tiny Tuff Stuff also has outstanding fall foliage color.
Height: 1.5-2 ft. Spread: 1.5-2 ft.

#3

\$44.99

○○ (Hypericum frondosum 'Sunburst')

SUNBURST ST. JOHNSWORT

Bright golden yellow flowers in July. Blue green foliage on upright stout branches. Nice plant for summer color.
Height: 2-3 ft. Spread: 2-3 ft.

#2

\$29.99

#3

\$34.99

#5

\$49.99

● (Ilex verticillata)

WINTERBERRY, COMBO

Bright red berries produced in fall are showstopping during the winter months. Male and female plants potted together in the same pot to ensure berries.

#5

\$39.99

○● (Itea virginica)

VIRGINIA SWEETSPIRE

Blooms in June and July with fragrant white flowers. Prefers moist, fertile soil. Great for beds, borders and mass plantings.

#2

\$34.99

#5

\$49.99

Henry's Garnet – A rounded arching shrub with bright green foliage turning scarlet and crimson in fall.

Height: 3-5 ft. Spread: 4-6 ft.

Little Henry – Low mounded, compact shrub with bright green foliage turning brilliant red in the fall.

Height: 2-3 ft. Spread: 2-3 ft.

○● (Ligustrum vulgare 'Cheyenne')

CHEYENNE PRIVET

Upright shrub with glossy, dark green foliage.

Excellent hardy formal hedge. Fast growing.

Height: 8-10 ft. Spread: 4-6 ft.

#1

\$9.99

#5

\$24.99

○● (Ligustrum vulgare 'Swift')

STRAIGHT TALK PRIVET

2' wide, tightly upright shrub. Perfect use as a vertical accent or grouped together to form a narrow hedge. Cold hardy, drought tolerant.

Height: 8-10 ft. Spread: 4-6 ft.

#3

\$39.99

○● (Ligustrum x vicaryi 'NCLX1')

GOLDEN TICKET PRIVET

Finally a non-invasive privet shrub. Golden Ticket takes a really popular shrub variety and makes it so much better.

The golden foliage adds a splash of color to your landscape.

Enjoy this deer resistant shrub as a specimen or hedge.

Height: 6-12 ft. Spread: 1-2 ft.

#3

\$39.99

○● (Philadelphus x virginialis 'Dwarf Snowflake')

MINIATURE SNOWFLAKE MOCK ORANGE

Double white fragrant flowers in early summer. Useful in mass plantings, as a low hedge or foundation plant.

Height: 3-4 ft. Spread: 3-4 ft.

#3

\$39.99

SHRUBS

○ (Physocarpus opulifolius ‘Jefam’)

Blooms early spring. An old-time favorite.
Height: 4-5 ft. Spread: 3-4 ft.

#3	\$39.99
----	---------

○ (Prunus x cistena)

PURPLELEAF PLUM (SAND CHERRY)

Shrub with reddish-purple leaves all summer. Flowers light pink in spring. Excellent corner plant and color accent.
Plant in sun for best color.
Height: 6-8 ft. Spread: 5-6 ft.

#2	\$34.99
#5	\$44.99
#7	\$69.99

○● **MANDARIN LIGHTS AZALEAS**

Fragrant orange flowers bloom in May. Deep green foliage.
Prefers acidic, well drained soil.
Height: 4-5 ft. Spread: 4-5 ft.

#2	\$39.99
#3	\$49.99

○● (Rhus typhina 'Bailtiger')

TIGER EYES CUTLEAF STAGHORN SUMAC

Upward angled branches with drooping, deeply cut leaflets give this shrub an oriental effect. The new growth is chartreuse green quickly changing to bright yellow. Fall color has dramatic effect of orange and intense scarlet.
Height: 4-6 ft. Spread: 4-6 ft.

#2	\$34.99
#5	\$49.99
#7	\$69.99

○● (Ribes alpinum)

ALPINE CURRANT

Perfect low maintenance hedge plant with deep green foliage. Height: 3-5 ft. Spread: 5-6 ft.

#3	\$39.99
#5	\$39.99

○ (Salix discolor)

PUSSY WILLOW

Very fast grower. Silvery white catkins in early spring.
Tolerates moist locations.
Height: 15-18 ft. Spread: 8-12 ft.

#1	\$14.99
----	---------

○● (Salix integra 'Hakuro Nishiki')

DAPPLED WILLOW

Fast growing shrub with mottled white, green, red and pink highlighted leaves. Easily pruned to desired size.
Height: 6-8 ft. Spread: 6-8 ft.

#5	Shrub	\$49.99
#7	Tree	\$169.99

○ (Salix purpurea 'Nana')

DWARF BLUE ARCTIC WILLOW

Compact globe-shaped shrub with blue-grey foliage.
Fast growing. Used as low hedge or for color in small gardens. Tolerates moist soil.
Height: 4-5 ft. Spread: 4-5 ft.

#3	\$39.99
----	---------

○● (Sambucus racemosa 'SMNSRD4')

LEMONY LACE ELDERBERRY

Lacy golden leaves give texture and color to the landscape.
Very hardy.
Height: 4-6 ft. Spread: 4-6 ft.

#3	\$44.99
----	---------

SHRUBS

○● (Spiraea Cultivars)

SPIREA

Good accent and border plant.

(Spiraea betulifolia ‘Tor’)

Tor Birchleaf

White flower clusters in late spring on a compact rounded plant. Fall color is an exceptional purple.

Height: 2-3 ft. Spread: 3-4 ft.

#2	\$24.99
#5	\$39.99

(Spiraea japonica ‘Goldmound’)

Goldmound

Low growing mound-like shrub with golden yellow foliage and pink flowers all summer.

Height: 2-3 ft. Spread: 2-3 ft.

#3	\$29.99
----	---------

(Spiraea japonica ‘Walbuma’)

Magic Carpet

Vibrant red shoots emerge in spring and mature into rich bronze, red-tipped foliage. Clusters of deep pink flowers in early summer. Fall foliage takes on rich russet tones.

Height: 1-2 ft. Spread: 2-3 ft.

#1	\$12.99
#3	\$29.99

(Spiraea x vanhouttei ‘Renaissance’)

Renaissance Bridal Wreath

Old favorite, fast growing fountain-shaped form. Profuse white flowers along cascading branches in May. Excellent hedge and corner plant.

Height: 6-8 ft. Spread: 6-8 ft.

#3	\$34.99
----	---------

DOUBLE PLAY SERIES

Improved color and disease resistant spirea.

#3	\$34.99
----	---------

Variety	Height	Spread
Big Bang	2-3 ft.	2-3 ft.
Candy Corn	18 in.-2 ft.	2-3 ft.
Doozie	2-3 ft.	2-3 ft.
Gold	1-2 ft.	1-2 ft.
Red	2-3 ft.	2-3 ft.

○● (Syringa meyeri 'Palibin')

DWARF KOREAN LILAC

Compact dwarf shrub. Lavender flowers in May.
Excellent specimen and foundation plant. Attractive
curled, green foliage. Plant in well drained soil.
Height: 4-5 ft. Spread: 4-5 ft.

#2	\$34.99
#5	\$44.99

○● (Syringa patula 'Miss Kim')

MISS KIM LILAC

Purple buds open to fragrant icy blue flowers late May to
early June. Compact, upright habit. Leaves turn burgundy-
red color in fall.
Height: 4-6 ft. Spread: 4-6 ft.

#2	\$34.99
#5	\$44.99

○ (Syringa x 'SMSJBP7')

DARK PURPLE BLOOMERANG LILAC

A reblooming dwark Korean lilac that produces fragrant
purple flowers.
Height: 4-6 ft. Spread: 4-6 ft.

#2	\$34.99
#3	\$44.99

○ (Syringa vulgaris)

COMMON LILAC

Fragrant lilac-purple single flowers in May.
Hardy, popular old favorite. Plant in well drained soil.
Height: 8-12 ft. Spread: 6-10 ft.

#5	\$44.99
----	---------

SHRUBS

○ (Syringa vulgaris)

FRENCH HYBRID LILACS

Upright shrubs with large, heart-shaped foliage. Distinctive from other varieties of lilacs as they have large, fragrant flowers. Plant all varieties in well drained soil.

Height: 8-12 ft. Spread: 6-10 ft.

#5

\$44.99

Beauty of Moscow – Pink buds open to white flowers

Charles Joly – Red/double

Ludwig Spaeth – Purple/single

Miss Ellen Wilmont – White/double

President Grevy – Violet-blue/double

President Lincoln – Blue/single

Sensation – Purple with white margin/single

○● (Viburnum carlesii ‘Compactum’)

COMPACT KOREANSPICE VIBURNUM

Upright spreading form with fragrant, pink buds opening to white flowers in May. Excellent specimen or foundation plant. Most fragrant of all shrubs.

Height: 3-4 ft. Spread: 3-4 ft.

#10

\$99.99

24" B&B

\$99.99

○● (Viburnum nudum ‘Winterthur’)

WINTERTHUR VIBURNUM

Blooms in June with creamy white flowers clusters, producing fruit which turn to a red-pink and mature to a dark blue. Glossy oval shapedx foliage with fantastic fall color.

Height: 4-6 ft. Spread: 4-6 ft.

#5

\$44.99

○● (Viburnum x juddii)

JUDD VIBURNUM

Fragrant, white or light pink ball-shaped flowers open in late April or May. Glossy foliage is deep green; reddish black fruit in fall. Excellent foundation or specimen plant.

Height: 6-8 ft. Spread: 6-8 ft.

#5

\$59.99

○ (Weigela florida hybrids)

WEIGELA

Blooms in late spring. Plant in well drained soil.

#1	\$16.99 - \$19.99
#2	\$34.99 - \$39.99
#3	\$39.99
#5	\$49.99

Minuet

Mounded shrub. Fragrant rosy-pink blooms with ruby-red exterior, lilac-purple lobes and a yellow throat. Purple tinged foliage.
Height: 2 ft. Spread: 2-3 ft.

Sonic Bloom Series

Re-blooming compact new weigela.
Height: 4-6 ft. Spread: 4-6 ft.

Pink
Red

‘Wine’ Series

The dark burgundy-purple foliage sets off the rosy-pink colored flowers.

Fine Wine	3-4 ft.
Spilled Wine	2-3 ft.
Wine and Roses	4-5 ft.

Note: Square feet per plant calculations are based on a square planting pattern. A triangular pattern will require 15% more plants.

VINES

(Campsis)

TRUMPET VINE

An aggressive hardy vine produces large orange, scarlet-red or yellow trumpet shaped flowers July through September. Attracts hummingbirds. Prune to a few buds in spring. May become invasive in a garden setting. Full Sun. Requires strong support. Grows: 30-40 ft. Spread: 4-5 ft.

#1 2.3 qt. (2.2 L) \$17.99

(Clematis)

CLEMATIS

#1 2.3 qt. (2.2 L) \$19.99 and up

Rapid growing vine produces large flowers in mid-summer. Prefers morning sun and well- drained soil. Mulch soil to keep roots cool and moist in summer and protected in winter. Group number (#) indicates pruning requirements.

Variety	Color	Height	Bloom Period	Pruning Group
Crystal Fountain	Lilac-blue	8-12'	June-Sept.	#2
Franziska Maria	Purple/blue	5-7'	June-Sept.	#2
Guernsey Cream	Creamy white	6-8'	May-June & Sept.	#2
Jackmanii	Violet-purple	8-12'	June-July	#3
Paniculata	Fall flowering white	15-20'	Sept.-Oct.	#2
The President	Rich purple	8-10'	June-Sept.	#3

More Varieties Available Upon Request

Pruning Care by Group Number

- Group 1: Produces flowers on stems produced the previous season. Only remove the dead or weak stems, after flowering.
- Group 2: These plants produce 2 flushes of blooms. Prune back old flower shoots to encourage rebloom. No pruning required except to shape plant.
- Group 3: This group bears their flowers on new growth each year, therefore all old growth must be removed completely in February-March before new growth begins. Hard prune.

VINES

(Schizophyagma hydrangeoides)

JAPANESE CLIMBING HYDRANGEA

Large white lace cap flowers are produced in June. Cinnamon-brown peeling bark. One of the few vines that prefers shade. Grows: 15-30 ft. Spread: 8-10 ft.

#1 2.3 qt. (2.2 L) \$21.99 and up

(Hydrangea anomala subsp. Petiolaris)

CLIMBING HYDRANGEA

Large white fragrant flowers are produced during late June-July. Will cling to brick or wood with rootlike holdfasts. True clinging vine. Some additional support recommended. Sun to part shade.

Grows: 30-40 ft. Spread: 8-10 ft.

#1 2.3 qt. (2.2 L) \$21.99 and up

(Lonicera 'Dropmore Scarlet')

DROPMORE SCARLET HONEYSUCKLE VINE

Brilliant scarlet-orange flowers. Blooms June through October. Grows: 20 ft.

#1 2.3 qt. (2.2 L) \$17.99

(Parthenocissus tricuspidata)

BOSTON IVY

Popular clinging vine with purplish new growth maturing to green before turning a brilliant red in fall. Valued for quick cover of brick or stone walls and fences. Shade to partial shade, but will tolerate sun in moist soil.

Grows: 30-40 ft. Spread: 20 ft.

#1 2.3 qt. (2.2 L) \$21.99 and up

(Wisteria)

WISTERIA

Lavender-blue flowers bloom earlier than other varieties. Excellent over arbors or trellises. Fast growth rate. Sun to part shade.

Grows: 15-25 ft. Spread: 10 ft.

#1 2.3 qt. (2.2 L) \$19.99

FRUIT TREES

APPLE

#7 6.2 gal. (23 L)

\$ 99.99

Fuji

Medium sized, oblong-to-round fruit that is extraordinarily crisp and juicy. Cream colored flesh produces a delightful aroma. Ripens late October. Semi-dwarf.

Pollination: Mid-season. Requires cross pollination.

Best with Red or Golden Delicious, Gala, Honeycrisp.

Gala

A "bi-color" apple with orange-over-cream skin. The flesh of this apple has a sweet crispness and superior quality. Ripens early September. Semi-dwarf.

Pollination: Mid-season. Requires cross pollination.

Best with Red or Golden Delicious, Honeycrisp, Red Fuji.

Golden Delicious

Uniform fruit with greenish-yellow skin. Excellent flavor makes this one of the best all-purpose apples. Ripens in October. Semi-dwarf.

Pollination: Late season bloom time. Requires cross pollination. Best with Red Delicious, Honey Crisp, Red Fuji, and Royal Gala.

Honeycrisp

A 3" fruit that is coarse grained, crisp, mildly sweet. Has an extended ripening period and can be stored in the refrigerator for up to seven months. Ripens early September.

Pollination: Late mid-season. Requires cross pollination.

Best with Red or Golden Delicious, Red Fuji, Gala.

Red Delicious

Medium to large size fruit with solid red skin; flesh is moderately firm, sweet and juicy. Good eating and salad apple. Ripens in October. Semi-dwarf.

Pollination: Late season bloom time. Requires cross pollination. Best with Golden Delicious, Honeycrisp, Red Fuji, Royal Gala.

Multi-Grafted

\$ 169.99

A product of horticultural grafting of multiple species on to one tree.

Pollination: Self.

POLLINATION OF APPLE TREES

At least two apple varieties should be used to insure pollination. Cross-pollination is possible only when varieties bloom at approximately the same time, i.e., late blooming varieties should be planted with mid-season or late bloomers. Wind does not carry pollen from one apple tree to another, therefore bees are essential for proper pollination.

Spraying programs should be adjusted to avoid killing bee populations. Do not spray while trees are in bloom.

Premature fruit drop may be caused by improper pollination. All trees should be planted within 100 feet of pollinator tree.

FRUIT TREES

APRICOT

#7 6.2 gal. (23 L)

\$ 99.99

Moorpark

Fruit is freestone medium to large with an orange to yellow skin. Flesh is juicy and sweet. Ripens late-July. Use for desserts, preserves, canning. Self fruitful.

CHERRY

#7 6.2 gal. (23 L)

\$ 99.99

Black Tartarian

Sweet cherry with excellent 1" firm, black/red fruit. Has a somewhat weeping habit as it matures. Dwarf variety. Pollination: late season. Ripens late June. Self-fruitful.

North Star

Tart cherry with red fruit and flesh. Resists cracking and brown rot. Ripens in June. Semi-dwarf. Self-pollinating.

Stella

A juicy, sweet cherry with black skins and moderately firm flesh. Resists cracking and brown rot. Ripens early July. Dwarf. Self-pollinating.

Multi-Grafted

\$ 169.99

A product of horticultural grafting of multiple species on to one tree.

Pollination: Self

POLLINATION FOR CHERRIES

Tart cherries are self-fruitful and only one tree is needed to get fruit, provided sufficient bee populations are present. Sweet cherries require two different sweet cherries to pollinate. Sweet and tart cherries cannot be counted on to satisfactorily pollinate each other.

NECTARINES

#7 6.2 gal. (23 L)

\$ 99.99

Fantasia

Large fruit good for canning, desserts, and fresh eating. Self-pollinating.

Flavortop

Red shiny fruit in midsummer. Self-pollinating.

PEACH

#7 6.2 gal. (23 L)

\$ 99.99

Elberta

Large fruit, golden yellow blushed with red. Freestone. Self pollinating. May need staking to prevent leaning when loaded with fruit. Ripens in mid August. Dwarf.

Redhaven

Medium-sized, freestone fruit of red and golden yellow. Good for freezing, canning, and eating. Disease resistant tree and fruits heavily. Self pollinating. Ripens in mid July. Dwarf.

POLLINATION FOR PEACHES

While most peach trees are self pollinating, you can improve pollination by thinning practices, pruning, and keeping the tree in good health, free from insects and disease.

PEAR

#7 6.2 gal. (23 L)

\$ 99.99

Anjou

Firm, bright green fruit is subtly sweet. The skin on this medium to large fruit has a tinge of yellow as it ripens. Semi-dwarf.

Pollination: Early season. Ripens late September.

Cross pollination is required. Best with Bartlett.

Bartlett

Large size, golden yellow fruit is juicy and highly flavored.

Strong grower. Ripens in mid September. Semi-dwarf.

Pollination: Requires cross pollination. Best with New Century, Anjou.

20th Century

Asian pear with firm yellow skin on white flesh. Has sweet but slightly tart flavor. Should be picked several times to ensure the best quality. Semi-dwarf.

Pollination: Early season. Ripens late August.

Cross pollination is required. Best with Bartlett.

POLLINATION FOR PEARS

Pears require cross pollination from another pear variety.

Pears require more pollinizers and bees than any other fruit due to early bloom time and low nectar/sugar content of the flowers, which makes them less attractive to bees.

FRUIT TREES

PLUM

#76.2 gal. (23 L)\$ 99.99

Italian Prune

A European favorite. Oval shaped blue-purple fruit with sweet golden flesh. Self-pollinating.

Santa Rosa

Medium fruit is orange-red to burgundy over orange-yellow flesh. Ripens mid-July. Standard. Self-pollinating.

POLLINATION FOR PLUMS

Plums bloom very early in the spring when the weather may be cold and wet, and bee activity is at a minimum. Therefore, pollination and subsequent fruit set may be reduced.

SPACING FOR FRUIT TREES

	Height		Space
Apple	10-15 ft.	Semi-Dwarf	10 ft.
Apricot	10-15 ft.	Semi-Dwarf	10 ft.
Cherry	10-15 ft.	Semi-Dwarf	10 ft.
Nectarine	10-15 ft.	Semi-Dwarf	10 ft.
Peach	10-15 ft.	Semi-Dwarf	10 ft.
Pear	10-15 ft.	Semi-Dwarf	10 ft.
Plum	10-15 ft.	Semi-Dwarf	10 ft.

All fruit trees require full sun and annual fertilization.

Fruit trees can be susceptible to a variety of insects and diseases which will negatively impact both the quality and quantity of your harvest yield.

We recommend you begin a spraying regimen by using Bonide fruit tree spray which contains both insecticide and fungicides.

Spray your tree when new growth first appears, and again when flower buds are fully formed and about to open. Spray again after all flower petals have fallen. Spray one more time when fruit is just forming, and then any time if needed as long as it is at least three weeks before harvest date.

FRUITS & BERRIES

ASPARAGUS

\$9.99 and up

‘Jersey Knight’

Perennial asparagus with extra large spears. Full sun.

BLACKBERRY

#1 2.3 qt. (2.2 L)

\$14.99 and up

#2 1.5 gal. (5.68L)

\$29.99

‘Baby Cakes’

Thornless dwarf, variety good for containers. Produces two crops a year. Midsummer, fall bloom. Full sun. Height 3-4'.

‘Arapaho’

Thornless variety. Berries ripen in early summer.

Height 4-6'.

‘Black Satin’

Thornless variety. Berries appear midsummer.

Height 5-6'.

BLUEBERRY

#1 2.3 qt. (2.2 L)

\$21.99 and up

#2 1.5 gal. (5.68L)

\$34.99 and up

Plants require addition of pelletized sulfur to lower acidity of the soil to 4.5-5.5 pH. Prepare planting bed by tilling in liberal amounts of Canadian Peat Moss. Two different varieties of blueberries should be planted for best yield. Full sun. Not all varieties available in both sizes.

Blueberries are listed in order of ripening:

Blue Crop — 4-6' Tart berries in July. Cross pollination with Patriot produces a larger crop. Full sun.

Patriot — 4-6' High bush type - Quarter size sweet berries.

Perpetua — 4-5' Small, mildly sweet blueberries. This plant produces two crops a year. Self-pollinating.

Bushel & Berry Series — Made to be grown in pots. Select varieties available.

CURRENT

#2 1.5 gal. (5.68 L)

\$34.99

‘Black Consort’

Round, juicy, sweet black fruit. Can be used to make jam, jelly or wine. Ripens in July. 6'.

‘Red Lake’

Vigorous grower produces clusters of large, bright deep red fruit on 2-3 year old wood. Pruning of older canes periodically is advised. Space 4-5' apart. 4-6'. Self fertile. Sun to part-shade.

‘Imperial’

Heavy producer of white fruit with a pink blush. Bears fruit 2nd or 3rd year. Space 4' apart. Ripens June - July. 6'.

FRUITS & BERRIES

FIG

'Chicago Hardy'

#1 2.3 qt. (2.2 L) \$19.99 Each plant can produce up to 150 purplish brown figs. Fully hardy to -20 degrees. Space 8-10' apart. 8'. Full sun.

GOOSEBERRY

#2 1.5 gal. (5.68 L) \$24.99

'Captivator'

Very sweet red berries in large clusters. Spreading. Semi-thornless canes. Self-pollinating. Space 3-4' apart. Prune to 5'. Cold hardy.

'Pixwell'

Very sweet berries. Semi-thornless canes. Good for making pies. Ripens in July. 5'.

GRAPES

#2 1.5 gal. (5.68 L) \$24.99

Thrive in a well drained soil rich in organic matter. Canes need support on a trellis or fence. Fruit is borne on new growth, so severe pruning each February is advised. For sweeter flavor, thin grape bunches to balance leaf area with berry load. Full sun.

Concord Seedless

Fruit resembles Concord in color and flavor but the clusters and berries are smaller.

Canadice (Red)

Seedless red grape. Early variety ripens 2 weeks before Concord.

Himrod (White)

Top white seedless grape. Clusters are large, but rather loose with medium size sweet, yellow berries.

FRUITS & BERRIES

RASPBERRY

#1 2.3 qt. (2.2 L) \$17.99

The hardiest of the cane berries. Fruit is borne on the previous year’s growth. Canes die after fruiting and should be removed. Red varieties sucker from the roots to develop new plants.

Boyne

Early season bloomer with medium sized berries. Space 2-3'. Ripens in June. Height: 4'.

Caroline

Large berry that fruits first year of planting. Space 4-5'. Ripens June-July.

Heritage (Everbearing)

Medium size, firm red fruit. First crop ripens early July; second crop in mid-September. Often bears first September following planting. Fruit is long lasting on the canes.

Shortcake

Thornless.Compact rounded habit. Full sun. Height: 2-3'.

RHUBARB Check for variety availability.

Bright red stalks hold their color when cooked. Slender stalks are very tender and sweet. Heavy yielding for pies, desserts and sauces. When harvesting pull stalks from plants, do not cut them. Leaves are toxic so remove stalks from plants before eating. Removal of flower spikes will prolong harvest. Full sun. Grows: 3. Space 3-4' apart.'

2.3 qt. (2.2 L) \$12.99

STRAWBERRY

Pak		\$1.89 ea.
	12 per flat	\$19.99 ea.
	5 or more	\$18.99 ea.

ROSES

Patented roses are the recently hybridized and newly introduced varieties. They are not necessarily better than the “tried and true” non-patented varieties, which have stood the test of time.

(HT) Hybrid Tea

Large flowers borne singly on long stems, usually double and fragrant. Bloom early summer til frost.

(FL) Floribunda

Cross between hybrid tea and the hardy polyantha ‘hedge’ rose; medium size flower borne in clusters on stems of medium length. Bloom late spring through autumn.

(GR) Grandiflora

Cross between hybrid tea and floribunda rose; medium size double flowers borne either singly or in small clusters; ideal for background borders.

Climbing Roses

Large flowers borne in clusters on rigid thick canes 10-15 feet tall. Most bloom twice, in early summer and again in autumn.

Easy Elegance® & OSO Easy® Roses

#2	\$34.99
#3	\$39.99

Flowers are available in many colors. They are hardy, own root roses ranging from 2 to 5' in height, depending on variety.

Shrub (Knockout) Roses

#2	\$34.99
#3	\$39.99

Flowers can be single or double, borne singly or in clusters depending on variety. Most are everblooming. They need little maintenance.

- ◐ Denotes Partial Shade
- Denotes Full Shade
- † Denotes Wildflower
- ↔ Denotes Groundcover
- x Denotes Cut Flower
- # Denotes Rock Garden Plant

x **ACHILLEA (Yarrow)**

Flowering perennial that can tolerate drought conditions. Flowers come in many different colors. June-Sept. Full sun.

Variety	Color	Height
Moonshine	Yellow	12-24"

New Vintage Series

Compact series with tight, dense flowers. Comes in various colors that hold their color long into the summer.

◐●↔ **AJUGA (Bugleweed)**

Blue flowers. Glossy foliage. Compact groundcover. May-June. Shade to part-shade.

Variety	Color	Height
Black Scallop	Purple-black	3-6"
Burgundy Glow	Pink silver	4-8"
Chocolate Chip	Chocolate brown	4"

x **ALCHEMILLA (Lady's Mantle)**

Grown for its clump forming foliage resembling a ladies cloak. Pleated leaves. Great for edges or low borders. June to July. 12-14". Sun to shade. Space 18" apart.

► **ALLIUM (Ornamental Onion)**

Blue Eddy

Short, blue-grey foliage forms pinwheel like rosettes. Very compact, great for rock gardens. July-Sept. Sun to part shade. 8-12". Space 8-12" apart.

○ **GlobeMaster**

Tall allium with large, round purple flowers. Blooms May. Sun to part shade.

Millenium (2018 Perennial Plant of the Year)

Large, rounded rosy-purple flower clusters. July-Sept. 15-20". Sun to part-shade. Space 24" apart.

Summer Beauty

Clusters of pale pink flowers. Fragrant foliage is attractive all season. July-Sept. 2'. Sun to part-shade. Space 12-15" apart.

AMSONIA (Blue Star)

○ **Storm Cloud**

Black foliage comes up in early spring turning to a dark green. Lavender-blue flowers. May

hubrichtii (Narrow Leaf Blue Star)

2011 Perennial Plant of the Year.

Light blue flowers over feathery foliage. Foliage turns yellow-orange in fall. April-May. 2-3'. Sun. Space 3' apart.

x►† **ANEMONE**

hybrida (Japanese Anemone)

Flowers are white or pink; single or double. Fall blooming. 2 1/2-3' tall.

tomentosa (Grapeleaf)

Pink single flowers. Fall blooming 2-4'. August-Oct. Best in moist, well-drained soil in part-shade. Late summer availability.

sylvestris (Snow Drops, Wind Flower)

White nodding flowers. Fragrant. May-June. 12-15". Light Shade. Space 12" apart. Early availability.

►x **AQUILEGIA (Columbine)**

Bell-shaped flowers bloom May-June. Sun to part-shade. Space 18" apart. Reseedng. Early availability.

►●↔ **ARALIA (Gold Japanese Spikeweed)**

Long arching spikes of white blooms. Golden, large bold leaves. July-August. 3-4'. Shade to part-shade. Space 3-4 apart.

ARTEMISIA (Silver Mound)

Compact mounding plant with silvery-green foliage. Prune spent flowers. 3-6". Spread 8-12".

►↔ **ARUNCUS (Goats Beard)**

dioicus

Long creamy plumes. Fern-like foliage. June-July. 5'. Part-shade. Space 4' apart.

'Misty Lace'

Compact variety 1.5 - 2' tall. Prefers wet soil.

PERENNIALS

† ASCLEPIAS (Butterfly Weed)

incarnata (Swamp Milkweed)

Long blooming rose-pink or white flowers grow in clusters. Followed by seed pods. Clump forming. 3-5'. Sun. Space 3-4' apart.

Syriaca (Common)

Native to Illinois. 3-5' tall with large leaves. Purple blooms in summer. Monarch caterpillar host.

tuberosa (Butterfly Weed)

2017 Perennial Plant of the Year

Brilliant orange flowers. July-August. Excellent with grasses. Good dried flower. 18-24". Sun. Drought tolerant once established. Late availability. Late to emerge.

ASTER

Wood Series. Colorful daisy-like flowers. Later blooming. Great cut flowers. Blue, pink, or purple. 8-12". Sun. 12-15" apart.

▷x ASTILBE (False Spirea)

Spikes of graceful plumes over fine textured fern-like foliage. Prefers a rich, moist soil in shaded areas. Space 2' apart. Full sun or dry soil is detrimental to this plant.

Variety	Size	Color	Bloom Time
Fanal	24-48"	Red	June-Aug.
Maggie Daley	28"	Purple	July
Peach Blossom	18-24"	Peach	May-ajune
Visions	15-18"	Rosy lilac	June-July
Visions in Red	15-18"	Red	June-July
Visions in White	15-18"	Pure white	July

▷x BAPTISIA (False Indigo)

2010 Perennial Plant of the Year

australis

Pea-shaped indigo blue flowers. 2-3'. May. Sun part shade. Space 2-3' apart.

↔● BRUNNERA

Jack Frost

2012 Perennial Plant of the Year. Frosted silver foliage with dark green veins. Sky blue flowers. 12-15". May-June. Shade to part-shade. Space 12-15" apart.

Sea Heart

An improved version of Jack Frost. Leaves are larger and more disease resistant. Flowers turn from sky blue to lavender. 6-12". May-June. Space 12-24" apart.

BUDDLEIA (Butterfly Bush)

Showy, summer blooming plants. Fragrant flower spikes. Narrow green foliage. 2-8'. Sun. Space 4-6' apart. Needs heavy winter protection.

►#x **CAMPANULA (Bellflower)**

Rapido Series

Vigorous cup-shaped flowers of white or blue carried over dark green foliage. May-June. 5-7". Sun to part-shade. Space 10-12" apart.

Pearl Series

Large deep light blue flowers and mounding plants. Flowers face upward. 6-12". June-Sept. Sun to part-shade. Space 15" part.

Viking

Non-spreading, upright spikes of lavender, bell shaped flowers. 16-18". May-July. Part-full sun. Space 18-24" apart.

x† **CENTAUREA (Bachelor Button)**

Amethyst in Snow

White petals radiating from deep blue-purple centers. June-July. 12-18".Space 18" apart.

montana

Cornflower blue flowers. June-July. 2'. Good cut flower. Sun. Space 18-24" apart. Reseeds readily.

CERATOSTIGMA (Plumbago)

Low growing plant that produces bright blue flowers. Green leaves turn bronze-red in fall. 12". July-Sept. Spread 12-18".

► **CHELONE (Turtle Head)**

Pink flowers over dark green foliage. Red stems most of the season. August-October. 2-3'. Sun to part-shade. Space 18-24" apart.

CLEMATIS – see vines

↔●† **CONVALLARIA (Lily of the Valley)**

Fragrant white, bell-shaped flowers. Can be invasive. May-June. 6-8". Plant in shade. Space 12" apart. Goes dormant in late summer. Pink flowered variety also available.

COREOPSIS (Tickseed)

Long blooming flowers for sunny areas in the garden. Space 18-24" apart. Deadhead for continued blooming.

Variety	Size	Color	Bloom Time
Golden Sphere	12-18"	Golden yellow	June-Oct.
Red Elf	12"	Red/yellow center	June-Aug.
Upstick Series	12-14"	Cream, gold & Bronze or yellow & red	June-Sept
Zagreb	15"	Clear yellow	June-Aug.
More varieties available.			

DELPHINIUM (Blue Mirror)

Bright blue flowers on 2' stalks. Blooms all summer when deadheaded. June-Sept.

Magic Fountain Series

Dwarf plant. 30" tall. Colors include pink, white and dark blue. Does not require staking. Blooms June-July.

PERENNIALS

DIANTHUS gratianopolitanus

Fire Witch

Blue-green foliage. Fragrant magenta. May-June. 4-8". Sun. 12-15" apart.

DIANTHUS hybrid

Frosty Fire

Narrow blue-green foliage. Bright red flowers bloom from late spring to summer. 6-8". Space 8-12" apart.

Paint the Town Series

Continuous blooming dianthus in magenta and fuchsia. Heat tolerant. 6-8". Space 12-14" apart. Deer/rabbit resistant.

Pinball Wizard

Double pink and white striped flowers. Deadhead spent blooms to promote reflowering in fall. May. 9-12". Full-part sun.

Other varieties of blooming dianthus available in season.

●● DICENTRA (Bleeding Heart)

spectabilis

Old fashioned bleeding heart. Pink flowers. May-June. 30". Shade to part-shade. Space 3' apart.

sp. Alba

Similar to above with white flowers.

'Gold Heart'

Arching sprays of large pink and white heart-shaped blossoms. Golden yellow leaves. May-June. Shade to part-shade.. Space 3' apart. Keep moist or foliage will go dormant in summer.

Valentine

Flower stems are deep red with bright red flowers. Late spring. 30".

x ECHINACEA (Coneflower)

Daisy-like flowers with raised centers. Attracts butterflies. Sun. Does not tolerate clay soils. July-Sept. Space 2-3' apart. Late availability on some varieties.

Variety	Color	Height
Butterfly Kisses	Bright pink	15-18"
Magnus	Pale rose	36-40"
Pow Wow White	White	18-24"
Pow Wow Wildberry	Purple pink	18-24"
Sombrero Series	Coral, red, magenta, white	24-26"
Tres Amigos	Mixed colors	18-20"
More varieties available upon request		

† EUPATORIUM

dubium 'Baby Joe' (Joe-Pye weed)

Clusters of lavender-rose flowers. Shorter, sturdy stems. August-September. 24-30". Sun. Space 30-36" apart.

EUPHORBIA (Spurge)

'Bonfire'

Maroon-red foliage. Yellow flowers bracts. May-June. 12-18" Sun. Space 18-24" apart. Early availability.

'Polychrome'

Green foliage with bright yellow bracts. April-May. 12-18". Sun. Space 12-18" apart.

●† FERNS

Prefer moist, shady locations with peat moss added to soil at planting. Excellent massed or as single specimen plants.

Variety	Frond Color	Height
Cinnamon	Pale green darkening to brown	3-5'
Japanese Painted 2004 Perennial Plant of the Year	Wine red/silvery sheen	18-24"
Lady	Pale green	24"
Ostrich	Green / vase shape	5-7'

GAILLARDIA

Short lined perennial with long bloom time. June-Sept. 24-36". Space 12-14" apart.

● GALIUM (Sweet Woodruff)

Excellent groundcover with tiny white flowers. May-June. 6". Part to full shade. Space 6-8" apart. Early availability.

▷ GERANIUM (Cranesbill)

Ground cover or border plant for sun to part-shade. Space 18-24" apart. Prefers morning sun.

Variety	Height	Color	Bloom Time
Max Frei	8-10"	Magenta	May-June
Rozanne 2008 Perennial Plant of the Year	18-20"	Velvet blue/ white center	June-Frost (Deadhead for prolonged bloom)

GEUM

Deep green, fuzzy foliage. Compact mound with flowers on 30" stems. Flowers are tangerine-orange. Late spring - midsummer. 30". Full sun to part shade.

PERENNIALS

GRASSES, ORNAMENTAL

↔# IBERIS (Candytuft) sempervirens

Flat clusters of white flowers on narrow evergreen leaves. April-May. 12". Sun. Space 18" apart. Limited availability.

IRIS

Bearded Iris

Large, bearded, orchid-like blooms on wide, fan-like foliage. Sun. Space 2-3' apart. Various colors and varieties available. Blooms in late May to June.

x **Siberian Iris**

Upright clumps of narrow, arching foliage. Blooms just after bearded iris. Thrives in moist soils. Space 2-3' apart.

Caesars Brother

Deep violet flowers. 30-36". May-June. Sun - part-shade. Space 24" apart.

KALIMERIS (Japanese Aster)

Blue Star

Pale blue flowers with a yellow center. Tolerant of heat, humidity and drought once established. 12-18". Sun to part-shade. June-Sept.

KNAUTIA (Scabiosa)

Clump forming perennial with soft white and green variegated leaves. Blooms are a purple-red dome. 12-18". July-Sept.

↔●● **LAMIUM (Spotted Dead Nettle)**

Easy to grow groundcover for shade to part-shade. Silver foliage emerges early. Foliage can be trimmed off to let it regrow for new growth in midsummer. Space 12-15" apart.

Variety	Height	Flower Color	Foliage Color
Beacon Silver	8-12"	Pink	Silver dark green margin
Purple Dragon	6-8"	Purple	Silver/green margin
White Nancy	6-8"	White	Silver/green margin

x **LAVANDULA (English Lavender)**

Fragrant flowers and foliage. July to September blooming. Sun.

Variety	Flower Color	Height
Hidcote	Violet-blue	12"
Munstead	Lavender-blue	12-18"
Phenomenal	Purple	24-32"

PERENNIALS

►x LEUCANTHEMUM (Shasta Daisy)

Long blooming, white flowered sun loving plants.
Excellent cut flowers. June-August.

Variety	Height	Bloom Type	Spacing
Becky 2003 Perennial Plant of the Year	36-40"	Single	36"
Snowcap	12-15"	Single	12"

►x LIATRIS (Gayfeather)

Kobold

Rose-lavender flower spikes on compact plants.
July-August. 18-30". Sun. Good cut flower.
Space 18-24" apart.

Floristan White

Creamy white flowers that open from top to bottom.
June-August. 3-4". Sun. Space 18" apart.

► LIGULARIA

Britt-Marie Crawford

Dark chocolate colored foliage with purple under-
sides. Orange-yellow flowers. 36-40" moist soil.
Shade to part-shade. Space 30" apart.

x **stenocephala (Little Rocket)**

Dwarf of The Rocket. Large yellow flowers on jagged
green leaves. July-August. Part-shade. Space 24-
30" apart. 36-48" tall. Needs moist soil for best
growth.

x **stenocephala (The Rocket)**

Large, golden yellow flower spikes with imposing
black stems. July-August. Part-shade. Space 24-30"
apart. 5". Needs moist soil for best growth.

LILIUM (Asiatic Lily)

Trumpet-shaped blooms in many colors. Bulb plants.
July-August. Sun. Height varies with each variety.

Variety	Height	Color
Lily Looks Tiny Series	10-18"	Mixed

LILIUM (Oriental Lily)

Variety	Height	Color
Casablanca	48"	Fragrant pure white
Landini	36-48"	Black
Stargazer	32"	Fragrant red/white margin

More varieties available upon request.

LIRIOPE (Lilyturf)

Low, grass like plant that is tough as nails! Lavender blooms. Aug.-Sept. Full sun to part shade. 12-18".

▮ LOBELIA (Cardinal Flower)

Hummer magnet! Various varieties. Red or blue flowers. Prefer moisture. Best color is obtained in morning sun. 24-40". Space 18-24" apart

Black Truffle

Deep purple/black foliage with bright red flowers. July-Sept. Full sun to part shade. Moist soil. 3-4'.

LUPINE (West Country Series)

Tall showy flower spikes that come in a variety of colors. 24-36". June-August. Full sun.

●● LYSIMACHIA

nummularia Aurea (Golden Creeping Jenny)

Yellow tulip shaped flowers on 2" plants with golden yellow leaves. June-August. Sun or shade. Wet or dry soil. Space 18-24" apart.

●● MERTENSIA (Virgina Blue Bells)

Native plant blooms early, in a shaded site. Usually goes dormant in the heat. Early availability. 15-18".

▮x MONARDA (Bee Balm)

Large tattered flowers bloom from June to August. Lemon scented foliage. 2-3'. Sun. Space 2-3' apart.

Variety	Height	Color
Electric Neon Pink	22"	Bright pink
Jacob Cline	48"	Red
Marshall's Delight	28"	Clear pink
Purple Rooster	36"	Royal purple
Sugar Buzz Series	16-24"	Hot pink, cherry red, magenta, lilac, raspberry purple

MYOSOTIS (Forget-me-not)

Small ground cover like plant. Small flowers come in blue, pink or white. 6-12". April-May. Full sun to part shade.

NEPETA (Catmint)

Lavender to blue flowers. May-Sept. Sun. Space 18-24" apart.

Variety	Height	Color
Cats PJs	12-14"	
Walker's Low	18-24"	Light lavender blue

PERENNIALS

OENOTHERA

macrocarpa (Evening Primrose)

Huge, bright yellow flowers followed by large winged seed pods. June-August. 9-12". Sun. Tolerates poor soil. Space 12" apart.

x PAEONIA (Garden Peony)

Peony #2 1.5 gal. (5.68 L) \$ 27.99 and up

These superb plants produce large abundant blooms late May to June. Good cut flower. Sun or part-shade. Space 3' apart. Long lived. Colors include red, white or pink. Cage peonies for best results.

† PAEONIA (Ittoh) #3 \$ 64.99 and up

A cross between a garden and tree peony. Produces large double flowers. 3'. June-July. Full sun to part shade.

x PAEONIA (Tree Peony)

\$ 34.99 and up

These plants become woody shrubs with branching stems. They do not die back to the ground as garden peonies do; so do not cut them back. Plants produce huge spectacular flowers. 4-5' tall. May-June. Full sun is best. Space 4-5' apart.

x PAPAVER (Oriental Poppy)

Low hairy leaves. Flowers May-June. Goes dormant after blooming. Sun.

Variety	Size	Color
Beauty of Livermore	28-36"	Scarlet red
Prince of Orange	24-36"	Orange/scarlet
Royal Wedding	30"	White/black center

Early Availability Only.

PENSTEMON (Beardtongue)

Large and showy tubular white flowers are a hummingbird magnet. 12" to 24" depending on variety. Plants prefer well-drained soils and are drought tolerant once established. Sun to part-shade. Mulch the first winter.

Husker Red

White flowers with maroon-dark green foliage. May-June. 24-36".

PEROVSKIA (Russian Sage)

Gray-green leaves are pungent when crushed.
Semi-woody stems. Lavender blue flowers. August-September. 3'. Sun. Space 3-4' apart.

Little Spire

Shorter upright variety. Lavender flower blooms.
Summer to fall. Drought tolerant. 24". Full sun.

▷x PHLOX (Woodland Phlox)

divaricata

Short, spreading colorful plants for the shady border.
Shear back after flowering to maintain plant shape.
12". Shade to part-shade. April-May. Space 15" apart.

PHLOX (Hybrid Phlox)

Forever Pink

Purple-pink flowers appear in June and will repeat blooming throughout the rest of the season. 16". sun.
Excellent mildew resistance. Space 15-18" apart.

x PHLOX (Tall Garden Phlox)

paniculata

Fragrant blooms. July-August. Space 2' apart to avoid mildew problems, and to keep plants healthy.

Variety	Color	Height	Mildew Resistant
Bright Eyes	Soft pink/ red center	18-24"	
Candy Store Series	Lt. Pink, purple		
Glamour Girl	Hot coral/pink white center	36"	
Nicky	Magenta	36"	Yes

↔ PHLOX (Creeping Phlox)

subulata

Perfect groundcover for rock gardens, borders or slopes. April-May. 4-6". Blooms best in sun.
Space 8-12" apart.

Emerald Blue Light blue flowers, compact.

Emerald Pink Rich, pink flowers, compact.

Scarlet Flame Deep pink flowers, compact.

Snowflake Pure white flowers.

PHYSOSTEGIA (Obedient Plant)

Tall, spike like flowers available in pink or white.
June-Sept. 3-4'. Full sun. Moist soil.

PERENNIALS

#x PLATYCODON (Balloon Flower)

Sentimental Blue

Outstanding dwarf selection. Intense blue flowers. July-August. 6-10". Sun. Space 12" apart.

Aster Series

Blue and pink. June-August. 8-10". Space 6-10" apart.

● POLEMONIUM (Jacob's Ladder)

Bressingham Purple

Compact plant. Purple tinted leaves with cobalt blue flowers. April-May. 6-18". Shade.

Touch of Class

Variegated white and green foliage. Pink buds open to lavender flowers. May-June. 14-16". Shade to part shade. Space 18-20" apart.

●#† PULMONARIA (Lungwort)

Moonshine

Silver foliage with dark green edges. Blue flower. April-May. 15". Shade to part-shade. Space 18-24" apart.

Trevi Fountain

Green foliage with silver dotting. Cobalt-blue flowers. April-May. 12". Shade to part-shade. Space 24" apart.

Raspberry Splash

Dark green leaves splashed with silver. Rich raspberry flowers. April-May. 12". Shade to part-shade. Space 18-24" apart.

x† RUDBECKIA (Black Eyed Susan)

American Gold Rush

Compact variety with bright yellow-gold flowers. July-September. 18-24".

Goldsturm (1999 Perennial Plant of the Year)

Deep yellow, daisy-like flowers with black cones. July-September. 24". Sun to part-shade. Good cut. Space 2' apart.

Little Goldstar

Star-shaped golden yellow flowers on well branched stems help above short bushy foliage. July-Sept. 14-16". Sun to part shade. Good cut. Space 18-24" apart.

Other varieties available.

► SALVIA (Meadow Sage)

Bushy plants with spiked flowers. June-July.
Cut back for some rebloom. Sun.
Space 18-24" apart.

Variety	Flower Color	Height
Bumble Series	Blue, pink, purple	12-14"
Caradonna	Violet-blue	18"
Marcus	Deep purple-blue	8-12"
May Night	Deep violet	18"
Rose Marvel	Rose pink	10-12"

↔# SEDUM (Stonecrop)

Autumn Joy

Dark pink flowers on thick stems. Holds together during peak bloom. 18-24". Sun. Space 2' apart. Divide every 3 years.

Dazzleberry

Smoky-blue groundcover sedum with raspberry-red flowers. 8". Sun. Space 18" apart.

Lime Twister

Compact with cream and green foliage that turns red in the fall. 6-8". Sun. Space 12-18" apart.

Lime Zinger

Compact with lime green leaves outlined in cherry red. 6-8". Sun. Space 12-18" apart.

sieboldii (October Daphne)

Foliage has a bluish cast to it and leaves develop a red edge as temperatures rise. Pink flower from Sept.-Oct. 6". Full sun. Space 8-12" apart.

Many more varieties available upon request due to the plants ability to endure droughts.

↔# SEMPERVIVUM (Hen and Chicks)

Thick fleshy leaves form rosettes available in green, purple or red. 4-6". July. Sun. Space 8-10" apart.

►↔# SISYRINCHIUM (Blue-eyed Grass)

Lucerne

Loads of 1" deep-blue flowers. Grassy green foliage. Low maintenance. 10-12". June-July. Sun to part-shade. Space 12-15" apart.

PERENNIALS

↔# STACHYS (Lamb's Ears)

Densiflorus (Wood Betony)

Lavender pink flower spikes. Attractive foliage. 8-10". Sun. Attracts butterflies. Space 12-15" apart.

Helen von Stein (Lamb's Ear)

Soft, woolly, silver-grey foliage for edging, ground-cover or accent. Non-flowering variety. 10-12". Sun. Space 18" apart.

Hummelo (2019 Perennial Plant of the Year)

Larger version of densiflorus. June-Aug. 18-24". Full sun.

● TIARELLA (Foamflower)

Green deeply lobed foliage. Mounding. April-May. Shade.

Spring Symphony

Olive-green foliage. Fragrant pink flowers. 6". Good in dry shade. Space 10-12" apart.

TRADESCANTIA (Spiderwort)

Long blooming perennial available in several colors. Easy to grow. June-Sept. Part sun. 18". Needs plenty of room to spread out.

Variety	Flower Color	Height
Sweet Kate	Blue	12-20"
Zwanenburg	Blue	24"

●● TRICYRTIS (Japanese Toad Lily)

White lily-like flowers spotted with purple. 3'. September-October. Shade to part shade. Space 2' apart. Late availability.

▶ VERONICA (Speedwell)

Long blooming spiked flowers on erect stems. Sun to part-shade.

Variety	Flower Color	Height
First Series	Pink, white, purple	6-12"
Royal Candles	Violet-blue	15-18"
Waterperry Blue	Sky blue	4"
Waterperry Whitewater	White	4"

YUCCA

Tough sword shaped leaves. Large spikes of white flowers in the summer. Full sun. Drought tolerant. Deer resistant.

Color Guard

Gold-centered variegated form. June-July. 3-6'. Full sun exposure to keep color.

Excalibur

Blue-green to gray-green leaves. Spikes of white flowers. June-July. 18-24".

This list of perennials is a guide to varieties generally available at Platt Hill Nursery. However, some varieties may not be available at all times. Please notify us if there is a variety you do not see, and we will try our best to locate it for you.

PERENNIALS THAT ATTRACT BUTTERFLIES

Aster	Garden Phlox
Bee Balm	Gayfeather
Black-eyed Susan	Milkweed
Coneflower	Shasta Daisy
Coreopsis	Speedwell
False Indigo	Stonecrop
False Sunflower	Yarrow

PERENNIALS THAT ATTRACT HUMMINGBIRDS

Beardtongue	Cardinal Flower
Bee Balm	Columbine
Bleeding Heart	Hardy Hibiscus
Butterfly Weed	Salvia

BIENNIALS

BIENNIALS

Plants produce green foliage in their first season (year) of growth. Second season (2nd year) of growth plants produce flowers, set seed and die. After several seasons of this, your plants should bloom every year in their life cycle as long as you let seeds fall onto unmulched ground.

x ALCEA (Hollyhock) Mix Varieties

Stately biennial or short-lived perennial has spikes of ball-shaped flowers. July-August. Sun. 4-6'. Space 3' apart. Reseeding.

► DIGITALIS (Foxglove)

Trumpet-shaped flowers. Sun to part-shade. June-July. All plant parts are toxic. Space 18-30" apart.

Variety	Flower Color	Height
purpurea 'Camelot'	Lavender or rose	3-4'

Other varieties available upon request.

ROCK GARDEN PLANTS

Low growing plants for sunny locations include the following varieties:

Bellflower	Creeping Phlox
Border Pink	Evening Primrose
Candytuft	Hens and Chicks
Creeping Jenny

TYPE	VARIETY	CHARACTERISTICS
Beans	Gold N Green Mix	55 days. French filet type beans with a delicious flavor and crispy texture.
	Bush Blue Lake	53 days. 6 in. pods, tender with rich flavor; bush type.
Beets	Detroit Dark Red	63 days. Best strain available; rich and flavorful.
Broccoli	Destiny	48 days. Med-small green heads.
Brussels Sprouts	Jade Cross "E"	85 days. Uniform 1½" sprouts; delicate flavor.
Cabbage	Golden Acre	65 days. Round solid heads.
	Late Flat Dutch	80 days. Great for storage.
	Ruby Perfection	85 days. Solid, globe-shaped red 4 lb. head.
Carrot	Hercules	65 days. 6-1/2-7" long roots grows well in shallow heavy soils.
Cauliflower	Snow Crown	60 days. Large, snowy white heads.
Celery	Tango	85 days. Great flavor and high yields.
Celery Root		100 days. Use in soup, salad, dressings (German Celery, Celeriac).
Collards	Georgia	70 days. Light frost improves cabbage flavor.
Corn	Honey 'n Pearl	71 days. Super sweet, bi-color; 9" ears.
Cucumber	Armenian	70 days. Heavily ribbed light green with mild, sweet taste. Pick when 24" long.
	Salad Bush	57 days. 6-7" fruit on compact plants; good for small gardens or containers. Disease resistant.
	Marketmore	63 days. 6-8" long, the standard for slicing cucumbers.
	Burpless	55 days. 8" long, dark green slicing variety
	Pickling	48 days. Developed for home pickling; harvest when 2" or 5"; disease resistant.
Eggplant	Little Fingers	65 days. Harvest when fruit is 4-6". Asian variety with superior tenderness and flavor.
	Black Beauty	80 days. Oval shape, deep color, medium-sized fruit, rich in flavor.
Kale	Starter	55 days. This variety can be harvested with one cut instead of stripping leaves.
Kohlrabi	Winner	55 days. Early variety, stays tender.
Leek	King Richard	75 days. Thick straight necks.
Lettuce	Buttercrunch (Bibb)	All American Winner. 64 days. Compact rosettes of tender leaves.
	Great Lakes (Head)	75 days. Large crisp heads; start early to avoid bolting.
	Gourmet Blend (Loose Leaf)	50 days. Tasty, colorful mix of colors and textured loose leaf.
	Romaine	65 days. Gourmet lettuce; easily grown.

TYPE	VARIETY	CHARACTERISTICS
Melon	Cantaloupe	78 days. Extra early; 4 lb. fruit.
	Honeydew	80 days. 2½-3 lb. round fruit.
Okra		49 days. All-American Winner.
Onions	Yellow Sweet Spanish	110 days. Large, yellow globe-shape; good flavor.
	Red	125 days. Red and white flesh when ripe.
Pak Choi		55 days. Grown for its stalks, used in Asian cooking. Good raw. Cool weather best.
Peas		56 days. Shelling pea. 4" pods.
	Sugar Snap	64 days. Great raw, steamed or stir fried. Eat the entire pod. Use in salads.
Peppers (Sweet)	Better Belle	65 days. Earlier, more vigorous; meatier than California Wonder.
	California Wonder	75 days. Blocky, sweet bell pepper, good for stuffing; green turns red when ripened.
	Gypsy	65 days. Elongated fruit larger than banana types; light green color.
	Sweet Banana	65 days. 8" long fruit are yellow ripening to orange
	Yellow Bell	70-80 days. Blocky sweet Bell pepper, good for cooking and adds color to salads. 4-5" fruit.
Peppers (Hot)	Bhut Jolokia (Ghost)	100 days. 2-3 long fruits with wrinkled skin. Hottest pepper we carry. Use glose when handling fruit.
	Carolina Reaper	90 days. One of the hottest peppers in the world.
	Habañero	95 days. HOTTEST OF HOT! 1" x 1½" fruits with thin, wrinkled skin; light green ripens to golden orange.
	Jalapeño	72 days. Tapered fruit 3" by 1"; dark green turns red when ripe, hot flavor
	Hungarian Hot Wax	70 days. 5" long fruits start yellow and turn red. 4-5 times hotter than a jalapeño
	Cayenne	75 days. Highly productive, very hot, 5" long tapered fruit; harvest green or when ripens to red.
	Poblano	65 days. Called Ancho when dried, poblano when fresh; 4" fruit that ripens from dark green to deep red.
	Scorpion	90 days. Wrinkled lantern shaped fruit. Hottest pepper on the planet.
	Serrano	75 days. Vigorous 30" plants with 2" thin-walled fruits; hot whether green or red.
	Super Chili	82 days. Very hot 2½" tapered fruit; very productive, green turns red when ripe.
	Thai Hot	70 days. 2" long, thin skinned fruits.
	and MANY MORE!	

VEGETABLES

Pumpkin	Dills Atlantic Giant	125 days. Huge, light orange. 200 lb. fruit.
TYPE	VARIETY	CHARACTERISTICS
Radicchio	Red Preco	60 days. Red-purple heads; early
Radish	Roxanne	21 days. Heat tolerant. Fast grower, replant every 2 weeks.
Spinach	Space	39 days. Tried and true variety. Great in salads or cooked dishes.

	Butternut (Waltham)	85 days. Improved fruit uniformity and increased yields
	Spaghetti (Tivoli)	100 days. All American Winner; 3-4 lbs.; oblong fruit; bush type
Summer Squash	Yellow Summer Crookneck	53 days. Bright yellow fruit with delicious flavor and fine texture
	Sunburst (Scallop)	50 days. All American Winner; yellow, scalloped shaped fruit; bush type
	Zucchini (Aristocrat)	50 days. yields great all summer long; 6-7" medium green fruit
	Zucchini (8 Ball)	42 days. First round zucchini; All American Selection Winner
Swiss Chard	Fordhook	50 days. Good raw or cooked.
Sweet Potato	Beauregard	90-95 days. Plump, long tuber are sweet and high-yielding.
Tomatillo		100 days. Great for salsas. Pick when fruit is 2-3".
Tomato	Beefmaster	80 days. King size 2 lb. fruit; slicing; greater disease resistance than Beefsteak
	Beefsteak	80 days. King size 2 lb. fruit; slicing; delicious and meaty
	Better Boy	70 days. Large 1 lb. firm fruit; outstanding flavor; slicing; good producer
	Big Boy	78 days. Vigorous producer of 1 lb. fruit; slicing; most popular variety
	Brandywine	85 days. Fruits up to 1.5 lbs.; slicing; superb flavor. Heirloom
	Bush Early Girl	54 days. Compact plants that yield more fruit than other bush forms. 6-7 oz. fruit. Salad. Determinate
	Celebrity	All American Winner. 72 days. Bush-type plant produces glossy red, 7 oz. fruit with light green shoulders. Salad, canning. Determinate.
	Cherokee Purple	85 days. Large dark purple fruit that can be 5" across and 3½" deep. Salad, slicing. Heirloom
	Cherry Red Large	72 days. Excellent salad tomato. High yields of 1 to 1-1/4" flavorful fruit. Salad, snacking.
	Early Girl	52 days. Earliest yields of 4-6 oz. fruit Salad.

TYPE	VARIETY	CHARACTERISTICS
Tomato	German Johnson	80 days. 16 oz. pinkish red fruit, excellent flavor. Slicing. Heirloom
	Husky Red Cherry	65 days. Semi determinate, sweet, juicy, cherry fruit. Salad, snacking.
	Juliet (Grape)	60 days. Grape cluster of 1 oz. fruit; high yields. Salad, snacking.
	Jetstar	72 days. 6-8 oz. fruit with mild flavor; high yield. Great slicing variety. Salad, snacking.
	Lemon Boy	80 days. 7 oz., round yellow fruit; slightly tangy, but sweet and mild.
	Mortgage Lifter	80 days. This beefsteak type can produce fruit up to 4 lbs., but the average is 2½ lbs. Slicing. Heirloom.
	Mr. Stripey	85 days. 9 oz. to 2 lb. fruits that have a mild, low-acid flavor and meaty flesh. Slicing Heirloom.
	Patio	70 days. Produces firm medium-size, oblate-shaped fruit on dwarf plants. Ideal for containers; needs staking. Salad. Determinate.
	Roma (Italian Plum)	70 days. Grows bright red, 2 oz. meaty, plum-shaped fruit; good for sauce, salsa, canning. Determinate.
	Rutgers	82 days. Improved disease resistant variety; 6 oz. fruit is smooth, thick-walled and crack-free. Salad. Determinate.
	San Marzano	80 days. 4 oz. fruit that are long and blocky. Great paste tomato for canning, sauce, salsa.
	Sun Gold	65 days. 1 oz. Golden-orange cherry tomato with fruit sweet tart flavor.
	Superfantastic	70 days. High yields of globe-shaped, 10 oz. fruit; good flavor and meaty. Slicing, canning.
	Sweet 100	70 days. Long clusters of up to 100 fruits; 1" across; needs staking. Salad, snacking.
and MANY MORE!		
Watermelon	Crimson Sweet	84 days. Sweet, red flesh; up to 20 lb. fruit
	Sugar Baby	85 days. Round 8-12 lbs. "icebox" type with firm, red flesh.

All vegetables are non GMO!

Also available: Garlic Bulbs, Cloves, Shallots , Onion Sets, Seed Potatoes

This list is only a guide to vegetable plants generally available at Platt Hill Nursery. We try our best to supply you with the widest selection and best varieties available. Due to unforeseen circumstances, we may not have every variety available at all times.

We carry:

Hybrid vegetables - Two different varieties are used to produce a cultivated variety with beneficial traits from both its parents.

Heirloom vegetables - Old-time varieties, open-pollinated instead of hybrid, and saved and handed down through multiple generations of families. Considered to be more flavorful than hybrids.

All vegetables are non GMO!

AQUATICS

HARDY WATER LILY	\$ 34.99-up
MARGINALS Hardy and Tropical	\$ 7.99-up
FLOATING PLANTS Water lettuce and water hyacinth	\$ 4.99
OXYGENATORS	\$ 3.99

**Aquatic plants are great for rain gardens.
Some choices for this are:**

Arrowhead
Lizard's Tail
Marsh Marigold
Pickernelweed
Rush

TROPICAL BLOOMERS

Platt Hill Nursery offers a large selection of blooming and non-blooming plants for your patio and garden. Hibiscus, Mandevilla, Bananas, Palms, Jasmine, Bougainvillea and Gardenias are just a few.

HOUSEPLANTS

Platt Hill Nursery offers a large selection of houseplants year round.

- Blooming
- Cactus and Succulents
- Terrarium
- Gift Baskets
- Clean Air
- Pet Friendly
- Sleep Well

GRASS SEED

We carry several “blends” of seed to adapt to the various sunlight conditions or traffic patterns of your yard. Our experienced staff will supply you with the approximate coverage rates (for either new lawns or for overseeding) and recommend the proper fertilizers to use. Please ask for more information.

SOD

5 ft. x 2 ft./10 sq. ft.

\$ 6.49 per roll

Platt Hill Nursery has freshly cut sod during the growing season. However, availability is very much dependent on weather conditions (i.e., too much rain prevents the cutting of the sod). Please call ahead if in doubt.

PREPARATION AND INSTALLATION OF SOD:

1. All areas to be sodded should be finish graded. Grade should be 1” below walks and drives, so sod will be even when installed.
2. Do not install sod on a hard surface. Use mushroom compost or peat moss to create a soft layer for the sod to settle into.
3. Start laying sod along a straight edge, such as a drive or walk. Lay sod tight against each other. **DO NOT OVERLAP.** Trim off excess with a sharp knife. Sod should be laid with joints staggered.
4. As soon as an area large enough to sprinkle is laid, start watering and completely saturate. Water sod thoroughly with a penetration of about 6 inches.
5. Water daily for the first three days. Water every other day for the first week, then as needed.

Water 2-4 hours per sprinkler setting.

Mow when leaf growth reaches 3-4 inches.

Lawn fertilizer available at Platt Hill Nursery
can be applied 30 days after installation.

APPROXIMATE SOIL AMENDMENT REQUIREMENTS

The following is based on digging a hole twice as wide as the pot size and filling in with 20% compost or soil conditioner.

Pot Size	1.5 Cu. Ft. of One Step Will Plant Approx:	One .75 cu. ft. Bag Peat Humus Will Plant:
#1 2.7 qt. (2.5 L)	10-12 plants	8 plants
#2 1.5 gal. (5.68 L)	8-10 plants	6 plants
#5 3.8 gal. (14.7 L)	6-8 plants	3 plants
#7 6.2 gal. (23 L)	4-5 plants	2 plants

Amount of Peat Moss Required to Plant a:	One Step	One .75 cu. ft. Bag Peat Humus
#10 9.0 gal. (34 L) plant	1½ cu. ft.	1 40-lb. bag
#15 13.5 gal. (51 L) plant	¾ cu. ft.	1 ½ 40-lb. bags
#20 19.7 gal. (75 L) plant	1 cu. ft.	2 40-lb. bags
B & B plant	1 cu. ft.	2 40-lb. bags

SOIL AND SOIL AMENDMENTS

TOP SOIL

One 40 lb. bag covers approximately 5 square feet at a depth of 2 inches.

.75 cu. ft. \$2.49 each

36 bags = 1 cubic yard

1 cubic yard of topsoil covers approximately:

1" deep - 320 square feet

2" deep - 160 square feet

4" deep - 80 square feet

Formula for determining square foot areas:

Circles: $\text{Area} = 3.1416 \times \text{Radius squared}$

Triangles: $\text{Area} = 1/2 \text{ Base} \times \text{Height}$

Rectangles : $\text{Area} = \text{Base} \times \text{Height}$

COMPOST MANURE

.75 cu. ft. \$2.99 each

PEAT HUMUS

.75 cu. ft. \$2.99 each

SPHAGNUM (CANADIAN) PEAT MOSS

1 cu. ft. bale \$13.99 each

2.2 cu. ft. bale \$21.99 each

3.8 cu. ft. bale \$34.99 each

New Lawns:

Before seeding, dig up 4 to 6 inches of topsoil and mix thoroughly with 1 inch layer of peat moss.

Established Lawns:

4 cubic feet of peat moss covers 300 square feet as a light top dressing.

Garden Use:

4 cubic feet of peat moss covers 50 square feet at 2 inches deep. Rototill in 4 to 6 inches with your garden fertilizer.

SAND – PAVER BASE

One 1/2 cu. ft. bag of sand will cover approximately 3 square feet at a depth of 1 inch.

PLAY SAND

Used for sandboxes, patio stone or swimming pool bases.

This is the finest washed sand available. Use no other in your sandboxes.

50lb. \$3.99 each

TORPEDO SAND

Grainy sand used for patios, construction, and to improve soil aeration and drainage. Not for use in sandboxes.

50lb. \$3.99 each

GRADE 8 ROAD MIX (Paver Base)

Use for patio stone or paver stone base. Apply 3-4" deep and compact thoroughly. Top dress with limestone screening.

50lb. \$3.99 each

SOIL AND SOIL AMENDMENTS

LIMESTONE SCREENING

Use as a granular base for laying of patio stone, retaining wall or paving block.

50lb. bag \$3.99 each

MUSHROOM COMPOST

Used as an organic amendment or mulch for the improvement of low fertile soil. Its magic qualities accelerate new and existing plant growth. It is the favorite of Platt Hill Nursery's grower.

1.5 cu. ft. bag \$5.99 each

BLENDED COMPOST

Mushroom compost blended with organic compost. Provides a nutritional boost to existing soil conditions. Improves soil structure when preparing beds.

1.5 cu. ft. bag \$5.99 each

ONE STEP SOIL CONDITIONER

Organic soil amendment with rooting stimulant included.

1.5 cu. ft. bag \$8.49 each

POTTING SOIL

20 lb. bag \$2.49 each

.75 cu. ft. \$3.49 each

PHN CUSTOM POTTING MIX (METRO MIX)

All purpose potting soil used exclusively in our greenhouse production. Great for seed starting. Great for container gardens.

2.8 cu. ft. bag \$24.99 each

GYPSUM

All natural soil conditioner for lawns, gardens, trees and shrubs. Loosens hard packed soils, breaks up clay and increases water penetration.

40 lb. bag \$12.99 each

LIME-Pelletized Limestone

Acid neutralizing soil conditioner. Supplies magnesium and calcium to soil. Covers 4,000 sq.ft.

40 lb. \$9.99 each

STRAW

New Lawns:

One bale of straw covers approximately 50 square feet when used as a light mulch after seeding.

Bale \$11.99 each

Half Bale \$6.99 each

Bag \$3.49 each

ORGANIC MULCHES

CEDAR BARK MULCH

2 cu. ft. bag \$ 6.99 each

CYPRESS MULCH

2 cu. ft. bag \$ 5.99 each

DECORATIVE DYED MULCH (Red, Brown or Black)

Fade resistant dyed mulch.

2 cu. ft. bag \$ 5.99 each

PINE BARK

Available in two forms: **mulch** and **nuggets**.

2 cu. ft. bag \$ 5.99 each

SHREDDED HARDWOOD

Platt Hill's choice in mulches. This premium hardwood mulch is 100% organic and weed free. The best of the organic mulches.

2 cu. ft. bag \$ 6.99 each

WESTERN BARK MULCH

Available in three sizes: **small**, **medium** and **large**.

2 cu. ft. bag \$ 10.99 each

Note:

2 cu. ft. bag will cover approximately:

24 sq. ft. at a depth of 1 inches

12 sq. ft. at a depth of 2 inches

8 sq. ft. at a depth of 3 inches

27 cu. ft. equals 1 cubic yard

For additional weed control, use Landscape Fabric as underlayment for mulches used around plant material. Its woven construction allows air and water to pass through, but prevents weeds from growing. Available in 25, 50 and 100 ft. rolls, 3 ft. wide.

DECORATIVE STONE

ALABAMA SUNSET

1/2 cu. ft. bag \$9.99 each

AMERICAN HERITAGE

1/2 cu. ft. bag \$5.99 each

BLACK GRANITE

1/2 cu. ft. bag \$8.49 each

BLACK OBSIDIAN

1/2 cu. ft. bag \$8.49 each

BRICK CHIPS (Red)

1/2 cu. ft. bag \$8.49 each

DESERT SUNSET

1/2 cu. ft. bag \$8.49 each

GRAY SLATE CHIPS

1/2 cu. ft. bag \$8.49 each

MERAMEC NUGGETS

1/2 cu. ft. bag \$5.99 each

MERAMEC PEBBLES

1/2 cu. ft. bag \$5.99 each

MEXICAN PEBBLES

32 lb. bag \$29.99 each

NEW YORK BLUESTONE CHIPS

1/2 cu. ft. bag \$9.99 each

NORTHERN LIGHTS MARBLE

1/2 cu. ft. bag \$8.49 each

PEA GRAVEL

One cubic yard of Pea Gravel will cover approximately 125 square feet at a depth of 2 inches.
Fifty-four 1/2 cu. ft. bags equal 1 cubic yard.

1/2 cu. ft. bag \$3.99 each

PINK BLUSH Small 3/4"-1"

1/2 cu. ft. bag \$8.49 each

POND PEBBLES 3/4" & POND ROCK 1 1/2-2"

1/2 cu. ft. bag \$3.99 each

VOLCANIC ROCK

Black 1 cu. ft. bag \$11.99 each

Red 1 cu. ft. bag \$11.99 each

PATIO STONE

PATIO STONE (Round or Square)

Exposed Aggregate (Meramec-Tan; Pea Stone-Multi Gray White; B.C. Pebble-Black/Purple)

12"	\$5.49 each
18"	\$10.99 each
24"	\$19.99 each

NATURAL GRAY BLOCK (Round or Square)

12"	\$2.99 each
18"	\$6.49 each
24" (square only)	\$ 12.99 each

BOULDERS

Cobblers	\$0.29/lb.
Black Obsidian	
Fern Green	
Mountain White	
Rose Quartz	
Canyon Cobble Mini & Flat	\$0.69 per lb.
River Mason Boulder	\$0.49 per lb.

FLAGSTONE & STEPPERS

CHESTNUT STEPPERS	\$0.49/lb.
CHESTNUT FLAGSTONE	\$0.69/lb.
CHILTON STEPPERS	\$0.39/lb.
CHILTON FLAGSTONE	\$0.69/lb.
DESERT FLAGSTONE	\$ 0.49/lb.

Note:

**1/2 cu. ft. bag will cover approximately
6 sq. ft. at a depth of 1 inch.
54 1/2 cu. ft. bags equal 1 cubic yard.**

When using crushed stone around plant material, we recommend using Landscape Fabric instead of plastic. Its construction enables air and water to reach the root zones, but weeds cannot penetrate through.

OAKFIELD STEPPERS

250 lbs. cover 10 sq. ft.

\$0.29/lb.

OAKFIELD FLAGSTONE

\$ 0.49/lb.

WALLSTONE: 2-3" thick approximately

CHESTNUT

\$0.39/lb.

CHILTON

\$0.39/lb.

OAKFIELD

\$0.29/lb.

HARD GOODS — MISCELLANEOUS

SPLASH BLOCK (For Gutter Downspouts)

24" concrete

\$11.49

BURLAP

Brown, untreated.

5 ft. x 5 ft.

\$2.99 each

PLANTING TIPS

- Dig the planting hole up to twice as wide as the diameter of the root ball of the plant.
- The depth of the hole should be the same as the depth of the root ball. All woody plants should be planted so that they are the same level in the soil as they were originally growing in the container.
- Remove the plant from the plastic container and carefully place the root ball into the hole. With balled and burlapped stock, cut all the string at the base of the plant. Leave the burlap on the ball.
- Backfill with a mixture of one part blended compost and three parts soil.
- When watering the plant, form a basin around its base so the water will soak in rather than run off. Water slowly and thoroughly until all the soil has settled and the ball is saturated. It may be necessary to straighten the plant and backfill firmly with more soil.
- In times of wet, cool weather (spring & fall) water thoroughly every two weeks. It is critically important that the soil dry out between waterings. In times of dry weather, a thorough watering once a week should be sufficient. For larger plants, a root feeder is ideal for watering deep down.
- Give special attention to plants set so close to a wall that an overhanging roof blocks rainfall. They will require regular watering from April thru November.
- Spreading a two inch layer of shredded hardwood mulch over the root zone will aid in keeping the soil evenly moist.

GIFT CARDS

Gift Cards are available in any amount and are redeemable for plants or merchandise when presented at our garden center.

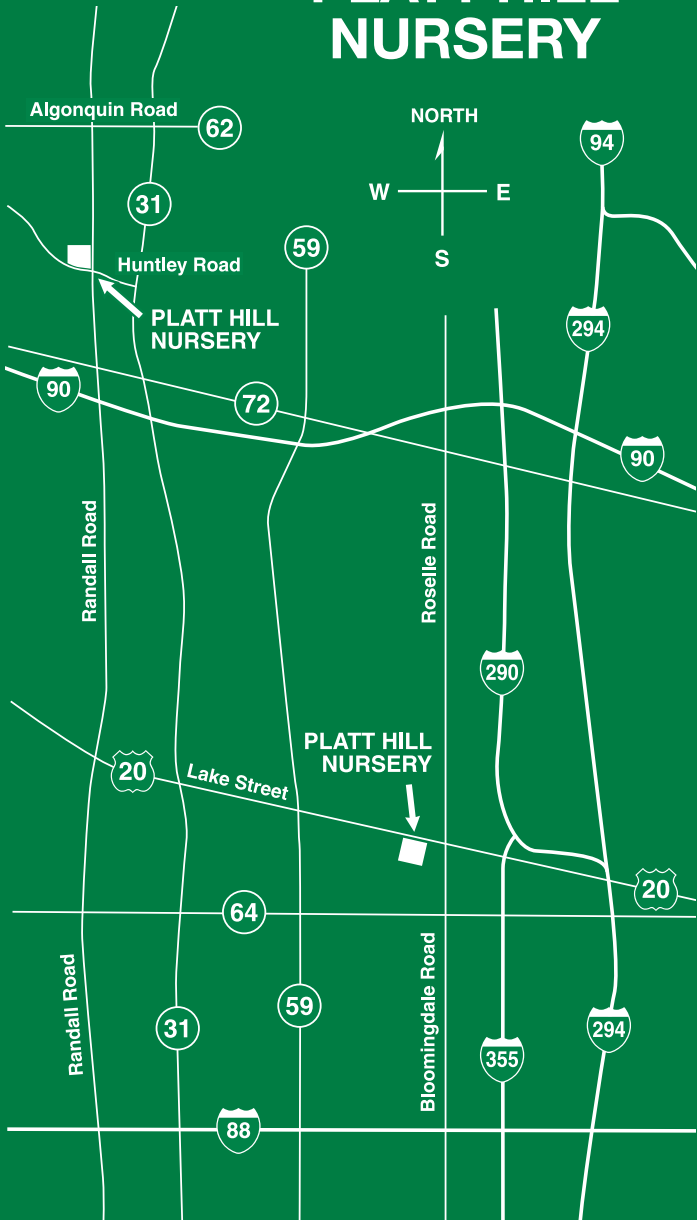

To provide you with the professional service you expect, we belong to the following organizations which provide us with the latest developments on landscape design, plant diseases and the most current selection of plant material in the industry.

- American Nursery and Landscape Association
- Illinois Green Industry Association
- Garden Centers of America
- Bedding Plants International
- Horticultural Research Institute
- Illinois Landscape Contractors Association
- Ohio Florists Association
